Admission: 11/28/2025 Care Team

## COVID-19 Pre-Admission Screening Questionnaire 11/28/2025 02:52 PM

Date/Time: 11/28/2025 02:52 PM

### Living at Reflections, LLC

### COVID-19 Pre-Admission Screening Questionnaire

**Client Name:** Ryan Bohannon

It is the intent of LAR to protect our current clients from exposure to COVID-19 and use Universal Precautions at all times. LAR will follow the guidance for healthcare facilities from the Centers for Disease Control and Prevention (CDC). Therefore, we are unfortunately not able to allow any visitors who may have been in contact with someone with COVID-19 OR who are exhibiting flu-like symptoms.

#### Pre-Admission Screening for Clients Scheduled to Admit:

- |  |                                 |   |
|--|---------------------------------|---|
| 1. Are you experiencing flu-like symptoms, such as fever, cough, or shortness of breath?         | Yes<br><input type="checkbox"/> | No<br><input checked="" type="checkbox"/> |
| 2. In the last 14 days have you traveled to a high-risk area for transmission of COVID-19?       | Yes<br><input type="checkbox"/> | No<br><input checked="" type="checkbox"/> |
| 3. Have you been in close contact with someone confirmed or who is being evaluated for COVID-19? | Yes<br><input type="checkbox"/> | No<br><input checked="" type="checkbox"/> |

If "Yes" is answered to any of the above questions, advise the individual to seek an immediate medical evaluation.

#### Are you at risk for severe COVID-19 symptoms:

- |  |                                 |   |
|--|---------------------------------|---|
| 1. Do you have a history of respiratory illness? | Yes<br><input type="checkbox"/> | No<br><input checked="" type="checkbox"/> |
| 2. Are you immunocompromised?                    | Yes<br><input type="checkbox"/> | No<br><input checked="" type="checkbox"/> |
| 3. Are you over the age of 60?                   | Yes<br><input type="checkbox"/> | No<br><input checked="" type="checkbox"/> |

#### Information to Communicate:

In addition to asking the above Pre-Admission Screening questions, briefly review the following process with the client so they understand what to expect when they arrive at the facility:

#### 1. Clients will be asked by a staff prior to traveling to the facility:

- A) Are you experiencing flu-like symptoms, such as fever, cough, or shortness of breath?

DENIES

- B) Have you been in close contact with someone confirmed or who is being evaluated for COVID-19?

DENIES

- C) Have you been fully vaccinated for COVID-19?      Yes  
      No

- D) What vaccine did you receive and on what date?

CLIENT CAN'T RECALL DATES BUT HE CAN PROVIDE PROOF. RECEIVED PFIZER

E) Have you tested positive for COVID-19? If so what was the date of your positive test?

DENIES

1. Client should also be informed:

1. They will be asked to engage in washing their hands upon arrival to the facility
2. After they have washed their hands and are signing into the facility they will be asked screening questions again
3. The facility will all clients and visitors with a Universal Precautions Information Sheet
4. If a Client answers "yes" to either screening question they will not be allowed to visit and will be advised to seek a medical evaluation as soon as

**What to Expect When arriving for Admission:**

- a. Clients/Family will be met in the lobby and informed we are following Universal Precautions Protocols. They will be asked to wash their hands upon arrive and prior to entering common areas/offices
- b. The Client/Family will be asked Pre-Admission screening questions by the nurse or designee within 60 minutes of arrival and:
  - i. Check for fever
  - ii. Listen for respiratory issues

The staff's signature below is verification that all the above information was obtained from and communicated with the client prior to traveling to the facility for admission. Upon completion of this form it should be attached to the clients record in KIPU.

Irma Martinez, LPT (Staff), 11/28/2025 05:15 PM

### Living at Reflections, LLC

#### Consent For Treatment & Conditions Of Admission

- 1. **Consent:** I voluntarily consent to this admission to Living at Reflections, LLC .
- 2. **Emergency Treatment and/or Hospital Transfer:** I understand that while at Living at Reflections, LLC, the need for emergency treatment and/or transfer to a hospital may become necessary and appropriate. Should the need for such treatment and/or transfer be deemed necessary and appropriate by my attending physician, his/her assistants, and designees, I consent to such emergency treatment and/or transfer to a hospital and hereby indemnify Living at Reflections, LLC and its staff, or any physician who may be in attendance, from any loss resulting from such emergency treatment and/or transfer.
- 3. **Medical Consent:** The Client is under the care of his/her attending physician, or the physician assigned by Living at Reflections, LLC, and the undersigned consents to examination and laboratory procedures. Medical treatment is rendered under the order of the physician or his/her designee.
- 4. **Drug Screen Consent:** I further understand that part of the treatment offered by Living at Reflections, LLC may require my submitting to urinalysis for drug/alcohol content, psychological testing, and other such similar procedures and that the consent that I have given in this document shall include, but not be limited to, the same. The results of urinalysis will be used for treatment planning purposes, will not be used for terminating treatment planning purposes, and will not be released without Patient consent. Federal regulations prohibit making any further disclosure of this information unless expressly permitted by written consent of the person whom it pertains or as otherwise permitted by CFR 42, part 2.
- 5. **Conditions of Treatment:** I acknowledge and understand that the practice of substance abuse treatment is not an exact science and that no promises or guarantees have been made to me regarding the final outcome of my treatment by Living at Reflections, LLC. I do hereby absolve Living at Reflections, LLC from any liability in the event that its treatment of my person is unsuccessful either in the short or long term or any events that may occur due to my addiction and/or treatment.
- 6. **Rules & Regulations:** I hereby agree to comply with and abide by the policies, rules, and regulations of Living at Reflections, LLC in my treatment. Client acknowledges that they may not be eligible for all treatment services without COVID-19 vaccination.
- 7. **Release of Information:** Living at Reflections, LLC may disclose all or any part of the Patient's record to any person or corporation which is or may be liable under a contract to Living at Reflections, LLC, or to the Patient, or to a family member of Client, for all or part of the facility charges. Living at Reflections, LLC may further disclose all or said part of the Client's record to the referring doctor, hospital, clinic, and in case of minors, may disclose aftercare forms to the Client's school system.
- 8. **Personal Valuables:** Living at Reflections, LLC shall not be liable for any loss of or damage to any money, jewelry, eyeglasses or contact lenses, dentures, documents, or any other articles of value.
- 9. **Drugs:** The Client shall neither use nor keep any drugs or drug appliance/apparatus not prescribed by or on behalf of the attending physician. All medications should be dispensed/taken as directed by the physician during the Client's current stay. Any such contraband found in the Client's possession will be removed and destroyed.
- 10. **Photograph:** I understand and consent I may be under camera surveillance for my safety and protection. I, consent to be photographed by Living at Reflections, LLC staff upon admission. These photographs are to remain as part of the permanent medical record and not otherwise disseminated without the client's specific consent.

It is the policy of Living at Reflections, LLC that the photo and camera surveillance is for therapeutic purposes and will be conducted upon consent of the client and only with approved equipment. I **knowledge that I may decline from being under being under camera surveillance while at Living at Reflections, LLC for my safety and protection. In the event that I decline, I understand that I will not be allowed to remain in treatment.**

The undersigned certifies to understand and agree to the above, receiving a copy thereof, and is the Client, or is duly authorized by and on behalf of the Client to execute the above and accepts its terms personally and upon the Client's behalf.

### Living at Reflections, LLC

#### Activities Release and Waiver of Liability

**Notice:** This form contains a release and waiver of liability and when signed is a contract between the undersigned participant and Living at Reflections, LLC with legal consequences. Please read this Agreement, consisting of one (1) pages in its entirety, carefully before signing your name at the bottom of the page. This form must be signed in the presence of one (1) witness who should sign as witness.

**Date of Execution of Release and Waiver of Liability:**

The undersigned agrees that this "Activities Release and Waiver of Liability" form agreement is valid from the date of execution through the date of discharge.

**Acknowledgments and Representations by Client:**

The undersigned is currently a client of Living at Reflections, LLC. The undersigned has voluntarily consented to participate in voluntary sports activities or voluntary physical activities such as yoga, basketball, and other such type of voluntary sports or physical activities, which may not be specifically identified herein, while being a client at such facility. The undersigned acknowledges and represents that his participation in such sports activities and physical activities is not a mandatory requirement of Living at Reflections, LLC, and that any participation by the undersigned in any and all sports related activities and physical activities, is purely voluntary and of the undersigned's own free will. The undersigned acknowledges and represents that there has been no coercion or force on the part of Living at Reflections, LLC for the undersigned to execute this release and waiver of liability agreement. The undersigned has knowingly, freely and voluntarily consented to execute this release and waiver of liability agreement. The undersigned acknowledges and understands that it is the undersigned's sole decision to participate in such voluntary activities. The undersigned acknowledges and represents that he has been informed that he has an absolute right to refuse to participate in any and all sports related activities or physical activities.

**To Living at Reflections, LLC, Inc.:** In consideration of the opportunity afforded to me, by Living at Reflections, LLC, to participate in voluntary sports activities or voluntary physical activities such as yoga, basketball, and any other similar types of voluntary sports or physical activities which may not be specifically identified herein, the undersigned client freely agrees to make the following contractual representations and agreements with Living at Reflections, LLC.

The undersigned client, does hereby knowingly, freely, and voluntarily assume all liability for any damage or injury that may occur as a result of my (or my dependent/ward) participation in the activities described herein and agree to release, waive, discharge, and covenant not to sue Living at Reflections, LLC, its officers, agents, employees, and volunteers from any and all liability or claims that may be sustained by me or a third party directly or indirectly in connection with, or arising out of participation in the activities described herein, whether caused in whole or in part by the negligence of Living at Reflections, LLC, or otherwise.

The undersigned client, has read this form, fully understand its terms, and understand that, I have given up substantial rights by signing it and have signed it freely and without any inducement or assurance of any nature and intend it to be a complete and unconditional release of any and all liability to the greatest extent allowed by law, and I agree that if any portion of this contract is held to be invalid the balance notwithstanding, shall continue in full legal force and effect.

I also agree, that the rules provided to me by the Living at Reflections, LLC, will be followed during the course of my voluntary participation in the activities described herein. Otherwise, my privilege of participating in such activities will be revoked immediately. Each client must sign a release and waiver of liability form in order to participate in the voluntary activities described herein. I acknowledge that due to the nature of the activities described herein, Living at Reflections, LLC staff will not be able to prevent injuries from occurring during the course of such activities; therefore, I am choosing to participate in such activities at my own risk and agree to assume all risks associated therewith.

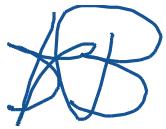

**Indemnification of Living at Reflections, LLC:** The undersigned client shall at all times hereafter indemnify, hold harmless and, at Living at Reflections, LLC Attorney's option, defend or pay for an attorney selected by Living at Reflections, LLC to defend Living at Reflections, LLC, its officers, agents, servants, and employees against any and all claims, losses, liabilities, and expenditures of any kind, including attorney fees, court costs, and expenses, caused by negligent act or omission of the client, other clients, Living at Reflections, LLC, its employees, agents, servants, or officers, or accruing, resulting from, or related to the undersigned client engaging in any voluntary sports activities or voluntary physical activities such as volleyball, aerobics, and any other similar types of voluntary sports or physical activities which may not be specifically identified herein, including, without limitation, any and all claims, demands, or causes of action of any nature whatsoever resulting from injuries or damages sustained by any person or property. The provisions of this section shall survive the expiration or earlier termination of this Agreement or the discharge of the client from the residential/outpatient facility operated by Living at Reflections, LLC.

**Venue:** This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of  
Powered by Kipu Systems

### Living at Reflections, LLC

#### Client Rights

In accordance with Title 9, Chapter 5, Section 10569, of the California Code of Regulations, each person receiving services from a residential alcoholism or drug abuse recovery or treatment facility shall have rights which include, but are not limited to, the following:

- 1) To be treated for the life-threatening, chronic disease of substance use disorder with honesty, respect, and dignity, including privacy in treatment and in care of personal needs
- 2) To be informed by the treatment provider of all the aspects of treatment recommended to the client, including the option of no treatment, risks of treatment, and expected result or results
- 3) To be treated by treatment providers with qualified staff
- 4) To receive evidence-based treatment
- 5) To be treated simultaneously for co-occurring behavioral health conditions, when medically appropriate and the treatment provider is authorized to treat co-occurring conditions
- 6) To receive an individualized, outcome-driven treatment plan 2
- 7) To remain in treatment for as long as the treatment provider is authorized to treat the client
- 8) To receive support, education, and treatment for their families and loved ones, if the treatment provider is authorized to provide these services
- 9) To receive care in a treatment setting that is safe and ethical
- 10) To be free from mental and physical abuse, exploitation, coercion, and physical restraint
- 11) To be informed of these rights once enrolled to receive treatment, as evidenced by written acknowledgment or by documentation by staff in the clinical record that a written copy of these rights were given
- 12) To be informed by the treatment provider of the law regarding complaints, including, but not limited to, to be informed of the address and telephone number of DHCS
- 13) To receive ethical care that covers and ensures full compliance with the requirements set forth in Chapter 5 (commencing with Section 10500) of Division 4 of Title 9 of the California Code of Regulations and the alcohol and other drug program certification standards adopted in accordance with Section 11830.1, if applicable

#### COMPLAINTS

In accordance with Title 9, Chapter 5, Section 10543(a), of the California Code of Regulations, any individual may request an inspection of an alcoholism or drug abuse recovery or treatment facility. Complaints should be directed to:

Department of Health Care Services Licensing and Certification Branch, MS 2600

PO Box 997413

Sacramento, CA 95899-7413

Attention: Complaint Coordinator

(916) 324-4505

FAX (916) 322-2658

TDD: (916) 445-1942

#### Acknowledgement

I have been personally advised and have received a copy of my personal rights and have been informed of the provisions for complaints at the time of my admission to Living at Reflections, LLC.

#### Complaints / Grievances

A client has the right to submit a complaint / grievance without retaliation or barriers to services either verbally or in writing to their primary therapist. If the client feels that their issues were not resolved by their primary counselor, they have the right to have their complaint / grievance reviewed by the Clinical Director for consideration. If the issue remains unresolved to the client's satisfaction, the complaint will be forwarded to the Living at Reflections, LLC Executive Director for final consideration and resolution.

- The client will be enabled to discuss their concerns / issues with their primary therapist.
- If not resolved, the client will be enabled to request, in writing, a meeting with the Clinical Director.
- The Clinical Director must meet with the client within three business days of receipt of the written request, and must respond within two business days of the meeting.
- If not resolved, the client may request that the issue be addressed by the Living at Reflections, LLC Executive Director. The facility Executive Director will contact the client to review the grievance within two business days.
- The decision of the Living at Reflections, LLC Executive Director will be rendered within three (3) business days and is final.
- Clients have the right to request that a witness or client advocate of their choice be available for assistance.
- If the client's complaint / grievance relates to the facility Executive Director the complaint / grievance will be forwarded to the next highest person in the reporting chain.

### Living at Reflections, LLC

## Confidentiality & Limits of Confidentiality of Mental Health, Alcohol & Drug Abuse Client Records

The confidentiality of mental health, alcohol abuse, drug abuse, and/or eating disorder Client records maintained by this program is protected by Federal laws and regulations. The limits of confidentiality include that the program may not say to a person outside the program that a Client attends the program or disclose any information identifying a Client as an alcohol or drug abuser, UNLESS:

1. The Client consents in writing;
2. The disclosure is allowed by a court order, or
3. The disclosure is made to medical personnel in a medical emergency or to qualified personnel for research, audit or program evaluation.
4. Suspected child or elderly abuse or neglect from being reported under State law to appropriate State or local authorities.
5. Any information about a crime committed by a Client either at the program or against any person who works for the program or about any threat to commit such a crime.
6. Any threats to self or to others.

Violation of the Federal laws and regulations by a program is a crime. Suspected violations may be reported to the appropriate authorities in accordance with Federal regulations.

Federal laws and regulations do not protect any information about a crime committed by a Client either at the program or against any person who works for the program or about any threat to commit such a crime.

Federal laws and regulations do not protect any information about suspected child or elderly abuse or neglect from being reported under State law to appropriate State or local authorities.

I understand that my records are protected under Federal Confidentiality regulations (42 U.S.C. 290dd-3 and 42 U.S.C. 290ee-3 for Federal laws and 42 CFR Part 2 for Federal regulations) published August 10, 1987, and cannot be disclosed without my written consent unless otherwise provided in the regulations. I understand that my medical record may contain information concerning my psychiatric, psychological, drug or alcohol abuse, HIV/Acquired Immune Deficiency Syndrome (AIDS) and/or related conditions.

### Uses and Disclosure of Health Information

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.**

**PLEASE REVIEW IT CAREFULLY**

**This notice is effective as of April 15, 2003**

#### USES AND DISCLOSURE OF HEALTH INFORMATION

Living at Reflections, LLC is committed to protecting the privacy of the personal and health information we collect or create as part of providing health care services to our clients, known as "Protected Health Information" or "PHI". PHI typically includes your name, address, date of birth, billing arrangements, care, and other information that relates to your health, health care provided to you, or payment for health care provided to you. PHI DOES NOT include information that is de-identified or cannot be linked to you.

This notice of Health Information Privacy Practices (the "Notice") describes Living at Reflections, LLC's duties with respect to the privacy of PHI, Living at Reflections, LLC's use of and disclosure of PHI, client rights and contact information for comments, questions, and complaints.

## **Living at Reflections, LLC'S PRIVACY PROCEDURES AND LEGAL OBLIGATIONS**

Living at Reflections, LLC obtains most of its PHI directly from you, through care applications, assessments and direct questions. We may collect additional personal information depending upon the nature of your needs and consent to make additional referrals and inquiries. We may also obtain PHI from community health care agencies, other governmental agencies or health care providers as we set up your service arrangements.

Living at Reflections, LLC is required by law to provide you with this notice and to abide by the terms of the Notice currently in effect. Living at Reflections, LLC reserves the right to amend this Notice at any time to reflect changes in our privacy practices. Any such changes will be applicable to and effective for all PHI that we maintain including PHI we created or received prior to the effective date of the revised notice. Any revised notice will be mailed to you or provided upon request.

Living at Reflections, LLC is required by law to maintain the privacy of PHI. Living at Reflections, LLC will comply with federal law and will comply with any state law that further limits or restricts the uses and disclosures discussed below. In order to comply with these state and federal laws, Living at Reflections, LLC has adopted policies and procedures that require its employees to obtain, maintain, use and disclose PHI in a manner that protects client privacy.

### **USES AND DISCLOSURES WITH YOUR AUTHORIZATION**

Except as outlined below, Living at Reflections, LLC will not use or disclose your PHI without your written authorization. The authorization form is available from Living at Reflections, LLC (at the address and phone number below). You have the right to revoke your authorization at any time, except to the extent that Living at Reflections, LLC has taken action in reliance on the authorization.

The law permits Living at Reflections, LLC to use and disclose your PHI for the following reasons without your authorization:

**For Your Treatment:** We may use or disclose your PHI to physicians, psychologists, nurses, Pharmacies and other authorized healthcare professionals who need your PHI in order to conduct an examination, prescribe medication or otherwise provide health care services to you.

**To Obtain Payment:** We may use or disclose your PHI to insurance companies , government agencies or health plans to assist us in getting paid for our services . For example, we may release information such as dates of treatment to an insurance company in order to obtain payment.

**For Our Health Care Operations:** We may use or disclose your PHI in the course of activities necessary to support our health care operations such as performing quality checks on your employee services. We may also disclose PHI to other persons not in Living at Reflections, LLC's workforce or to companies who help us perform our health services (referred to as "Business Associates") we require these business associates to appropriately protect the privacy of your information .

**As Permitted or Required By The Law:** In some cases we are required by law to disclose PHI. Such as disclosers may be required by statute, regulation court order, government agency, we reasonably believe an individual to be a victim of abuse, neglect or domestic violence: for judicial and administrative proceedings and enforcement purposes.

**For Public Health Activities:** We may disclose your PHI for public health purposes such as reporting communicable disease results to public health departments as required by law or when required for law enforcement purposes.

**For Health Oversight Activities:** We may disclose your PHI in connection with governmental oversight, such as for licensure, auditing and for administration of government benefits. The California Department of Human Services is an example of an agency that oversees Living at Reflections, LLC's operations.

**To Avert Serious Threat to Health and Safety:** We may disclose PHI if we believe in good faith that doing so will prevent or lessen a serious or imminent threat to the health and safety of a person or the public.

**Disclosures of Health Related Benefits or Services:** Sometimes we may want to contact you regarding service reminders, health related products or services that may be of interest to you, such as health care providers or settings of care or to tell  
Powered by Kipu Systems

you about other health related products or services offered at Living at Reflections, LLC. You have the right not to accept such information.

**Incidental Uses and Disclosures:** Incidental uses and disclosures of PHI are those that cannot be reasonably prevented, are limited in nature and that occur as a by-product of a permitted use or disclosure. Such incidental used and disclosures are permitted as long as Living at Reflections, LLC use reasonable safeguards and use or disclose only the minimum amount of PHI necessary.

**To Personal Representatives:** We may disclose PHI to a person designated by you to act on your behalf and make decisions about your care in accordance with state law. We will act according to your written instructions in your chart and our ability to verify the identity of anyone claiming to be your personal representative.

**To Family and Friends:** We may disclose PHI to persons that you indicate are involved in your care or the payment of care. These disclosures may occur when you are not present, as long as you agree and do not express an objection. These disclosures may also occur if you are unavailable, incapacitated, or facing an emergency medical situation and we determine that a limited disclosure may be in your best interest. We may also disclose limited PHI to public or private entity that is authorized to assist in disaster relief efforts in order for that entity to locate a family member or other person that may be involved in caring for you. You have the right to limit or stop these disclosures.

#### YOUR RIGHTS CONCERNING PRIVACY

**Access to Certain Records:** You have the right to inspect and copy your PHI in a designated record set except where State law may prohibit client access. A designated record set contains medical and billing and case management information. If we do not have your PHI record set but know who does, we will inform you how to get it. If our PHI is a copy of information maintained by another health care provider, we may direct you to request the PHI from them. If Living at Reflections, LLC produces copies for you, we may charge you up to \$1.00 per page up to a maximum fee of \$50.00. Should we deny your request for access to information contained in your designated record set, you have the right to ask for the denial to be reviewed by another healthcare professional designated by Living at Reflections, LLC .

**Amendments to Certain Records:** You have the right to request certain amendments to your PHI if, for example, you believe a mistake has been made or a vital piece of information is missing. Living at Reflections, LLC is not required to make the requested amendments and will inform you in writing of our response to your request.

**Accounting of Disclosures:** You have the right to receive an accounting of disclosures of your PHI that were made by Living at Reflections, LLC for a period of six (6) years prior to the date of your written request. This accounting does not include for purposes of treatment, payment, health care operations or certain other excluded purposes, but includes other types of disclosures, including disclosures for public health purposes or in response to a subpoena or court order.

**Restrictions:** You have the right to request that we agree to restrictions on certain uses and disclosures of your PHI, but we are not required to agree to your request. You cannot place limits on uses and disclosures that we are legally required or allowed to make.

**Revoke Authorizations:** You have the right to revoke any authorizations you have provided, except to the extent that Living at Reflections, LLC has already relied upon the prior authorization. The revocation must be done in writing on the ROI that is being revoked.

**Delivery by Alternate Means or Alternate Address:** You have the right to request that we send your PHI by alternate means or to an alternate address.

**Complaints & How to contact us:** If you believe your privacy rights have been violated, you have the right to file a complaint by contacting Living at Reflections, LLC at the address and/or phone number indicated below. You also have the right to file a complaint with the Secretary of the United States Department of Health and Human Services in Washington,D.C. Living at Reflections, LLC will not retaliate against you for filing a complaint.

If you believe your privacy rights have been violated, you may make a complaint by contacting Linda Potere, HIPAA Privacy Officer at (800) 368-1019 or the Secretary for the Department of Health and Human Services. No individual will be retaliated against for filing a complaint.

The U.S. Department of Health and Human Services  
200 Independence Avenue, S.W.  
Washington, D.C. 20201  
Toll Free: 1-877-696-6775

Please be aware that mail sent to the Washington D.C. area offices takes an additional 3-4 days to process due to changes in mail handling resulting from the Anthrax crisis of October 2001.

**RESTRICTION REQUEST:**

I request a restriction on the Use or Disclosure of my following information:

n/a

**CLIENT TO BE GIVEN A COPY ALONG WITH A COPY TO FILED IN CLIENT CHART**

## **Notice of Privacy Practices**

### **Your Information. Your Rights. Our Responsibilities.**

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

## **Your Rights**

When it comes to your health information, you have certain rights. This section explains your rights and some of our responsibilities to help you.

### Get an electronic or paper copy of your medical record

- You can ask to see or get an electronic or paper copy of your medical record and other health information we have about you. Ask us how to do this.
- We will provide a copy or a summary of your health information, usually within 30 days of your request. We may charge a reasonable, cost-based fee.

### Ask us to correct your medical record

- You can ask us to correct health information about you that you think is incorrect or incomplete. Ask us how to do this.
- We may say "no" to your request, but we'll tell you why in writing within 60 days.

### Request confidential communications

- You can ask us to contact you in a specific way (for example, home or office phone) or to send mail to a different address.
- We will say "yes" to all reasonable requests.

### Ask us to limit what we use or share

- You can ask us not to use or share certain health information for treatment, payment, or our operations.
  - We are not required to agree to your request, and we may say "no" if it would affect your care.
- If you pay for a service or health care item out-of-pocket in full, you can ask us not to share that information for the purpose of payment or our operations with your health insurer.
  - We will say "yes" unless a law requires us to share that information.

### Get a list of those with whom we've shared information

- You can ask for a list (accounting) of the times we've shared your health information for six years prior to the date you ask, who we shared it with, and why.
- We will include all the disclosures except for those about treatment, payment, and health care operations, and certain other disclosures (such as any you asked us to make). We'll provide one accounting a year for free but will charge a reasonable, cost-based fee if you ask for another one within 12 months.

### Get a copy of this privacy notice

- You can ask for a paper copy of this notice at any time, even if you have agreed to receive the notice electronically. We Powered by Kipu Systems

will provide you with a paper copy promptly.

Choose someone to act for you

- If you have given someone medical power of attorney or if someone is your legal guardian, that person can exercise your rights and make choices about your health information.
- We will make sure the person has this authority and can act for you before we take any action.

File a complaint if you feel your rights are violated

- You can complain if you feel we have violated your rights by contacting us using the information on page 1.
- You can file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to 200 Independence Avenue, S.W., Washington, D.C. 20201, calling 1-877-696-6775, or visiting [www.hhs.gov/ocr/privacy/hipaa/complaints/](http://www.hhs.gov/ocr/privacy/hipaa/complaints/).
- We will not retaliate against you for filing a complaint.

## Your Choices

For certain health information, you can tell us your choices about what we share. If you have a clear preference for how we share your information in the situations described below, talk to us. Tell us what you want us to do, and we will follow your instructions.

In these cases, you have both the right and choice to tell us to:

- Share information with your family, close friends, or others involved in your care
- Share information in a disaster relief situation
- Include your information in a hospital directory
- Contact you for fundraising efforts

*If you are not able to tell us your preference, for example if you are unconscious, we may go ahead and share your information if we believe it is in your best interest. We may also share your information when needed to lessen a serious and imminent threat to health or safety.*

In these cases we never share your information unless you give us written permission:

- Marketing purposes
- Sale of your information
- Most sharing of psychotherapy notes

In the case of fundraising:

- We may contact you for fundraising efforts, but you can tell us not to contact you again.

## Our Uses and Disclosures

How do we typically use or share your health information? We typically use or share your health information in the following ways.

Treat you

- We can use your health information and share it with other professionals who are treating you.

*Example: A doctor treating you for an injury asks another doctor about your overall health condition.*

Run our organization

- We can use and share your health information to run our practice, improve your care, and contact you when necessary.

*Example: We use health information about you to manage your treatment and services.*

Bill for your services

- We can use and share your health information to bill and get payment from health plans or other entities.

*Example: We give information about you to your health insurance plan so it will pay for your services.*

How else can we use or share your health information? We are allowed or required to share your information in other ways – usually in ways that contribute to the public good, such as public health and research. We have to meet many conditions in the law before we can share your information for these purposes.

For more information see: [www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html](http://www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html).

Help with public health and safety issues

- We can share health information about you for certain situations such as:

- Preventing disease
- Helping with product recalls
- Reporting adverse reactions to medications
- Reporting suspected abuse, neglect, or domestic violence
- Preventing or reducing a serious threat to anyone's health or safety

#### Do research

- We can use or share your information for health research.

#### Comply with the law

- We will share information about you if state or federal laws require it, including with the Department of Health and Human Services if it wants to see that we're complying with federal privacy law.

#### Respond to organ and tissue donation requests

- We can share health information about you with organ procurement organizations.

#### Work with a medical examiner or funeral director

- We can share health information with a coroner, medical examiner, or funeral director when an individual dies.

#### Address workers' compensation, law enforcement, and other government requests

- We can use or share health information about you:
  - For workers' compensation claims
  - For law enforcement purposes or with a law enforcement official
  - With health oversight agencies for activities authorized by law
  - For special government functions such as military, national security, and presidential protective services

#### Respond to lawsuits and legal actions

- We can share health information about you in response to a court or administrative order, or in response to a subpoena.

## Our Responsibilities

- We are required by law to maintain the privacy and security of your protected health information.
- We will let you know promptly if a breach occurs that may have compromised the privacy or security of your information.
- We must follow the duties and privacy practices described in this notice and give you a copy of it.
- We will not use or share your information other than as described here unless you tell us we can in writing. If you tell us we can, you may change your mind at any time. Let us know in writing if you change your mind.

For more information see: [www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html](http://www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/noticepp.html).

## Changes to the Terms of This Notice

We can change the terms of this notice, and the changes will apply to all information we have about you. The new notice will be available upon request, in our office, and on our web site.

### Living at Reflections, LLC Confidentiality

To reinforce the feelings of closeness and willingness to share with others your feelings, thoughts, and consequences of your dependency, confidentiality is a must in group therapy. Use this as your golden rule: **What is said in Group, stays in Group.** To break this rule violates the trust of the total group and the effectiveness of group therapy is lost.

The following guidelines will help you maintain this rule:

1. Group issues are not discussed with others outside your group.
2. Do not discuss group issues with your roommate unless he/she is in your group.
3. Do not discuss at any outside meetings or places where others may overhear you.

Your group therapists have the same responsibilities for group confidentiality as you, with the exception that your therapists share group issues and your participation in the group process with other staff members. This is a vital part of the staff team's approach to assist you in your recovery.

The staff values your confidentiality so highly that anyone who breaks confidentiality - whether to another patient of Living at Reflections, LLC or to family, significant others, etc., may be subject to discharge from this program.

### LIVING AT REFLECTIONS, LLC

#### Program and House Rules - Simmons

Living at Reflections, LLC warmly welcomes you to our Simmons facility. We have implemented the following rules in order to maintain your safety and the safety of all clients and staff:

#### PROCEDURE:

- Clients are to remain within the grounds of Reflections at all times unless accompanied by a staff member or given a pass to go off premises. DO NOT LEAVE the property without clinical permission.
- Cell phone use is permitted during non-program times. That is before 8:00 am, during breaks from groups and individual sessions, and after 4pm.
- Please do not bring cell phones to groups. Using your phone during groups is disrespectful and distracting.
- The Living Room TV is restricted to hours from 6:00am to 8:00am and 4:00pm until lights out Monday through Friday, and 6:00am until lights out Saturday and Sunday. Appropriateness of TV/media content will be monitored by staff. Inappropriate content includes, but is not limited to pornography, excessive profanity, negative drug/alcohol influence, inappropriate violence, racial propaganda, and glamorizing eating disorders.
- Medications are available during the following times or when medically indicated:
  - 7:00am – 9:00am
  - 11:00am – 1:00pm
  - 4:00pm – 6:00pm
  - 8:00pm – 10:00pm
- Clients are expected to do meds outside of group hours except when medically necessary.
- As part of the clinical program, all clients are required to attend a minimum of three (3) outside recovery-based support meetings per week. Acceptable meetings include, but are not limited to: 12 Step (AA, NA), SMART Recovery, Celebrate Recovery, Recovery Dharma, Refuge Recovery, LifeRing, or other approved peer-support groups.
- Clients are responsible for personal valuables and provided with personal safes in their individual bedrooms. Living at Reflections, LLC will maintain the combination codes to the safes. Safes are subject to search for the safety of clients and staff.
- Living at Reflections, LLC is not responsible for ANY LOST OR STOLEN PROPERTY.
- Items left at Reflections after 30 days will be disposed.
- Clients are required to maintain a clean and safe living space within their bedroom area.
- Clients may be subject to room changes during their stay in order to accommodate census changes at the facility.
- Clients may not bring alcohol, drugs, paraphernalia, or mind or mood altering substances into the facility.
- Clients may not bring weapons of any kind into the facility.
- Clients must provide a urine sample when requested (sample may or may not be observed).
- Clients may not have energy drinks on site.
- Other contraband may be confiscated and stored in client med box at staff discretion.
- No sexual, romantic, or exclusive relationships with other residents.
- No verbal or physical violence against clients, staff, or property of Living at Reflections, LLC. Physical violence includes pushing, shoving, or hitting others. Verbal violence includes making threats, yelling, using profanity, and name-calling.
- Clients are required to attend and participate in all groups, unless excused by the clinical staff.
- Clients are expected to maintain basic hygienic practices.
- Clients are required to maintain a respectful attitude toward staff  
Clients are required to be respectful to other clients.
- Clients are to treat any on-site animals with respect and care. Animals have been pre-authorized to be at Living at Reflections, LLC and have passed health/safety/training requirements and are to be treated as a therapeutic asset.
- Guests visiting for any reason need to sign the Visitor Agreement and are not allowed in any clients' bedrooms or bathrooms for any reason.
- Clients are not allowed to enter other clients' bedrooms or bathrooms for any reason.
- Clients are not allowed to share personal items. This includes but is not limited to: phones, money, cigarettes/vape,

clothes, accessories.

- Amazon and other like deliveries and drop offs, must be approved prior to ordering.
- Only non-refillable vaporizers are permitted.

#### **FOOD AND KITCHEN:**

Living at Reflections, LLC provides well-balanced and nutritious meals. The Executive Chef will discuss any dietary needs/requirements with the resident in order to ensure the client's diet is reflective of the appropriate foods they should eat.

- No clients allowed in main Kitchen area.
- Clients are responsible for clearing their dishes from the table and putting their dishes in the dishwasher.
- Any kitchen utensils or dishes needed will be provided.
- Coffee is available until 1pm.
- No Instacart or online food deliveries.
- Snacks are provided.

Mealtimes are the following:

#### **Monday-Friday:**

Breakfast: 7:00am - 8:00am

Lunch: 12:30pm - 1:00pm

Dinner: 5:00pm - 5:30pm

#### **Saturday and Sunday:**

Breakfast: 8:00am - 9:00am

Lunch: 12:30pm – 1:00pm

Dinner: 5:00pm - 5:30pm

#### **VISITATION:**

- Visiting hours are Saturday from 1:00pm - 5:00pm.
- Approved visitors are allowed on the first Saturday after completion of one week in the program. Clients must be off detox status and on residential status to have a visitor.
- All approved visitors must review and sign a copy of the Visitors Agreement at the front door.
- Visitors are not allowed to be in any client's bedroom or bathroom at any time.

#### **FIRE SAFETY RULES**

- There is **NO SMOKING** or Vaping allowed anywhere in the house. Smoking outside is permitted only in the designated area. Use provided ashtrays at all times.
- Unplug any appliances not in use (phone chargers, hair dryers, curling irons, hair straighteners, etc.)
- Never run cords under rugs. If a cord is hot or frayed, don't use it. Report anything that you might feel is a fire hazard or danger to a staff member immediately.
- All residents should know proper use and location of fire extinguishers. Fire extinguishers are checked monthly by the Program Manager.
- Do not tamper with any of the smoke alarms. NEVER remove the batteries. Staff is responsible for checking them and replacing batteries if needed.
- If the fire alarm goes off in the middle of the night and you smell smoke or see evidence of a fire, leave the house immediately-do not go back in. Stay close to the ground and crawl to the door-NEVER open a hot door.
- If there is a fire, yell 'FIRE', so that others can get out of the facility.
- Know escape routes and established meeting location.
- Call 911 to report the fire.
- Never try to be the hero and save a person; that is the responsibility of the fire department.
- Never attack a large fire on your own.
- Do use an extinguisher on small fires.

#### **GENERAL FACILITY AND SAFETY RULES:**

- Each resident is responsible for the windows in their assigned bed area. Never leave windows open when you leave.

- Never let someone into the house you don't know. Tell them to wait and get staff to address the people. Never allow an ex-resident into the house without staff permission.
- Never give out information about another client. If there are any questions asked, refer them to staff.
- Dress Code: Shirts, Pants, Shoes are required in all common areas (outside of bedrooms). Unacceptable attire includes, but is not limited to: micro-miniskirts, cut-off shorts, midriff tops, tube tops, see-through clothing, provocative attire, string bikinis, thongs, and clothing with drug, alcohol, and gang motifs.
- No pornography.
- Audio players are to be used in bedrooms and at poolside. Please be respectful and use headphones.
- In order to preserve confidentiality of all residents, there is to be no use of cameras, no taking photos, and no "Facetime" in the common areas.
- Pool rules are posted, please adhere. Clients must be on Residential status to use the Pool and Spa. Pool and Spa hours are 7am – 10pm.
- On-site Gym is available for use until 8:30pm.
- Television viewing is allowed during non-program hours, in the evenings, and weekends.
- Quiet time is after 10:00pm Sunday through Thursday.
- Lights out is at 11:30pm daily.

I have read and agree to the above rules and understand that staff may inform me of other facility rules at any given time, which I also agree to adhere to.

#### Drug and Alcohol Use Policy

I, Ryan Bohannon, hereby agree to participate fully in all aspects of my treatment while at Living at Reflections, LLC.

I understand that while I am in treatment at Living at Reflections, LLC, I am expected to:

*Please initial the following statements:*

RB Abstain from the use of all illegal/non-prescribed substances and alcohol.

RB I understand that if I am prescribed any medication by any provider, I am expected to inform my attending clinician immediately.

RB I understand that frequent and random urinalysis and random breathalyzers are part of substance abuse treatment.

RB I agree to provide a urine drug sample (may be observed or supervised) and/or breathalyzer upon request.

RB I understand that refusal to provide a urinalysis or a breathalyzer when requested will be considered positive and may lead to discharge from the program.

RB I understand that absolutely no alcohol, drugs, or drug paraphernalia is permitted on the premises. I understand that anyone suspected of being under the influence of drugs or alcohol or who possesses any illicit drugs or alcohol may be required to leave the program immediately.

RB I understand that I cannot wear any clothing that glorifies or endorses the use of alcohol or drugs.

The above conditions have been explained to me and I fully understand my obligations while in treatment at Living at Reflections, LLC. I agree to abide by the conditions stated above.

### Living at Reflections, LLC Transportation Release and Waiver of Liability

**Notice:** This form contains a release and waiver of liability and when signed is a contact between the undersigned Client and Living at Reflections, LLC with legal consequences. Please read this agreement in its entirety carefully before signing your name. This form must be signed in the presence of a witness who should sign as witness.

**Client's Information:**

**Activities:** This includes, but is not limited to: Transportation to the facility from the Client's residence, from the facility to the Client's residence, medication pick-up, and transportation to the nearest emergency services facility.

**Date of execution of Release and Waiver of Liability:** n/a. The undersigned agrees that this Release and Waiver of Liability agreement is valid from the date of execution through the date of discharge from Residential, Partial Hospitalization or Intensive Outpatient Programs operated by Living at Reflections, LLC.

**Name of Facility:** Living at Reflections, LLC

**Client's Full Name:** Ryan Bohannon

---

**Acknowledgements and Representations by Client:**

The undersigned Client, Ryan Bohannon, is currently a client at the Partial Hospitalization or Intensive Outpatient Program operated by Living at Reflections, LLC. This Client will be participating in the Transportation Services provided by Living at Reflections, LLC. This includes, but is not limited to: Transportation to the facility from the Client's residence, from the facility to the Client's residence, medication pick-up, and transportation to the nearest emergency services facility.

The undersigned client, Ryan Bohannon (or parent/guardian of the individual named herein), does knowingly, freely, and voluntarily assume all liability for any and all damage or injury that may occur as a result of his/her (or his/her dependent's/ward's) participation in the activities described herein and agrees to release, waive, discharge, and covenant not to bring suit against Living at Reflections, LLC, its officers, agents, employees, and volunteers from/for any and all liability or claims that may be sustained by me or by a third party, directly or indirectly, in connection with or arising out of his/her (or his/her dependent's/ward's) participation in the activities described herein, whether caused in whole or in part by the negligence of Living at Reflections, LLC or otherwise.

The undersigned Client, Ryan Bohannon, (or parent/guardian of the individual named herein), has read the form, fully understands its terms, and understand that he/she (or his/her dependent/ward) has given up substantial rights by signing it and has signed it freely and without any inducement or assurance of any nature and intend it to be a complete and unconditional release of any and all liability to the greatest extent allowed by law and agree that if any portion of this contract is held to be invalid, the balance notwithstanding shall continue in full legal force and effect.

**Indemnification of Living at Reflections, LLC:** The undersigned Client (or his/her parent/guardian) shall at all times hereafter indemnify, hold harmless and, at Living at Reflections, LLC's Attorney's option, defend or pay for an attorney selected by the Board to defend Living at Reflections, LLC, its officers, agents, servants, and employees against any and all claims, losses, liabilities, and expenditures of any kind, including attorney fees, court costs, and expenses, caused by negligent act or omission of the Client, other clients, Living at Reflections, LLC, its employees, agents, servants, or officers, or accruing, resulting from, or related to the undersigned Client in the following situations including, but not limited to, Transportation to the facility from the Client's residence, from the facility to the Client's residence, medication pick-up, and transportation to the nearest emergency services facility, including, without limitation, any and all claims, demands, or causes of action of any nature whatsoever resulting from injuries or damages sustained by any person or property. The provisions of this section shall survive the expiration or earlier termination of this agreement or the discharge of the client from the Partial Hospitalization or Intensive Outpatient Program facility operated by Living at Reflections, LLC.

**Venue:** This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of California. Venue for litigation concerning this agreement shall be in Marin County.

I, Ryan Bohannon, have read and fully understand the contents herein.  
Executed this n/a.

### Living at Reflections, LLC Safety Contract

I, Ryan Bohannon, understand and agree to comply with the following recommendations. I understand that this contract has been created for my safety and well-being. By signing this contract, I agree to the following:

- I will take my medication as prescribed.
- I will inform an appropriate professional to call 911 (or transport me to the hospital) if I am in crisis.
- I will go to an appropriate professional to discuss any dangerous thoughts or feelings; such as suicidal ideations or thoughts to self-harm.
- At this time, I do not have any suicidal or homicidal thoughts or plans and my safety needs are being met.
- I am committed to leading a healthy lifestyle and recognize that I am a valuable and worthwhile person.
- I am committing myself to honoring this contract for the remainder of my time in this program.
- I understand that my emergency contact will be called in the event that I need to be safely transitioned to a facility that is more appropriate to handle my mental health needs.

I understand that if I do not comply with these requirements, I will be referred to a facility that will more appropriately meet my mental health needs.

### Self-Harm Agreement

I agree to refrain from harming, injuring, and/or endangering myself in any way including attempting suicide while I remain in treatment at Living at Reflections, LLC.

I agree to seek the assistance of a staff member immediately if and when I have any thoughts of self-harm and/or harm to others, regardless of the time of day or night.

## Living at Reflections, LLC Universal Precautions for HIV

Universal Precautions refer to the usual and ordinary steps we need to take in order to reduce the risk of infection with HIV, the virus that causes AIDS. These measures are intended to prevent transmission of HIV.

The prevention of the transmission of HIV is based on the avoidance of skin and mucous membrane contact with blood and body fluids.

### Protecting yourself from HIV

- Avoid risky behavior
- Protect yourself from sharp injuries
- Wear gloves when in contact with body fluids if possible
- Wear mask and eye protection when splash injuries are possible
- Call on trained individuals to clean up blood spills

## Universal Precautions for Infection Control

Universal Precautions refer to the usual and ordinary steps you need to take in order to reduce the risk of infectious disease such as HIV or Hepatitis C.

The prevention of transmission of infectious diseases is based on the avoidance of skin and mucous membrane contact with blood and other body fluids.

### AVOID UNNECESSARY RISKS

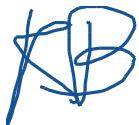

- If a fellow patient or client needs assistance, please call a staff member immediately.
- When avoidable, don't expose yourself to other person's blood or body fluids.
- Never share needles, razors or any other *personal* sharp objects.
- Always call on trained individuals to clean up blood or other body fluid spills.

### PROTECT YOURSELF

- Use barrier protection to prevent skin and mucous membrane contact with blood and other body fluids.
- Wear face protection if blood or body fluid droplets may be generated during a procedure.
- Wear protective clothing if blood or body fluids may be splashed during a procedure.
- Wash hands and skin immediately and thoroughly if contaminated with blood or body fluids.
- Wash hands immediately after gloves are removed.
- Use care when handling sharp instruments and needles. Place used sharps in labeled, puncture resistant containers.
- If you have sustained and exposure or puncture wound, immediately flush the exposed area and notify a staff member.

### COVID-19 Positive test procedure

- In the event that I, Ryan Bohannon, test positive for COVID-19, I understand that this will require and immediate discharge from the program.
- I will preemptively make arrangements for a safe place to quarantine in the event of a discharge resulting from a positive COVID-19 test. Those arrangements are as follows.

### REFLECTIONS GROUP RULES AND EXPECTATIONS

- Attend all groups unless excused *in advance* (a minimum of 15 minutes prior to the start of group) by Reflections staff. Only clinical or nursing staff can excuse someone from a group during day time hours. If a member of the clinical or nursing staff is not on site, the a PA may excuse someone from group.
- It is the responsibility of the individual client to be on time for group.
- Please do not leave the group once the group has started. Use the restroom and get anything you intend to bring with you prior to the start of the group.
- Please come prepared for group with a pen and note pad.
- No cell phone use in group. Phones must either be left outside the group room or turned completely off prior to the start of group. Looking at your phone during group is disrespectful and distracting.
- No food in group. Beverages are ok.
- Do not interrupt others when they are speaking. One voice at a time, please.
- Be mindful to not dominate the group discussion. Please allow others the chance to speak.
- Keep group discussions confidential. What is said in group, stays in group.
- Avoid side conversations. They are distracting and disrespectful.
- Refrain from using offensive language.
- Do not be afraid to respectfully challenge one another by asking questions, but refrain from personal attacks. Someone's life and sobriety may just depend on your feedback.
- Be honest. Always.
- Be respectful. Communicate strong emotions or disagreement in a manner that is not disruptive, aggressive, or denigrating of another's experience or feelings.
- Speak from your own experience. "I" instead of "we", "they", "us", and "you". Do not try to fix the other person's problems. Stay focused on your own experience.
- You have the right to speak and the right to not speak
- Do not discuss group members who are not present.
- Take the risk to let yourself be emotionally available to and vulnerable with others.
- Truly engage: Telling a story and asking questions are sometimes ways of hiding or avoiding intimacy and feelings.
- Be conscious of your body language and nonverbal communications -- they can be as disrespectful as words.
- When speaking about past drug or alcohol use, be mindful that discussing specific details of the ritual of use can trigger others in the group. No romancing or glorified past use or war stories.
- If a person sets a boundary in group please respect it. You do not have to like or agree with it, but respecting others' boundaries is part of the recovery process.
- Please do not use another's experience to prove a point. Stick with your own experience and feelings.
- Bullying, intimidation or violence toward other group members will never be tolerated.
- Give and take feedback constructively (over for tips)

### Tips for Giving Feedback Constructively

- Start with how you are feeling.
- Use "I" statements and talk about your experience.
- If you do talk about another person or situation, be specific: what particular remark, gesture, or behavior
- Be direct and honest and provide concrete examples if possible
- Share both positive and negative feedback. Catching someone doing something well or right is a very powerful motivator!
- Give feedback as soon as possible
- End with a request for a future change in behavior
-

**Tips for Taking Feedback Constructively:**

- Actively ask for others feedback! Invite feedback on your “blind spots”
- Listen actively to feedback you were given.
- Communicate your understanding of the feedback given from the other person before responding.
- If unclear, seek clarification from the group member or verify with other members if the feedback you’ve received matches their perceptions
- Acknowledge feedback when it’s given: “Thanks. I didn’t realize I was frowning”
- Beware becoming defensive. But if you feel yourself becoming defensive, it is a good idea to share this awareness with the group.

### Vape/ e- cig policy

I, Ryan Bohannon agree to the following terms.

1. RB Reflections allows only non-refillable pod based vapes/electronic cigarettes (e.g., Juul, Von Earl, Blue, etc). Any vape/ e-cig needing juice will not be allowed.
2. RB If a client wishes to use an electronic cigarette while at Reflections, it must be either (1) be brought to the facility in an unopened package. (2) Be bought online from a staff approved website and delivered directly to the facility OR (3) be bought during scheduled store run and left unopened. In all cases, Reflections staff must inspect and approve the item before it can be used.
3. RB Clients may use electronic cigarettes only in designated smoking areas. Smoking and/or electronic cigarette use is not allowed anywhere indoors including bedrooms, bathrooms, common areas, or on balconies. Violations of this rule will result in loss of privilege. Repeated violations may be grounds for discharge and dismissal from the program.
4. RB Clients can have one pack of pods in their possession at a time. Additional pods will be kept in the client 'vault' area. Used pods must be turned in to staff in order to receive new ones.
5. RB It is the client's responsibility to ensure they have all necessary supplies for their electronic cigarettes (pods, chargers, etc.). Staff will not be available to make extra trips to the store to obtain necessary supplies.

### Orientation Checklist (Residential)

A staff member will conduct an orientation for each new patient, which will include the following items. (Please check off each as completed and sign below):

- Orientation to Health Services Office
- Orientation to client bedroom
- Orientation to House Rules
- Go over Electronics policy and discuss where they are stored
- Shown off limits / employee only areas
- Go over laundry procedures
- Shown approved areas to walk on grounds
- Provided Client WIFI and internet passwords
- Room Search protocols
- Shown location of room safes , provided combination and how to operate
- Shown approved smoking area
- Discussed incoming mail protocol
- Shown kitchen areas, where client items can be found (coffee, dishes/mugs, etc). Go over kitchen rules and meal times
- Shown schedule of activities and where groups meet

By signing below, I confirm that all the above items have been explained to me.

Clinical Staff will provide 1:1 sessions to gain appropriate background information, and begin the process of developing goals of treatment with the client.			1 to 2 Ind sessions within 1 st 3 days of Tx
	Target date	Status	Date/Comment	By
	11/28/2025	Open		DR 11/28/2025

I will report any Post-Acute Withdrawal Symptoms I have to the appropriate Health Services Staff and my primary therapist.

During the initial session, the medical staff will educate the client on PAWs symptoms. Any reports of PAWS symptoms will be reported to the Health Services staff for further assessment and discussion of potential interventions.

In initial 1:1 session and then on ongoing basis.

Target date	Status	Date/Comment	By
11/28/2025	Open		DR 11/28/2025

I will abstain from all alcohol and illegal/non-prescribed or unapproved substances. I agree to frequent and random urinalysis and random breathalyzers testing a minimum of one time per week as part of my substance abuse treatment.

Staff will educate the client on what is considered illegal/non-prescribed substances and monitor for erratic or suspicious behaviors. Staff will conduct a minimum of one random urinalysis and breathalyzer test per week and document the results.

Target date	Status	Date/Comment	By
11/28/2025	Open		DR 11/28/2025

I will complete all screening instruments, assessments, psychological testing, or objective questionnaires for assessing issues of anxiety or depression, including suicidal ideation

Staff will complete initial psychological screenings and administer to the patient psychological instruments designed to objectively assess anxiety and depression, including suicidal ideation (e.g., PHQ-9, GAD-7, Beck Depression Inventory-II, Beck Anxiety Inventory). Any positive screen for suicidal ideation will result in the completion of Initial suicide risk screenings and PHQ-9 to be completed at time of intake/admission. 2 full suicide risk assessment. The client will be informed about the results of the screening and assessments as well as any safety precautions deemed necessary.

Target date	Status	Date/Comment	By
11/28/2025	Open		DR 11/28/2025

I will verbalize to Reflections staff any suicidal thoughts, feelings, plans, behaviors, or intent. I agree to cooperate with any safety precautions assessed to be necessary by the Reflections staff.

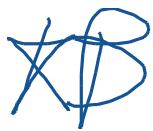

In initial sessions, the Health Services and Clinical Staff will assess the presence of a dangerousness to self or others. Any reports of expressed suicidal ideation will be reported immediately to Health Services and Clinical Staff, who will further evaluate the client for dangerousness to self or others, and if necessary, a safety plan will be put into place by Clinical Staff.

Initial 1:1 sessions and any time suicidal ideation, plan or intent are reported or observed.

Target date	Status	Date/Comment	By
11/28/2025	Open		DR 11/28/2025

**CRITERIA FOR DISCHARGE AND DISCHARGE PLANNING:** Client to complete treatment by gaining insight into substance abuse; needing to continue treatment in less restrictive treatment modality; having secured stable housing. Client to gain insight for need to continue self-help programs in the community. Discharge planning will include housing, continued treatment, medication compliance and need for follow-up and aftercare.

## (INS) Assignment of Benefits / Release of Medical Information 11/28/2025

Today's Date 11/28/2025

Client's Insurance Name

United Healthcare

I hereby authorize and request that payment of benefits by my Insurance Company(s), be made directly to Living at Reflections, LLC for services furnished to me or my dependent. I understand that my Insurance Company may only cover a portion of the total bill. I further understand that I may be responsible for all charges not covered by this assignment.

In addition, I authorize Living at Reflections, LLC to disclose any and all written information from the above named to my above named Insurance Company and/or its designated representatives, or other financially responsible party; at the determination of Living at Reflections, LLC. Such disclosure shall be for reimbursement purposes for those services received.

I hereby release Living at Reflections, LLC and its officers, agents, employees, and any clinician associated with my case from all liability that may arise as a result of the disclosure of information to the above named Insurance Company(s) or their designated representatives.

By signing this Assignment of Benefits and Release of Information, I acknowledge:

- I am aware and understand that this authorization will not be used unless the above-named Insurance Company(s) or their designated representatives request records of information for reimbursement purposes, or seek to take action for the referred payment for treatment services.
- I agree to participate and assist Living at Reflections, LLC or its designated representatives with any appeal process necessary to collect payment for the services rendered.
- I am aware and have been advised of the provisions of Federal and State Statutes, rules and regulations that provide for my right to confidentiality of these records.
- I understand that this assignment and authorization is subject to revocation at any time except to the extent that action has been taken in reliance thereon. In any event, this authorization will expire once reimbursement for services rendered is complete.
- Living at Reflections, LLC is acting in filing for insurance benefits assigned to Living at Reflections, LLC and it can assume no responsibility for guaranteeing payment of any charges from the Insurance Company(s).
- Billing may be done by a firm contracted by Living at Reflections, LLC for billing and collection purposes.
- Living at Reflections, LLC is appointed by me to act as my representative and on my behalf in any proceeding that may be necessary to seek payment from my insurance carrier.
- Should an overpayment take place, a refund check will be mailed to the authorized party that is due the overpayment.
- Living at Reflections, LLC shall be entitled to the full amount of its charges without offset.

I acknowledge receipt of a completed and signed copy of this assignment and release form:

### Statement of Financial Responsibility 11/28/2025

#### Today's Date

11/28/2025

I understand that as a part of my commitment to my recovery process, I agree to be financially responsible for all fees assessed by Living at Reflections, LLC, in reference to my treatment. This includes but is not limited to intake fees, assessment fees, orientation fees, drug test fees, group fees and any other fees for procedures deemed necessary for my treatment.

It is further understood that all fees deductibles, co-payments, or full-fee for services are due at the time of the assessment unless special arrangements are made with Living at Reflections, LLC. I understand that this office will not bill insurance companies and other third party payers and cannot guarantee such benefits, and is not responsible for collection of such payments unless prior arrangements have been made between Living at Reflections, LLC, and the insurance provider.

Should the above named patient default on or become delinquent in payment of fees connected with treatment by Living at Reflections, LLC, it may become necessary to pursue collection or legal action. It is therefore understood that the above named patient will be responsible for any and all fees connected with such action including collection fees, attorney fees, legal and court costs and any additional costs related to this action. I understand that violations of the Living at Reflections, LLC program rules or non-compliance may be grounds for termination of my treatment. No refunds for advance fee payment shall be made in such cases.

I have read the Patient Rights form and reviewed the fee schedule. In signing this form, I understand my rights as a patient at this agency and responsibilities for payment.

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

## Fee Agreement 11/28/2025

Today's Date 11/28/2025

Fee Agreement between Living at  
Reflections, LLC and

Ryan Bohannon

Guarantor for:

Date of Admit 11/28/2025

Date of Discharge 01/02/2026

### Fee Agreement

#### Due before or on day of admit

	Total Amount Due	Deposit Paid	Balance Due
	\$0	\$0	\$0

#### Notes

Reflections to bill insurance for up to 5 nights medically assisted detox services followed by 30 nights residential treatment services at our McClay facility (741 McClay Road, Novato CA). This fee agreement is dependent on medical necessity for detox as approved by insurance.

#### Client, please initial confirming that you have read and agree to the following:

Billing will begin on the date that the client enters Reflections Program. In the event a client is unable to reside in our facility (ex. hospitalization or incarceration), fees will continue to accrue to guarantee bed availability when they are ready to return.

Due to front loaded treatment and assessment costs, the first 30 days of treatment are non-refundable. After the first thirty days of treatment, should a client decide to leave AMA then the executive team will consider a refund based on a pro-rated amount less administrative fees and occupancy.

Any client accepted on a insurance basis does so under the understanding that if a payment is made by the insurance to the insured directly that the payment must be forwarded to Living Reflections to cover treatment costs. Living Reflections is a out of network facility and all payments made to the patient for services rendered at our facility are due to the facility.

Any client leaving against medical advice (AMA) or against clinical advice (ACA) will not be entitled to reimbursement of fees, however extenuating circumstances may warrant a partial refund if determined appropriate by the Executive Team.

Living at Reflections, LLC bills for all services on or prior to the admission date and nonpayment of fees may result in no admission.

It is understood that non-payment for services will cause services to be discontinued.

Client agrees to keep confidential the Fee Agreement made between Client and Living at Reflections, LLC. Disclosure of this Fee Agreement will be brought to the attention of the Executive Director and could be grounds for discharge.

**If your check or instrument is returned unpaid for any reason, a service charge in the amount of \$25.00 will be assessed and due**

**Clients may be referred out or administratively discharged immediately if resident violates any of the following conditions: 1. Possessing, using, sneaking, stashing etc paraphernalia or other related contraband during their stay at Reflections. 2. Being verbally or physically threatening to any person. 3. Fraternizing with any person. 4. Theft. 5. Refusal of drug/alcohol screening. 6. Entering other clients rooms, or facility locations for designated staff only.**

**Reflections may offer: 1. Incidental Medical Services. 2. Treatment Planning. 3. Recovery Planning. 4. Educational Groups. 5. Group Counseling. 6. Individual Counseling/Therapy. 7. Massages. 8. Private Rooms. 9. Aftercare Planning.**

**A client who is administratively discharged for violation of Reflections policies will not be entitled to a refund.**

**A client who is referred out due to the need of a different level of care will be refunded based on a prorated amount less administrative fees determined by the Executive Team.**

**In the case of death of a client, this fee agreement will be terminated, no liability or debt shall accrue after the date of death.**

**IN WITNESS WHEREOF, I have executed this Fee Agreement on this date below by signing my signature below.**

### Re: ASSIGNMENT OF BENEFITS

Dear Valued Patient:

At Gnosis, we are committed to maintaining the highest quality standards to ensure that we are providing you with the most accurate and reliable test results that will help improve your quality of life.

Your healthcare provider ordered tests that will be an essential part of your treatment plan and medical care. The following paragraphs describe your assignment of benefits as it relates to services performed by Gnosis. Our goal is to guarantee that advanced clinical testing is accessible to all. To help ease the financial burden of healthcare costs, we have partnered with a large network of insurance providers. If you have any questions, please do not hesitate to contact us at (951) 658-1440 or support@gnosisdx.com.

Thank you for your trust and for choosing us to be part of your healthcare team.

**ASSIGNMENT OF ALL RIGHTS AND BENEFITS:** In exchange for, and in connection with, any and all of the services provided to me and/or my dependent ("Services") by, MVML, Inc./Gnosis, or other laboratory service provider ("LSP"), I hereby assign to LSP all of my rights, benefits, privileges, protections, claims and any other interests of any kind whatsoever, without limitation, that I had, have or may have in the future pursuant to or in connection with any insurance policy or plan, health benefit plan (including an employee health benefit plan), health management agreement, risk-bearing agreement, trust, fund or any other source of payment, insurance, indemnity or health or medical coverage of any kind (collectively, "Health Coverage") covering me and/or my dependent. This assignment includes, without limitation, authorization for my Health Coverage to pay LSP by check. This assignment to LSP also includes appeal rights (both internal and external), fiduciary rights, rights to sue, rights to payment, rights to full and fair claims review, rights to penalties or interest, rights to plan documents and plan information, and rights to notices and disclosures from any source (collectively, "Rights"). I am hereby transferring to the LSP all these Rights under any Health Coverage to which I am now, previously, or may be entitled to in the future with respect to the Services. Unless otherwise agreed between me and/or as otherwise provided by applicable law, this assignment is irrevocable. I instruct my Health Coverage to pay LSP directly for the professional and/or medical expense benefits otherwise payable to me.

**ACKNOWLEDGEMENT OF FINANCIAL RESPONSIBILITY:** I understand that, as a courtesy to me, the LSP will file a claim with my Health Coverage on my behalf. However, I understand and agree that unless otherwise indicated in writing below, by signing below that I am financially responsible for, and hereby do agree to pay, in a timely manner, charges not covered under my Health Coverage, and balance not covered by the Health Coverage payment. I understand that LSP reserves the right to require that, when permitted by applicable law, I pay any unmet deductible or co-payment required by my Health Coverage or other deposit prior to providing the Services. I understand that LSP makes no guarantees that my Health Coverage will cover any or all of the Services, and that I am not relying on any representations by LSP regarding the amount of plan benefits applicable to the Services prior to the claim being processed by my Health Coverage.

I acknowledge that I have had a reasonable opportunity to inquire about LSP's charges and that my questions regarding its charges, including any questions regarding a reasonable estimate of the total amount of the charges, have been answered. I understand that I may also be receiving separate bills from providers not affiliated with LSP, including other laboratories for their services, and that any questions about their bills should be directed to them.

**APPOINTMENT OF AUTHORIZED REPRESENTATIVE:** I hereby designate LSP and/or its designated agents and representatives as my duly authorized representative(s) in connection with all matters arising from or relating to Rights and Health Coverage, such that LSP completely and without reservation "stands in my shoes" and takes my place for all applicable purposes, and is granted absolute power and legal authority to seek, claim, and directly receive payment or reimbursement for Services; challenge or appeal any adverse benefit determination of any kind whatsoever; or take any

other action or obtain anything that I would have been entitled to do, seek, claim, appeal or obtain in my own capacity pursuant to or in connection with the Rights in any legal, private, administrative, formal or informal process or forum whatsoever and without limitation, including any internal or external appeal, review, grievance or any other process, procedures or entitlement.

**ERISA AUTHORIZATION:** With respect to Health Coverage governed by the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), this Assignment of Benefits authorizes H LSP to act as my authorized representative under 29 C.F.R. section 2560.5031(b)(4) to seek, claim, and directly receive payment or reimbursement for Services; challenge or appeal any adverse benefit determination of any kind whatsoever; or take any other action or obtain anything that I would have been entitled to do, seek, claim, appeal or obtain in my own capacity pursuant to or in connection with the Rights in any legal, private, administrative, formal or informal process or forum whatsoever and without limitation, including any internal or external appeal, review, grievance or any other process, procedures or entitlement.

**AGREEMENT TO COOPERATE:** I hereby agree to cooperate with, and take all steps necessary, required or reasonably requested by LSP to effectuate, perfect, confirm, validate, or enforce this Assignment of Benefits. I hereby authorize LSP to execute on my behalf any document, including, without limitation, any document required by my Health Coverage, that is necessary to demonstrate that I have designated LSP as my authorized representative for the purposes set forth in this Assignment of Benefits. If necessary, I consent to a photocopy of my signature to be added to any document that is necessary to demonstrate that I have designated LSP as my authorized representative for the purposes set forth in this Assignment of Benefits. If my Health Coverage pays me directly for the Services, then I will immediately notify MVML, Inc./Gnosis by email at billing@gnosisdx.com and mail such payment to LSP at the address provided to me, payable to the order of the entity I am instructed to list. I promise to make my best efforts to assist and cooperate in forwarding and/or making payment to LSP. If I do not forward the payment or make separate payment to LSP of the amount I received from my Health Coverage, I understand that LSP has the right to make a reasonable attempt to recover payment. If I do not provide my Health Coverage information, I authorize MVML, Inc./Gnosis to perform insurance/health plan discovery to locate my potential coverage information based on other information I provide and to provide such information to the LSP associated with these services.

#### Conditions

I understand that Living at Reflections, LLC will not condition my treatment on whether I give authorization for the requested disclosure. The consequences of refusing to sign this authorization have been explained to me.

**Form of Disclosure:** Unless you have requested in writing that disclosure be made in a certain format, we reserve the right to disclose information as permitted by this authorization in any manner we deem to be appropriate and consistent with applicable law, including but not limited to verbally, in paper format, or electronically.

---

#### RE-DISCLOSURE

"This information has been disclosed to you from records protected by Federal Confidentiality rules (42 CFR part 2). The Federal rules prohibit you from making any further disclosure of this information unless further disclosure is expressly permitted by the written consent of the person to whom it pertains or as otherwise permitted by 42 CFR part 2. A general

**authorization for the release of medical or other information in NOT sufficient for this purpose. The Federal rules restrict any use of the information to criminally investigate or prosecute any alcohol or drug abuse Client."**

I may request a copy of this authorization for my records.

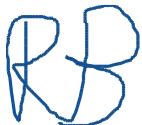

I understand that my records are protected under Federal Confidentiality regulations (42 CFR Part 2). Published August 10, 1987, and the Health Insurance Portability and Accountability Act of 1996 (P.L. 104-191), 42 U.S.C. Section 1320d, et. Seq, and cannot be disclosed without my written consent unless otherwise provided for in the regulations. I understand that my medical record may contain information concerning my psychiatric, psychological, drug and alcohol abuse, HIV/Acquired Immune Deficiency Syndrome (AIDS) and/or related conditions. (Under the Mental Health Code, release of mental health records must be germane to the purpose and need for disclosure).

---

**RIGHT TO REVOCATION**

I understand that I have a right to revoke this authorization, in writing, at any time by sending written notification to Living at Reflections, LLC. I further understand that a revocation of the authorization is not effective to the extent that action has been taken in reliance on the authorization.

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

## Initial Abbreviated Treatment Plan (Includes Detox) 11/28/2025

Date Established: 11/28/2025

### PRESENTING PROBLEM:

Patient Needs to Be Detoxed from:

ALCOHOL DEPENDENCY

AS EVIDENCED BY (History and Patient Statement):

"I want to detox, and to get to the root or cause of my drinking"

Goal: Patient will be medically stabilized, complete a safe medical detox, follow staff recommendations for ongoing treatment and/or discharge plans, transfer to lower level of care as deemed by treatment team and medical necessity, and begin to engage in the therapeutic group treatment process.

Objective (What is the Patient going to do?)	Intervention (What is staff going to do?)	Staff Responsible
Patient will follow detox protocol as outlined in orders to maintain homeostasis & prevent physical complications.	A. Staff will monitor patient's vital signs on as needed basis. B. Staff will utilize vital signs as a tool to evaluate need for medication. C. Nursing staff will complete nursing assessment including what and how much the patient drinks and/or uses mood-altering drugs, time and amount of last usage. D. Staff to monitor patient's mental status & physical symptoms. Evaluate for presence of tremors, irritability, diaphoresis, sleep disturbances, orientation and misperception, misinterpretation of real stimuli (hallucinosis), seizures, or hallucinations. E. Staff will alert the physician to any changes in symptomatology that occur. F. Staff will offer fluids frequently. G. Staff will promote rest and sleep through relaxation & decrease of external stimuli. H. Physician and/or Nursing will educate patient on medications.	Nursing Staff

12/05/2025 Open

IM 11/28/2025

---

Patient will be educated in substance abuse and addiction by attending a minimum of 2 groups per week in educational and/or therapeutic groups and activities.

Staff will provide educational and therapeutic activities in which the patient can learn about addiction and substance abuse.

Clinical Staff

Target date	Status	Date/Comment	By
12/12/2025	Open		IM 11/28/2025

---

Patient will discuss discharge plans with therapist in 1:1 session.

Staff will assist patient in developing appropriate discharge plans at the end of detox.

Aftercare Coordinators

Target date	Status	Date/Comment	By
12/19/2025	Open		IM 11/28/2025

---

#### Problem #6

Fall Risk Identified and goal is for Client to not sustain a fall while in Detox

Target date	Status	Date/Comment	By

**Criteria for discharge & discharge planning:** Patient has completed the detoxification process and been approved for transfer via treatment team and ASAM/medical criteria.

## Ryan Bohannon ♂ 2025-124

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

### Review Self Administration of Medication Assessment

1. Does patient currently administer their own medication? Yes

2. Is patient confused? No

3. Does patient have a history of drug abuse or self-harm? Yes

4. Can patient read labels? Yes

5. Can patient open bottles/blister packs? Yes

6. Can patient name medication(s), why they are taking it, and the dosage? Yes

The above patient is capable of self-administration of medications(s). Yes

### Medication Education

1. RE: Elevated blood sugar, diabetes mellitus and stroke. I have been Informed by the undersigned that elevated blood sugars, in some cases extreme, and associated with coma or death have been reported in patients treated with atypical antipsychotic including CLOZARIL, ZYPREXA, SEROQUEL, GEODON and ABILIFY. The relationship between atypical antipsychotic use and elevated blood sugar is not completely understood because of other factors such as the higher incidence of diabetes associated with many psychiatric disorders, the epidemic of obesity, cholesterol problems and diabetes in the general population and other such factors. However, studies suggest an increased risk of elevated blood sugar and cholesterol related adverse ailments in patients treated with atypical antipsychotic. These changes may occur with or without weight gain. Any patient treated with atypical antipsychotic should be monitored for symptoms of elevated blood sugar including increased thirst, increased urination, increased eating and weakness. Patients who develop symptoms of elevated blood sugar during treatment with atypical antipsychotic should have a test for elevated blood sugar and cholesterol. In addition, RISPERIDAL, ZYPREXA and ABILIFY have been found to have an elevated risk in clinical trials in elderly patients with dementia.
2. I have been informed by the undersigned that all antipsychotic medications I take (including those listed in #1 above as well as haloperidol [Haldol] and fluphenazine [Prolixin] may result in a condition called Tardive Dyskinesia (TD). The symptoms of TD, which is potentially irreversible, have been explained to me.
3. If applicable (female of child bearing age): I have been informed by the undersigned that any and all medications I take may have a negative effect on an unborn child (fetus) if I am pregnant. If I am not pregnant now. I agree to discuss my medication(s) with my doctor before attempting to get pregnant If I do become pregnant while taking medicine I agree to immediately contact my doctor.
4. I have been informed that benzodiazepines (for example, lorazepam [Ativan], alprazolam [Xanax], and clonazepam [Klonopin]) are addicting, habit forming, and may cause dizziness, Impaired memory, impaired coordination, and reaction time, and should NOT be combined with alcohol. I understand that I should not stop taking these medications abruptly because of the risk of possible seizures and/or other adverse effects.
5. I have been informed that the Food & Drug Administration (FDA) has issued a warning that antidepressants might worsen depression and/or increase the risk of suicide. Patient's and. their families should be alert for the emergence of agitation, irritability, anxiety, panic attacks, insomnia, hostility, impulsivity, severe restlessness, worsening depression, suicidal thoughts, or elevated mood, especially soon after treatment has been started, the dose of the medication has been Increased or decreased, or when the medication is discontinued. If any of these symptoms and during treatment, they should be reported to the doctor immediately. The drugs that are the focus of this new warning are: Prozac (fluoxetine); Zoloft (sertraline); Paxil (paroxetine); Luvox (fluvoxamine); Celexa (citalopram); Lexapro (escitalopram); Wellbutrin (bupropion); Effexor (venefaxine); Serzone (nefazodone); and Remeron (mirtazapine).
6. I have been informed that one or more of the medications I have been prescribed are "off label"; this means that the medication is prescribed for uses not approved by the Food and Drug Administration (FDA). Only atomoxetine (strattera) - for ADHD, fluoxetine (Prozac) - for depression & obsessive compulsive disorder (OCD), sertraline (Zoloft) ... for OCD, fluvoxamine (luvox) - for OCD, and clomipramine (Anafranil) -for OCD, have FDA approval for use in children.
7. I have been informed that one or more of the medications prescribed to me may adversely affect my ability to drive a motor vehicle or operate machinery, and I take full responsibility for this liability.
8. Potential risks and benefits of taking this or these medications, as well as alternative treatments, have been discussed with me and I accept these risks. I have been given a copy of this form to take home with me.

**PHYSICAL SCREENING**

1. Have you ever had a heart attack or any problem associated with the heart?  Yes  No

If yes, please list when, what was the diagnosis and if you are taking medication please list here:

---

2. Are you currently experiencing chest pain(s)?  Yes  No

If yes, please give details:

---

If **yes**, please give details and notify NP/MD immediately

3. Do you have any serious health problems or illnesses (such as tuberculosis or pneumonia) that  Yes  No may be contagious to others around you?

If yes, please give details:

---

4. Have you ever tested positive for tuberculosis?  Yes  No

If yes, when? Please give details:

---

5. Have you ever been treated for HIV or Aids?  Yes  No

If yes, when? Please give details:

---

6. Have you ever tested positive for sexually transmitted diseases?  Yes  No

If yes, please give details and list any medications you are taking:

---

7. Have you had a head injury in the last six (6) months? Have you ever had a head injury that resulted in a period of loss of consciousness?  Yes  No

Have you ever had a head injury that resulted in a period of loss of consciousness?  Yes  No

If yes, to either question, please give details:

---

8. Have you ever been diagnosed with diabetes?  Yes  No

If yes, please give details, including insulin, oral medications, or special diet:

---

9. Do you have any open lesions/wounds?  Yes  No

Have you been diagnosed with MRSA (Methicillin-resistant Staphylococcus aureus) - resistant to commonly used antibiotics  Yes  No

If yes, please explain and list any medications you are taking:

---

10. Have you ever had any form of seizures, delirium tremens or convulsions?  Yes  No

If yes, date of last seizure episode(s) and list any medications you are taking:

---

11. Do you feel you have problems with sleep?  Yes  No

**Do you suffer from night sweats?**  Yes  No

If yes to either question, please give details:

yes, client takes trazodone (200mg) and ruminates

**Do you use a C-PAP machine or are you dependent upon oxygen?**  Yes  No

If yes, please explain:

---

**12. Have you ever had a stroke?**  Yes  No

If yes, please give details:

---

**13. Are you pregnant?**  NA  Yes  No

If yes? Which trimester: NA

Are you receiving pre-natal care?  NA  Yes  No

Any complications?  NA  Yes  No

If yes to any question, please explain:

---

**14. Do you have a history of any other illness that may require frequent medical attention?**  Yes  No

If yes, please give details and list any medications you are taking:

---

**15. Have you ever had blood clots in the legs or elsewhere that required medical attention?**  Yes  No

If yes, please give details:

---

**16. Have you ever had high-blood pressure or hypertension?**  Yes  No

If yes, please give details:

Hx of HTN no medications

---

**17. Do you have a history of cancer?**  Yes  No

If yes, please give details and list any medications you are taking:

---

**18. Have you ever had an ulcer, gallstones, internal bleeding, or any type of bowel or colon inflammation?**  Yes  No

If yes, please give details:

---

**19. Have you ever been diagnosed with any type of hepatitis or other liver illness?**  Yes  No

If yes, please give details and list any medications you are taking:

---

**20. Have you ever been told you had problems with your thyroid gland, been treated for, or told you need to be treated for, any other type of glandular disease?**  Yes  No

If yes, please give details:

---

21. Do you currently have any lung diseases such as asthma, emphysema, or chronic bronchitis?  Yes  No

If yes, please give details:

---

22. Have you ever had kidney stones or kidney infections, or had problems, or been told you have problems with your kidneys or bladder?  Yes  No

Do you have any family history of kidney stones?  Yes  No

If yes, please give details:

---

23. Are you currently experiencing any form of pain?  Yes  No

If yes, how strong is the pain?

If yes, describe pain:

---

23a. Do you have any of the following; arthritis, back problems, bone injuries, muscle injuries, or joint injuries?  Yes  No

If yes, please give details, including any ongoing pain or disabilities:

---

If yes to 23 or 23a, please add "Pain Screen Form" and "Pain Re-Ass in Daily assesment" Updates

24. Do you take over the counter pain medications such as aspirin, Tylenol, or Ibuprofen?  Yes  No

If yes, list the medication(s) and how often you take it:

---

25. Do you take over the counter digestive medications such as Tums, Maalox or laxatives?  Yes  No

If yes, list the medication(s) and how often you take it:

---

26. Do you wear or need to wear glasses, contact lenses, or hearing aids?  Yes  No

Do you have personal or family history of Glaucoma?  Yes  No

If yes to either question, please give details:

---

27. When was your last dental exam? Date: Can't recall

Are you in need of dental care?  Yes  No

If yes, please give details:

---

28. Do you wear or need to wear dentures or other dental appliances that may require dental care?  Yes  No

If yes, please give details:

---

29. Please describe any surgeries or hospitalizations due to illness or injury that you have had in  
Powered by Kipu Systems

the past.

hx of broken bones at childhood

30. When was the last time you saw a physician and/or psychiatrist? Date: 4 months ago

What was the purpose of the visit?

f/u for medications

31. In the past seven days what types of drugs, including alcohol, have you used?

	Route	Amounts	Time Frame	Last Use	Cravings 1-10
ETOH	Oral	a fifth of vodka or whisky daily	Started to drink at the age of 15 y/o and became a problem at the age of 17y/o	11/28/25	8/10
Opiates	Kratom and Kava mix	3-4 3oz bottles	Since age of 31y/o	11/26/25	6/10
Benzodiazepines	Oral: Xanax	Unsure amount	Started to use at the age of 21y/o and became a problem at the age of 33y/o	11/27/25	3/10
Cocaine/Stimulants	Oral: Vyvanse Oral: Adderall	20-40mg 10-15mg	Started to use at the age of 24y/o from his wife	11/26/25	3/10
THC	Oral and vape	10mg edible and unsure or vaping	Started to use at the age of 14y/o	11/27/25	7/10
Hallucinogens/Club Drugs	Denies				
Inhalants	Denies				

32. In the past year what types of drugs, including alcohol, have you used?

	Route	Amounts	Time Frame	Last Use	Cravings 1-10
ETOH	Oral	a fifth of vodka or whisky daily	Started to drink at the age of 15 y/o and became a problem at the age of 17y/o	11/28/25	8/10
	Kratom and Kava mix	3-4 3oz bottles	Since age of 31y/o	11/26/25	6/10
Opiates	Oral: OxyContin	Unsure amount, no pattern use	Started to used at the age of 18y/o	2023	
	Hydrocodone	Unsure amount, no pattern use	Started to used at the age of 18y/o	2023	
	Oral Ambien	unsure amount	Couple of times at the age of 32y/o	2023	
Benzodiazepines	Oral: Valium	Unsure amount it was prescribed	Used at the age of 21	2015	
	Oral: Xanax	1/2-1 bar	a day for 4-5 days starter to used at the age of 21y/o	11/27/25	3/10
	Oral: Lorazepam	2-4mg	once a week started to use at the age of 32y/o	11/11/25	2/10
Cocaine/Stimulants	Intranasal: Cocaine	Unsure amount	for 4 days during his wedding	09/2025	
	Oral: Vyvanse Oral: Adderall	20-40mg 10-15mg	Started to use at the age of 24y/o from his wife	11/26/25	3/10
THC	Oral and vape	10mg edible and unsure or vaping	Started to use at the age of 14y/o	11/27/25	7/10
Hallucinogens/Club Drugs	LSD	No pattern use	Started to use at the age of 17y/o	09/2025	
	Mushrooms	8-12g monthly	Started to use at the age of 30y/o	09/2025

## MENTAL & EMOTIONAL

33. Are you currently feeling down, depressed, anxious or hopeless?  Yes  No

If yes, describe:

"very anxious and afraid"

34. Are you currently receiving treatment services for an emotional/psychiatric diagnosis?  Yes  No

If yes, for what are you being treated?

Depression and anxiety d/t the recent loss of my brother

35. Over the last 2 weeks, have you felt nervous, anxious, or on edge?  Yes  No

## SUICIDE IDEATION DEFINITIONS AND PROMPTS

Ask questions that are bolded and underlined.

Ask Questions 1 and 2

1) **Have you wished you were dead or wished you could go to sleep and not wake up?**

Past Month: 

YES	NO
<input type="checkbox"/>	<input checked="" type="checkbox"/>

2) **Have you actually had any thoughts of killing yourself?**

Past Month: 

YES	NO
<input type="checkbox"/>	<input checked="" type="checkbox"/>

If YES to 2, ask questions 3, 4, 5, and 6. If NO to 2, go directly to question 6.

3) **Have you been thinking about how you might do this?**

E.g. "I thought about taking an overdose but I never made a specific plan as to when where or how I would actually do it....and I would never go through with it."

Past Month: 

YES	NO
<input type="checkbox"/>	<input type="checkbox"/>

4) **Have you had these thoughts and had some intention of acting on them?**

As opposed to "I have the thoughts but I definitely will not do anything about them."

Past Month: 

YES	NO
<input type="checkbox"/>	<input type="checkbox"/>

Past Month: 

YES	NO
<input type="checkbox"/>	<input type="checkbox"/>

5) **Have you started to work out or worked out the details of how to kill yourself? Do you intend to carry out this plan?**

Past Month: 

YES	NO
<input type="checkbox"/>	<input type="checkbox"/>

6) **Have you ever done anything, started to do anything, or prepared to do anything to end your life?**

YES	NO
<input type="checkbox"/>	<input type="checkbox"/>

Examples: Collected pills, obtained a gun, gave away valuables, wrote a will or suicide note, took out pills but didn't swallow any, held a gun but changed your mind or it was grabbed from your hand, went to the roof but didn't jump; or actually took pills, tried to shoot yourself, cut yourself, tried to hang yourself, etc.

If YES, ask: Was this within the past three months?

YES

NO

N/A

Low Risk

Moderate Risk

High Risk

#### Recommended response to C-SSRS Screening:

No SI plan or intent

*If client is moderate to high risk for suicidality, the clinician MUST complete a full suicide risk assessment protocol*

Did you feel like you were unable to stop or control your worrying?  Yes  No

If yes, describe:

" I over think too much"

Have you ever had thoughts of suicide or thought you would be better off dead?  Yes  No

If yes, describe:

"No I love life and now I am married"

Do you have any cultural, religious or other beliefs that prohibit/discourage suicide?

Yes  
No  

Do you have strong coping and problem-solving skills or are you optimistic?

Yes  
No  

Do you have a strong therapeutic relationship?

Yes  
No  

Are you positively motivated for treatment?

Yes  
No  

**If moderate or high immediately notify treatment team (Primary Therapist, Medical Providers, Clinical Directors, RA and Detox Manager) for further risk assessment.**

#### ANY PROTECTIVE FACTORS:

40. Have you ever been in a relationship where your partner has pushed or slapped you?  Yes  No

If yes, describe:

41. Have you received alcoholism or drug abuse recovery treatment services in the past?  Yes  No

Type of Treatment (Outpatient, Residential, Detoxification)	Name of Facility	Dates Attended	Treatment Completed (Yes/No)
Rehab	Camp Recovery, Santa Cruz	10/20/25 - 11/09/25	Yes

Rehab	Full Circle, San Alselmo	2017	Yes
Rehab	Serenity Knolls	2014	Yes
Outpatient Services	Adolescent Outpatient, Palo Alto	2008	Yes

42. Have you ever been treated for withdrawal symptoms?  Yes  No

If yes, please state the dates you were treated and any medications that were prescribed:

Yes, unsure of medications

43. Who are your biggest supporters? (Who would you call if you needed help?)

"My wife"

44. How is this effecting your work life?

"Is affecting my work life because I am the top saler and I can't perform and show up on time"

45. Medication Inventory at Admission: PLEASE ENTER ALL MEDICATIONS BROUGHT IN UNDER CONSULTING PHYSICIAN ORDERS/MEDS BROUGHT IN

Current Medications - What medications do you take every day? Please add new note.

Medications below include all current active orders logged via Doctor's Orders. These may include medications self-reported by the patient that were logged, medication orders entered at the facility, and medications brought to the facility by the patient ordered to be continued upon admission. If the patient is not being treated in a residential/inpatient setting, this list may not be inclusive of all medications taken by the patient outside of the facility.

Current as of 11/28/2025 02:53 PM:

clonidine HCl, 0.1 mg x 1 tablet , oral, tablet, three times a day, until further notice, indication: eRx  
diazepam, 5 mg x 4 tablets , oral, tablet, every six hours, until further notice, indication: eRx, Dea Class: C-IV  
ondansetron HCl, 4 mg x 1 tablet , oral, tablet, three times a day, until further notice, indication: eRx

46. Current Nicotine Yes , How Long: Zyn pouches for 20 years

Use:

Smoking Cessation Program/Education No

If Yes, what program?

47. Describe:

Scars (S), Lacerations (L), Burns (B), Bruises (BR), Moles/Birthmarks (M), Abrasions (A), Rashes (R), Tattoos (T), Piercing (P):

Multiple tattoos all over his body

#### RISK PROFILE

Are you current with all immunizations?  Yes  No

Specify year/type of immunizations:

	Year	Where Given
Pneumonia	Can't recall but can provide proof	Can't recall but can provide proof
Flu	Can't recall but can provide proof	Can't recall but can provide proof
Tetanus	Can't recall but can provide proof	Can't recall but can provide proof
Hepatitis	Can't recall but can provide proof	Can't recall but can provide proof

**Infectious Diseases:**

*Please check YES or NO in response to the following questions*

**1. Have you been in recent contact to an infectious case of tuberculosis?**  Yes  No

**2. Have you ever had an organ transplant?**  Yes  No

**3. Are you a recent (Within the last 5 years) immigrant from a country with a high rate of TB?**  Yes  No

**4. Have you ever injected drugs?**  Yes  No

**5. Have you been in jail, prison, or a nursing home?**  Yes  No

**Please explain:**

**6. Have you ever worked in a lab that processed TB specimens?**  Yes  No

**7. Have you ever been told you have an abnormal chest x-ray?**  Yes  No

**8. Have you had any of the following symptoms recently?**  Yes  No

Client denies

---

**9. Education Provided Re: Infection Prevention and Control**

Client verbalized understanding? Yes

Infection Prevention and Control Pamphlet received by client?

Refused

Additional Medical Notes:

Ryan Bohannon (Client), 11/28/2025 06:15 PM

Staff present: Irma Martinez, LPT

Irma Martinez, LPT (Staff), 11/28/2025 07:15 PM

## Ryan Bohannon ♂ 2025-124

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

### Living at Reflections, LLC

### Specific Authorization for Psychotropic Medications

Discussion of psychotropic medication should occur within the context of the patient's medical history and current overall medication regimen.

I, Ryan Bohannon, a patient, hereby authorize the professional staff of this facility to observe me taking the stated medication for treatment limited to mental health medications, as indicated below as the primary medication recommended or alternate if requested by my physician.

State law requires informing you about the typical maximum daily dosage of medications. Please initial next to medications you have been informed about and are agreeing to take. If your daily dosage will exceed maximums listed below, you will be informed of this and asked to provide additional consent.

I have been given detailed information about Medication and Dose and I agree to take it as prescribed:

Valium  
Clonidine  
Gabapentin

1. The proposed medications, maximum dosage range, frequency, and method of administration.
2. The purpose of my treatment.
3. Common short – and long-term side effects of my proposed medication, including contraindications and clinically significant interactions with other medications.
4. Alternative medications.
5. Approximate length of care.

I further understand that a change of medication or dosage which exceeds the maximum listed will require additional express and informed consent.

I understand that my consent can be revoked orally or in writing prior to, or during the treatment period.

The information I have relied upon to make the decision to consent to treatment, including full disclosure of each of the above subjects, is attached to this authorization and signed by me. I have read and had this information fully explained to me and I have had the opportunity to ask questions and receive answers about the treatment.

+++++

Medication education was provided verbally and accompanied by written material. The above drug was reviewed with Ryan Bohannon: Reason, Dosing schedule, food/drug interactions, side effects and signs/symptoms to report to the nurse or physician.

**Verbalized an understanding**       **Needs further education**

Ryan Bohannon (Client), 11/28/2025 05:42 PM

<sup>†</sup>An Active Prescription indicates the patient has units of the medication remaining as of the date this report was generated. It is calculated based on Date Filled and Day's Supply of the medication, and assumes the patient is taking the medication as directed, beginning the day following the day the prescription was filled. Morphine Milligram Equivalents (MMEs) are calculated using the morphine equivalent conversion factor, published by the Centers for Disease Control and Prevention (CDC). The MME calculations contained in this report are informational only. Providers should exercise their independent clinical judgment in making prescribing and dispensing decisions. More information regarding MMEs can be found on the CDC website at <https://www.cdc.gov/opioids/data-resources/index.html>.

**DISCLAIMER:** The CURES database contains information about Schedule II, Schedule III, Schedule IV, and Schedule V controlled substance prescriptions dispensed to patients, as reported by California-licensed dispensers. The California Department of Justice does not independently verify the accuracy of the information reported by dispensers. Records are based on information at the time the query was submitted and are subject to change as a result of subsequent reporting by dispensers.

Barbieri, Ellen (Prescriber)

Bilirubin, Direct	<0.2	[0.0-0.2]	mg/dL	{NV}
-------------------	------	-----------	-------	------

Comp Metabolic Pnl				
Sodium	137	[136-145]	mmol/L	{NV}
Potassium	4.0	[3.5-5.1]	mmol/L	{NV}
Chloride	100	[98-110]	mmol/L	{NV}
Bicarbonate	28	[21-32]	mmol/L	{NV}
Anion Gap	9	[2-12]	mmol/L	{NV}

The Anion Gap calculation uses the American formula:  $(Na) - (Cl + CO_2) = \text{anion gap}$ . There are other means of calculating anion gap that may yield a different value. Therefore, the clinical history of the patient should be considered when interpreting the anion gap value.

A low Anion Gap result may be observed in patients with decreased albumin. Every 1.0 g/dL decrease in albumin causes an approximate decrease of 2.5 mmol/L in the measured Anion Gap. Interpret anion gap results in the context of the complete clinical history.

Glucose	97	[70-100]	mg/dL	{NV}

HEP A Ab IgM

Non Reactive [NRX] {S5}  
 Patients taking biotin supplements may have  
 falsely nonreactive/false negative  
 results. Clinical correlation is required.

IgM antibodies to HAV not detected. Does not  
 exclude early acute or recovered HAV  
 infection.

Hep B Surf Ab, Quant

248.6 [>9.9] mIU/mL {S5}  
 Reactive

A reactive result indicates that the patient  
 has antibody to Hepatitis B surface  
 antigen and implies immunity. It does not  
 differentiate between resolved infection  
 or vaccination. The clinical significance  
 of this result must be determined in  
 conjunction with clinical signs and  
 symptoms of the patient.

HCV Ab w/rflx HCVPCR  
HEP C Ab

Non Reactive [NRX] {S5}  
 Antibodies to HCV not detected. Does not  
 exclude early acute HCV infection.

HIV 4th Gen wRflx  
HIV1/HIV2

Non Reactive [NRX] {S5}  
 This fourth generation immunoassay shows no  
 detectable antibodies to HIV-1 (groups M  
 and O) and HIV-2, and the HIV-1 p24  
 antigen.

### Description

#### Reflections

ID: This is a 34 year old male with alcohol, other psychoactive substance, and stimulant use disorder(s), admitted to Reflections for acute withdrawal management and residential treatment.

#### HPI:

Reason for seeking treatment at present: "I just got married and I'm ruining my life again." Last six months of "fleeting thoughts" of shooting himself with the pistol he owns.

Brief synopsis of current use: fifth of vodka daily, 3 four oz bottle Kratom daily, 40mg Vyvanse and 15mg Adderall non-prescribed daily.

Last drink/Use: 11/27/25

Past treatment attempts: four times

Residential: 2014 Serenity Knolls, 2017 Full Circle, 10/20/25 The Camps

Outpatient: 2008 Adolescent outpatient Palo Alto

#### Substance Use History

Amount/Route/Date of Last Use/Duration/1st use/when it became a problem:

#1 Alcohol: 11/27/25 Fifth of vodka plus beers daily, age of first use 15, problem age 17

#2 Other: Kratom 11/26/25, 3 four oz bottles daily, age of first use/problem 31

#3 Stimulants: 11/26/25, 40mg Vyvanse, 15mg Adderall non-prescribed, age of first use/problem 24

Sedative: (Xanax): 11/27, sporadic use, denies problem

Cannabis: 11/27, sporadic use, denies problem

Opioids (Fent): 2023, hydrocodone, sporadic use, denies problem

Nicotine: current use, Zyn pouches, declines cessation at this time

DENIES

Cocaine:

Hallucinogens

Inhalants:

Over the Counter

Prescriptions

Negative consequences

Legal: DUI, age 17

Employment/School: concerned will loose job, showing up late, calling in sick, not getting "sales numbers" as needed

Financial: spending on substances, missing work

Family/Relationships: newlywed, wife "is pissed"

Health: mental health deterioration

Trauma

Physical: YES

Social/domestic abuse: YES

Mental/psychological: YES

Sexual: denies

Sober Time: 4 years in 2016-2020

Factors that helped: treatment, heavy AA involvement

Detox History: three times

History of Seizures or DT's: Denies

Current Physical Symptoms

POSTIVE

Anxiety

Depression

Shakes

DENIES

Seizures

DTs

Hallucinations/Delusions

Blackouts

Cramping

Nausea

Paranoia Suspiciousness

Achy Joints

Current Cravings: mild

Any history of IV drug use: denies

Overdose history: denies

Medical History:

Primary care provider name and last visit: Dr. Elizabeth Tatta-Acha, last seen July 2025

Recent ED: Denies

Chronic/Acute Illnesses: Denies

Hx seizures, epilepsy, kidney, liver: Denies

Head/Fall/Brain Hemorrhage: Denies

Surgeries: Denies

Diet: Regular

**Psychiatric History:**

Hx bipolar, schizo, eating dx, mania: Denies

Hx anxiety, depression: depression, anxiety, ruminative thoughts

Therapist/psychiatrist: history of several therapist, no current therapist

Hx SI/SA: current SI, for the last six months fleeting thoughts of "better of dead", owns a pistol in a gun safe with magazines close by, thoughts he could use the gun to die.

Hx self-harm: hx of self harm as teen

Hix 5150 holds: Denies

Allergies: Denies

**Medications:**

1) Lexapro 20mg, prescribed in July 2025, for anxiety/depression

2) Trazodone, 200mg nightly insomnia

**Social History:**

Sexual orientation: prefers females

Relationships Status: married

Housing, persons in home: wife and two dogs

substance use in home: Denies

Employment, Career, Certification, License, Ed level: BA in communications, works in sales

Military service: Denies

**Family History:**

Medical: Denies

Substance: twin brother died of alcohol abuse in Aug 2023, 10 days later older brother died of Fentanyl overdose. Father sober alcoholic

Psychiatric, including suicides: mother depression, bi-polar and suicide attempts, sister suicide attempts

Recent Loss/Grief: death of twin brother and older brother, loss just days apart

**Physical**

Mood: "ok"

Hallucinations: Denies

SI/HI: fleeting thoughts of "better off dead" no access to plan, gun in home

**General:**

Client got a DUI at age 17 while high on ecstasy. He did an outpatient program as a result. He continued to use until age 25, when he achieved four years of sobriety through heavy involvement in AA. The last five years he's been in three treatment centers trying to maintain sobriety. His father is a sober alcoholic, his mother has serious mental health struggles with several suicide attempts. His twin brother died in Aug 2023 from alcohol abuse, and his older brother died ten days later of Fentanyl overdose. He has two living sisters, one who has also attempted suicide a few times. Client got married six months ago, around the time his SI began. He admits to "fleeting thoughts" of being better off dead, and using the pistol he owns to kill himself. He says these thoughts are sometimes pervasive, and he's never experienced this pattern of SI before. Client is successful in sales, though his job has been suffering due to his SUD. He is also an avid cyclist. As a child he broke his wrist twice, elbow and shoulder from mountain bike accidents. He wants to get off all substances including the Adderall and Vyvanse his wife supplies him. He does not think he has ADHD or needs treatment for it, he admits abusing these stimulants. He experiences high levels of depression, anxiety and ruminative thoughts.

## Review of Systems

**GENERAL:** Good, no acute distress

**SKIN:** Denies rash, itching, dryness, color changes, ulcers

**HEAD/NECK:** Denies headaches, dizziness; no swollen glands.

**EYES:** Denies vision loss, blurring.

**EARS:** Hearing good, denies tinnitus, denies otalgia.

**NOSE:** Denies sinus pain, rhinorrhea, congestion

**MOUTH/THROAT:** Denies dental problems, oral ulcers, sore throat, hoarseness, dysphagia,

**CV:** Denies palpitations, edema, chest pains or irregular heartbeat.

**LUNGS:** Denies cough, sputum, dyspnea, pleuritic pain, hemoptysis, wheezing

**BREASTS:** Denies pain, discharge, masses.

**GI:** Denies nausea or vomiting, heartburn, abdominal pain, bloating diarrhea, constipation, jaundice

**GU:** Denies pain, urgency, incontinence, hematuria, discharge. Denies STD's.

**BLOOD:** Denies bruising/bleeding, history of anemia.

**MS:** Denies joint pain hands/elbows, morning stiffness. Denies gout, osteoporosis, cramps, and swelling.

**NEURO:** Endorses long term insomnia. Denies weakness, seizures, loss of consciousness, head trauma, numbness, tingling, dizziness, confusion, memory loss, difficulty walking, tremor, syncope, and stroke.

**PSYCH:** Endorses depression, anxiety, ruminative thoughts. Denies current suicide ideation.

## Physical Exam

**General:** Well-developed, well-nourished, in no acute distress. Appears stated age. Casual dress. Well groomed.

**HEENT:** Conjunctiva clear, without exudate. Sclera without jaundice. EOMI. PERRLA. External ears and canals without abnormalities bilaterally. Nasal mucosa pink and moist, nostrils patent bilaterally, nasal septum midline without erosions. Oral mucosa pink and moist. Dentition good. Tongue without lesions, midline with good symmetrical movement. Pharynx normal in appearance without tonsillar exudate or edema.

**Neck:** Supple. No JVD noted. No thyromegaly appreciated.

**Lymph:** No cervical lymphadenopathy appreciated.

**Cardiovascular:** Heart regular rate and rhythm. S1 and S2 present. No clicks, gallops, rubs or murmurs appreciated.

**Lungs:** Clear to auscultation bilaterally. No wheezes, rales or rhonchi appreciated.

**Abdomen:** Soft, non-tender, non-distended. Bowel sounds present in all four quadrants. No ascites appreciated. No organomegaly appreciated.

**Skin:** Warm, dry. No jaundice appreciated. Without wounds, bruises, rashes, track marks, or abscesses.

**Extremities:** No deformity noted in any extremity. No tenderness to palpation in any extremity. Good ROM in all four extremities. No edema or erythema noted.

**Rectal:** Deferred, examination not appropriate for this level of care.

**Neuro:** Alert/awake, oriented to person, place, time and situation. No tremor, no asterixis. Normal gait. 5/5 motor strength in all four extremities. Intact to light touch sensation in all four extremities. Reflexes 2+ bilaterally. Cranial nerves 2-12 were individually tested and found to be intact. Finger-to-nose touch test intact bilaterally. Patient can rub posterior heels against anterior shins bilaterally.

**Psych:** Cooperative, engaged; mood described as "open"; affect appropriate; fair eye contact; speech appropriate rate and volume; thought content preoccupied; long and short term memory grossly intact but not formally tested; judgement intact. No audiovisual or tactile hallucinations, no suicidal or homicidal ideation.

Height: 6' 2" Weight: 215lbs BMI: 27 B/P: 145/76 P: 100 O2: 99 R: 20 T: 97.8 CIWA: 12 BAC: 0.26 UDS: ETOH

## Substance Use Diagnoses:

F10.20 Alcohol use disorder, Severe

F19.10 Other psychoactive substance abuse, uncomplicated

F15.20 Other or unspecified stimulant use disorder, Severe

F33.9 Major depressive disorder, recurrent, unspecified

F41.1 Generalized anxiety disorder

G47.00 Insomnia, unspecified

**Assessment:**

This is a 34 year old male with severe alcohol, psychoactive, stimulant use disorder, presenting to Reflections Dual Diagnosis Treatment Center for acute withdrawal management and residential treatment.

Given the time since patient's last use and current symptoms, there is a concern for a withdrawal seizure or other acute medical problem from withdrawal. Therefore, the patient is placed in ASAM LOC 3.7.

**Initial Goals**

- Admit to RTC for stabilization and recovery.
- Begin psychotherapy focusing on relapse prevention.
- Discussed risk of overdose/death with relapse, demonstrates understanding. Discussed risk of presence of fentanyl in other substances, risk of overdose/death, demonstrates understanding.
- A CURES report was generated and reviewed. Please see chart for report.
- I have explained my role at the facility and asked the patient to let the staff know about any symptoms or medical issues that come up during treatment.

## Physician Progress Note 12/29/2025 04:12 PM

Date & Time 12/29/2025 04:12 PM

### Progress Notes

#### Subjective:

Client reports "doing well." He is experiencing some anxiety in anticipation of discharging and his desire to stay sober. He made note to make a PCP appointment before he leaves to discuss ADHD medication, nicotine patch, Lexapro effectiveness and continue his acamprosate. Client reports eating well, sleeping "pretty good" and denies cravings.

MAT: Client is taking Acamprosate, no side effects reported.

Objective: Client is looking well. Client's blood pressure has mostly hypertensive reading with some normal range readings. Client has been provided these readings and has agreed to follow up with his PCP. All other vital signs within normal range. He is compliant with medication. In no acute distress. He is calm, well groomed, well mannered and appears sincere.

PAWS: CIWA: 3

#### Assessment:

F10.20 Alcohol use disorder, Severe

F19.10 Other psychoactive substance abuse, uncomplicated

F15.20 Other or unspecified stimulant use disorder, Severe

F33.9 Major depressive disorder, recurrent, unspecified

F41.1 Generalized anxiety disorder

G47.00 Insomnia, unspecified

#### Plan:

- 1) Continue treatment plan with psychotherapy and prevention.
- 2) Assess MAT compliance
- 3) Support client in following up with PCP on high blood pressure readings and psychiatric medications.

#### Current Meds

*Medications below include all current active orders logged via Doctor's Orders. These may include medications self-reported by the patient that were logged, medication orders entered at the facility, and medications brought to the facility by the patient ordered to be continued upon admission. If the patient is not being treated in a residential/inpatient setting, this list may not be inclusive of all medications taken by the patient outside of the facility.*

Current as of 12/29/2025 04:12 PM:

acamprostate, 333 mg x 2 tablets , oral, tablet, delayed release (enteric coated), three times a day schedule (TID), until further notice, indication: relapse prevention

Acetaminophen, 500 mg x 2 Tablets , oral, tablet, every 6 hours, until further notice, PRN, indication: Headache or Pain  
B-12, 5,000mcg x 1 mcg , by mouth, 5,000mcg, once a day (AM) PRN, until further notice, PRN, indication: home supplement

Benadryl Allergy (diphenhydramine HCl), 25 mg x 1 tablet , oral, tablet, once a day (HS) PRN, until further notice, PRN, indication: sleep

escitalopram oxalate 20mg , 20 mg x 1 1 , oral, tablet, once a day (AM), until further notice, indication: depression

gabapentin, 100 mg x 1-3 capsules , oral, capsule, 2x a day schedule (BID) PRN, until further notice, PRN, indication: anxiety

gabapentin, 300 mg x 1 capsule , oral, capsule, once a day (HS), until further notice, PRN, indication: insomnia

Loperamide (loperamide HCl), 2 mg x 1 Tablet , oral, tablet, every 2 hours, until further notice, PRN, indication: Diarrhea/Loose Stool

magnesium glycinate, 120 mg x 1 capsule , oral, capsule, once a day (HS) PRN, until further notice, PRN, indication: sleep

melatonin, 5 mg x 1 tablet , oral, tablet, chewable, once a day (HS) PRN, until further notice, PRN, indication: sleep

Multivitamin, multiple vitamins x 1 Tablet , oral, tablet, once a day (AM), until further notice, indication: Supplement

ondansetron HCl, 4 mg x 1 tablet , oral, tablet, 3x a day schedule (TID) PRN, until further notice, PRN, indication: N/V

trazodone (trazodone HCl), 100 mg x 2 tablets , oral, tablet, once a day (HS), until further notice, indication: eRx

## Physician Progress Note 12/17/2025 03:01 PM

Date & Time 12/17/2025 03:01 PM

### Progress Notes

**Subjective:** Client reports "doing well", though "I didn't sleep well last night". Client reports he sleeps "pretty well" most nights. Client reports a good appetite. He is participating in programming, therapy and groups. He is utilizing gabapentin for anxiety and sleep. He also uses Benadryl "sometimes" for sleep to supplement his trazodone. Client has been having high blood pressure readings. Provider went over his readings, educated, and recommended client follow up with his PCP. Readings were emailed to client to share with his provider. Client also agreed to follow up with his PCP about his Lexapro dosing, he asked "how do I know if it's working". His PCP is a Psych NP. Client is advised that his PCP is the right person to ask about his prescribed psych medications.

**MAT:** Client is taking Acamprosate, no side effects reported. Client is "ok" with taking this medication three times a day.

**Objective:** Client is looking well. Client's blood pressure has mostly hypertensive reading with some normal range readings. Client has been provided these readings and has agreed to follow up with his PCP. All other vital signs within normal range. He is compliant with medication. In no acute distress. He is calm, well groomed, well mannered and appears sincere.

Date & Time 12/09/2025 03:08 PM

### Progress Notes

Subjective: Client is doing "much better" in treatment. He reports feeling well and engaged in programming and with his therapist. He is sleeping pretty good, but struggles to stay asleep some nights. Benadryl was added as a PRN for sleep. His appetite is good. He moved rooms and likes his new room. Client reported feeling some "brain zaps" one to two times a day for 20-30 seconds. He believes this is from withdrawal. He is encouraged to utilize the gabapentin ordered PRN to calm his overactive nervous system.

MAT: Client was previous on Naltrexone but wants to try acamprosate this time. Acamprosate has been ordered.

Objective: Client's demeanor is improving. His eyes and skin look healthier. He is smiling more with deeper expression. Client's blood pressure has some hypertensive reading with mostly normal range readings. Will follow up with client. All other vital signs within normal range. He is compliant with medication. In no acute distress. He is calm, well groomed, well mannered and appears sincere.

## Incidental Medical Services Certification Form 11/28/2025

Date of Certification: 11/28/2025

I have reviewed the Client Health Questionnaire & Initial Screening prior to providing incidental medical services. I have also determined, based on the results of the screening questions and assessment, that the client is medically appropriate to receive incidental medical services at:

Living at Reflections, LLC - 1191 Simmons Ln. Novato, CA 94945/ 741 McClay Rd. Novato CA 94947

As a result of my assessment and the review of the Client Health Questionnaire & Initial Screening, the client requires and will receive the following alcoholism and drug abuse recovery treatment services:

### Services

1. Obtaining medical histories
  2. Monitoring health status to determine whether the health status warrants transfer of resident in order to receive urgent or emergent care
  3. Testing associated with detoxification from alcohol or drugs
  4. Providing alcoholism or drug abuse recovery or treatment services
  5. Overseeing patient self-administered medications
  6. Treating substance abuse disorders, including detoxification
- 

### Comments or Notes:

I also understand a copy of this form must be placed in the client's chart prior to receiving incidental medical services. I further understand that I may receive treatment services by another healthcare practitioner associated with the above licensed residential facility.

By signing this form, I acknowledge that I have reviewed the Client Health Questionnaire & Initial Screening and I am approving treatment services, as listed above.

PRN Meds for PAWS: Gabapentin 300 mg x 1

C/O: Anxiety and sleep

CIWA: 1

Daily Vital Signs: See KIPU.

Appearance (ADLs): Clean

Mental status/mood: Ryan remains fully compliant with all prescribed medications and vital sign checks, completing these without prompting. During his assessments, he verbalized feeling a mix of anxiety and excitement as his discharge date approached. He took his evening medications and complied with all required vital sign checks and clinical assessments. Regarding PRN medications, Ryan received Gabapentin (100 mg, 2 capsules) for anxiety and Melatonin (10 mg) for sleep, both of which were noted as effective. He also attended an offsite meeting accompanied by a peer and a staff member. Overall, Ryan continues to utilize positive coping mechanisms, and no concerns or other issues were reported during this shift.

Did the Client Participate in Groups/Meetings? Yes, attended the offsite AA meeting and the closing group.

Sleeping: Slept well without any issues.

Nutrition: Ate 100% of all his meals and maintained good hydration.

Discharge Date: 1/2/26.

Daily Temps: WNL

Scheria Smith, LVN, 12/15/2025 02:32 PM

Ryan B

Age: 34 y/o

Allergies: NKA

Admit: 11/28/25

RTC, Room: 4

F10.20 Alcohol use disorder, Severe

F19.10 Other psychoactive substance abuse, uncomplicated

F15.20 Other or unspecified stimulant use disorder, Severe

F33.9 Major depressive disorder, recurrent, unspecified

F41.1 Generalized anxiety disorder

G47.00 Insomnia, unspecified

Mental Status/Mood/Activities: Ryan B was medication compliant. PRN gabapentin for anxiety, effective. His final lab results were uploaded to KIPU for review, some values out of range, Nurse Practitioner made aware. He presented cooperative with care and in good spirits. He took all his meals at the dining room table with peers. Self hydration encouraged. UDS from 12/13 sent out via Fedex. He was observed in the milieu chatting with peers and staff appropriately. No issues or concerns were reported to or observed by this writer. Will continue the plan of care as medically ordered per facility policy and procedure.

MAT: Acamprosate 333mg x2 tablets x3 daily

Diagnostics: completed 12/1

Alma Arenas, LPT, 12/16/2025 05:27 AM (last update: 12/16/2025 05:29 AM)

Detox/OBS/RES Status: Res

Allergies: NKA

Detox Meds if applicable: Acamprosate 333 mg TID.

PRN Meds for PAWS: Gabapentin 100 mg

C/O: None

CIWA: 0

Daily Vital Signs: See KIPU.

Appearance (ADLs): Clean

Mental status/mood: Ryan reported feeling intensely anxious and keyed-up. While he presented with tense facial musculature, he remained polite and appropriate with staff and did not elaborate on the cause of his anxiety. Following his request for a PRN, he was administered with Clonidine 0.1 mg and Gabapentin 100 mg (two capsules). A few minutes after receiving the PRN medication, he took his scheduled dose of Acamprosate 333 mg and Trazodone 100 mg (one tablet). He was compliant with the vital signs and CIWA assessments, scoring a 3. The PRN medication was effective, as there were no further reports of anxiety, and Ryan went to bed early.

Did the Client Participate in Groups/Meetings? Per PA no closing group held today nor off site meeting.

Sleeping: Slept well without any issues.

Nutrition: Ate 100% of all his meals and maintained good hydration.

Discharge Date: 1/2/26.

Detox Meds if applicable: Acamprosate 333 mg TID.

PRN Meds for PAWS: Gabapentin 100 mg

C/O: None

CIWA: 0

Daily Vital Signs: See KIPU.

Appearance (ADLs): Clean

Mental status/mood: Ryan continues to demonstrate compliance with all medications, vital sign checks, and weekly weights without requiring any prompts. He remains polite and appropriate with both staff and peers, demonstrating positive engagement in the milieu and actively participating in activities such as exercising, weightlifting, utilizing the pool, and relaxing in the hot tub. He attended the morning group, the sound bath session, and joined the outing without issue. Ryan expressed happiness regarding his wife's and dogs' visit yesterday. However, he remained anxious about the discharge timeline. He was administered his PRN medication for anxiety and given Gabapentin 100 mg x 3 capsules, and it was noted to be fully effective for his anxiety levels. His CIWA score today was 1. Overall, no concerns were noted during this shift, and he is utilizing positive coping mechanisms.

Did the Client Participate in Groups/Meetings? Yes, attended the morning group, sound bath and went to the outing today.

Sleeping: Slept well without any issues.

### Nursing Progress Notes

Alma Arenas, LPT, 11/30/2025 05:49 PM

Detox/OBS/RES Status: Res

Allergies: NKA

Detox Meds if applicable: None at this time.

PRN Meds for PAWS: None

C/O: None

CIWA: 4

Daily Vital Signs: BP 146/83, P 72, T 96.8, O<sub>2</sub> 98%, R 18.

Appearance (ADLs): Moderate

Mental status/mood: Today, Ryan was observed attempting to use the gym facilities multiple times. He was reminded that he was still on detox protocol and not yet cleared for all activities. Ryan expressed frustration, stating, "I was told I can work out in my room but not in the gym, it doesn't make sense." He also refused his Valium, noting it "doesn't make me feel right." Ryan also expressed his desire to attend the outing. I coordinated with Dr. Oneil regarding Ryan's detox protocol. Following Dr. Oneil's evaluation, the decision was made to discontinue Ryan's detox protocol and his Valium taper. He has now been cleared for all activities and may participate in all residential programming, including the gym and outings. I informed Ryan of this update, and he was excited and happy, stating he can now engage in more activities to keep himself active and occupied during his treatment. Ryan also had a Zoom meeting with the MD, which appeared to have gone well. No other issues have been noted since.

Did the Client Participate in Groups/Meetings? Yes, attended the morning group and joined his peers to the outing.

Sleeping: He reported that he slept ok last night.

Nutrition: Ate 100% of all his meals and maintained good hydration.

Discharge Date: Ryan B will be transferred to McClay possibly on Monday, 12/1/25 as endorsed by the Evening nurse.

Daily Temps: WNL

**I. Presenting Problem**

Ryan is a 34 year old male presenting with severe alcohol use disorder, other psychoactive substance use disorder severe, stimulant use disorder severe, major depressive disorder, general anxiety disorder and insomnia. Client presents with a high relapse risk due to his history of chronic relapses after multiple treatment attempts. Client has severe alcohol abuse and is relapse prone. He is not to remain sober and quickly return to severe alcohol abuse outside of residential treatment at this time. He relapsed 2 days after last residential treatment that ended 3 weeks ago. He is dealing with prolonged grief from the death of his twin brother to alcohol abuse in August of 2023 and the death of his older brother to drug and alcohol abuse in the same month. Prior to their deaths he had experienced 3 1/2 years of sobriety with full engagement in AA. He knows it is possible for him to be sober and active in recovery but he is unable to get there without being in residential and being monitored and working on his underlying trauma, anxiety, abandonment schema and prolonged grief. He says that he has an inability to sit with himself, chronic anxiety, inferiority complex, constantly seeking relief from rumination and overthinking and severe alcohol and drug use.

**II. SOCIAL AREA****A. Family of Origin****1. Where were you raised and by whom?**

Raised in Menlo Park split time between Mom and Dad. Mom was incapable of being material--she had severe bipolar--and experienced extreme manic episodes during his childhood. She was not capable of being a Mom and was more of a friend. Dad-relationship was up and down and would occasionally explode in angry rage. His current relationship with his Mom is ok and not great with his Dad who is a workaholic, sexaholic, alcoholic, and lives in Newark with his new wife.

**2. Do you have any siblings?**

Name	Age	Grew Up Together? Y/N
Twin sisters Twin brother--deceased due to alcohol Older brother deceased due to drugs and alcohol	37	

**3. How did the family get along / relate to one another?**

Not great--lots of family dysfunction. All siblings were not getting enough attention--they all fought for it--brothers fought the most for attention.

**4. Is there any family history of the following**

Mother                    Substance Abuse , Mental Health Problems

Father                    Substance Abuse , Mental Health Problems

Step-Parent

Siblings                    Substance Abuse , Criminal Involvement , Mental Health Problems

Other

**If YES to any of the above, please elaborate**

Mother abused drugs along with her medications. Father is an alcoholic and narcissistic. Brothers both had severe mental health issues and drug and alcohol issues. Sister tried to commit suicide.

**B. Family of Choice**

**1. Have you ever been or are you currently married?** Yes

**If yes, please describe your relationship with your spouse or ex-spouses**

Got married in August--wife is super supportive

**2. Are you involved in a significant relationship?** No

**3. Do you have any children?**  None

**4. Describe your relationships with your children?**

**5. Is there any history of the following**

**Partner** None

**Past Partner** None

**Children** None

**If YES to any of the above, elaborate**

**6. How has your family members drug/alcohol, mental health, or legal issues effected you?**

Yes my fathers alcoholism, sex addiction and work alcoholism impacted me tremendously. And my brothers alcoholism and drug addiction also affected me deeply.

**ASAM DIMENSION 1 - Acute Intoxication and/or Withdrawal Potential****III. CHEMICAL DEPENDENCY HISTORY & ASSESSMENT****Alcohol**

	Amount/Frequency/Route	Duration of Use	Age of 1st Use	Last Use	Amount used in last 24-48 hours
Alcohol	Fifth of vodka plus 4 - 5 beers daily	3 years	15	last night	fifth of vodka plus 4 - 5 beers daily

**OPIATES**

	Amount/Frequency/Route	Duration of Use	Age of 1st Use	Last Use	Amount used in last 24-48 hours
Fentanyl	NA				
Heroin	NA				
OxyContin	No pattern use, would use if had access to		18	2 years ago	NA
Hydrocodone	No pattern use, would use if had access to		18	2 years ago	NA
Methadone	NA				
Suboxone	NA				

**HALLUCINOGENS**

	Amount/Frequency/Route	Duration of Use	Age of 1st Use	Last Use	Amount used in last 24-48 hours

LSD	No pattern use, tab		17	2 months ago at wedding and throughout honeymoon	NA
Mushrooms	Montly use - large dose 8g - 12g		30	2 months ago at wedding	NA
Ecstasy	No pattern use		17	2 months ago at wedding	NA
Ketamine	NA				

## **DESIGNER DRUGS**

	AGE BEGAN FIRST USE	LAST TIME USED	FREQUENCY of Use	AMOUNT OF USE / PATTERN OF USE	ROUTE
PCP/Angel Dust					
Ecstasy					
Other	Kratem, Kava	last week	2-3 bottles a day	use when sober and leds back to alcohol abuse	

**Cocaine/Stimulants**  None

**Do you want help to quit smoking?**

No

Yes

### **Sedatives/Benzodiazepines**

	Amount/Frequency/Route	Duration of Use	Age of 1st Use	Last Use	Amount used in last 24-48 hours
Valium/Diazepam	Was prescribed, unsure of amount		21	10 years ago	NA
Klonopin/Clonazepam					
Xanax/Alprazolam	1/2 - 1 bar a day- 4 5 days a week		21	2 days ago	half a bar
Ativan/Lorazepam	2mg - 4mg once a week	last couple years	32	1 week ago	NA
Ambien/Lunesta	in the past - unsure of amount			2 years ago	NA
Librium/Chlordiazepoxide	NA				

## **TRANQUILIZERS**

	AGE BEGAN FIRST USE	LAST TIME USED	FREQUENCY of Use	AMOUNT OF USE / PATTERN OF USE	ROUTE
Valium / Ativan					
Librium / Klonopin					
Other					

**OTHER DRUGS NOT MENTIONED LIST BELOW (Including over the counter)**

------------------------	---------------------	----------------	------------------	--------------------------------	-------

## List Drugs of Choice

1. Alcohol Marajuna  
3. Adderall/Vivance/Kratem/Kava

a. What and how long has the Client been using "Drug of Choice" #1?

since age 15

**b. How much have you been using “Drug of Choice” #1?**

**1 fifth of vodka and 5 or 6 beers a day**

c. What is length of time of the last “Run”?

Two weeks of heavy drinking 1 fifth of vodka and 5 or 6 beers for 2 weeks.

**What, when, and how much was the last drug used? (In the past twenty-four hours)**

1/2 fifth of vodka the day before entering treatment

**e. What, when, and how much was the last drug used? (In the past seventy two hours)**

1 fifth of vodka a day, 5-6 drinks, Kratom and Kava drinks

**f. How much have you used in the past 7 days on a daily basis.**

1 fifth of vodka and 5 or 6 beers and 2 Kratem/Kava drinks a day

**3. Age of Onset of drug use (age of 1st Use of any drug)**

15

**4. How have you been supporting your alcohol/drug usage?**

personal money

**ASAM DIMENSION 5 - Relapse and Continued Use Potential**

**IV. TREATMENT/RELAPSE HISTORY**

**1. Have you received Substance Abuse Treatment and/or counseling in the past? Yes**

**\*\*\*Outcome Codes: 1=Successful Completion 2= AMA/APA 3=Discharged / Non-Compliant 4=Other**

If YES, please list treatment history (most recent first)

Date	Provider	Treatment	Duration/Frequency	Outcome
10/15/25	The Camp	Residential	21 days	Left AMA because of medical illness, relapsed 2 days after leaving on Kratem/Kava and then next day heavy alcohol use resumed
9/25/25	The Camp	IOP--virtual	3 weeks--	drank through the IOP
2017	Full Circle	IOP	2 months	Was able to maintain sobriety for 3 1/2 years--was fully engaged in AA and fellowship. Had sponsor and sponsees.

**2. Previous 12 Step or other community support group Involvement**

In 2017 he was fully engaged in AA after successful IOP program. He had a sponsor, worked the steps, went to meetings and had a support network. He also had sponsees.

**3. Describe client's Addiction & Relapse History and the consequences of addiction (include legal, social, emotional, and behavioral)**

Most of his consequences have been with his wife and he is afraid he is going to lose her. He has also does not believe in himself anymore and has terrible self esteem.

**4. Do you believe that your substance use is a problem?**

Yes very much so.

**5. What efforts have you made to control or limit your use?**

Residential treatment, Outpatient therapy, outpatient IOP, AA meetings, having my wife lock up alcohol and drugs in the house

**6. What is your longest Period of Recovery/Abstinence?**

3 1/2 years of recovery in 2017 after a successful IOP and embracing the AA fellowship.

**7. What precipitating events led to previous relapses (i.e. Triggers)**

Becoming isolated, not going to AA meetings, losing touch, thinking I could figure things out on my own, emotional dysregulation.

**V. ASSESSMENT OF OTHER ADDICTIVE OR COMPULSIVE BEHAVIORS**

**History of Other Addictive or Compulsive Behaviors:**

## 1. Eating Disorders

a. Has anyone ever expressed concern to you about your relationship with food, your weight, or your body image?

Yes, my wife has expressed concern about my overexercising.

b. Have you ever received treatment for an Eating Disorder? No

c. Do you believe you have any problems with your relationships with food, your weight, or your body image?

Yes, I binge eat and occasionally purge.

## 2. Spending

a. Has anyone ever expressed concern about your shopping or spending patterns? No

b. Do you feel you have a problem in the area of shopping or your spending patterns? No

## 3. Sexual Behavior

a. Has anyone ever expressed concern about your sexual behavior? No

b. Are you concerned about your sexual behavior? No

## 4. Gambling

a. Has anyone ever expressed concern about your gambling? No

b. Do you believe gambling is an issue for you? No

## 5. Exercise

a. Has anyone ever expressed concern about you over-exercising?

Yes my wife expressed some concern--I used to overexercise to the point of injury. I do not have this issue anymore

b. Do you believe over-exercising is an issue for you? No

6. Are there other addictive or compulsive behaviors (work, caffeine) that the Client has a problem with?

I would like to taper down on my caffeine use.

g. Are there any other addictive disorders that will need to be addressed in this treatment? No

## ASAM DIMENSION 2 - Biomedical Conditions

## VI. MEDICAL HISTORY

1. Name of Primary Care Physician

2. Date last seen

3. History of Medical Problems and/or hospitalizations

Broken bones from mountain biking and surgery.

4. Current Medical Problems

Possible liver issues because of drinking. Would like some testing while in treatment

## 5. Allergies

### No Known Allergies/NKA

#### 6. Does the client have any medical problems as a result of their alcohol/drug use?

Possible liver issues

### ASAM DIMENSION 3 - Emotional, Behavioral, Cognitive Conditions

## VII. MENTAL HEALTH/PSYCHIATRIC HISTORY

#### 1. Have you ever been diagnosed with a mental illness? Denies

#### 2. Previous Psychiatric Hospitalizations, treatment, or therapy

Therapy when he was 8 years old--parents thought he was depressive. In addition to his multiple treatments for substance use disorder he was in therapy for 5 years as an adult.

#### 3. Are you currently being followed by a psychiatrist, therapist and/or other mental health treatment provider?

Denies

### Current Medical and Psychiatric Medications

#### 4. Current Medical Medications

*Medications below include all current active orders logged via Doctor's Orders. These may include medications self-reported by the patient that were logged, medication orders entered at the facility, and medications brought to the facility by the patient ordered to be continued upon admission. If the patient is not being treated in a residential/inpatient setting, this list may not be inclusive of all medications taken by the patient outside of the facility.*

Current as of 12/01/2025 02:06 PM:

Acetaminophen, 500 mg x 2 Tablets , oral, tablet, every 6 hours, until further notice, PRN, indication: Headache or Pain  
clonidine HCl, 0.1 mg x 1 tablet , oral, tablet, 3x a day schedule (TID) PRN, until further notice, PRN, indication: Anxiety  
escitalopram oxalate 20mg , 20 mg x 1 1 , oral, tablet, once a day (AM), until further notice, indication: depression  
 gabapentin, 100 mg x 1-3 capsules , oral, capsule, twice a day, until further notice, PRN, indication: eRx  
 Loperamide (loperamide HCl), 2 mg x 1 Tablet , oral, tablet, every 2 hours, until further notice, PRN, indication:  
Diarrhea/Loose Stool

Multivitamin, multiple vitamins x 1 Tablet , oral, tablet, once a day (AM), until further notice, indication: Supplement  
ondansetron HCl, 4 mg x 1 tablet , oral, tablet, 3x a day schedule (TID) PRN, until further notice, PRN, indication: N/V  
 trazodone (trazodone HCl), 100 mg x 2 tablets , oral, tablet, once a day (HS), until further notice, indication: eRx

#### 5. What other medications have you tried in the past?

	Medication	Dosage	For What Condition
	Lexapro		anxiety/depression
	Trazadone		sleep

#### 6. Do you take your medication as prescribed? Yes

#### 7. Have you ever experienced any cognitive impairment (memory problems, difficulty thinking clearly)?

Yes cognitive fogginess the last couple of years.

#### 8. What current symptoms do you feel need to be addressed while in treatment?

Liver enzymes testing

## VIII. Sexual/Trauma History Assessment

### 1. Sexual History

#### a. What is your current sexual orientation

heterosexual

b. Have you always had this same sexual orientation

No  Yes

## 2. Trauma Assessment

### a. Have you experienced any of the following types of trauma?

Significant death of family member or friend

No  Yes

Witnessing an accident

No  Yes

Domestic Violence

No  Yes

Childhood Trauma

No  Yes

Natural Disaster

No  Yes

Family Violence

No  Yes

Neglectful or scary Caregivers

No  Yes

Any type of physical, sexual, or emotional abuse

No  Yes

Have you ever felt that you were exploited in exchange for using substances?

No  Yes

### b. For any yes above, please elaborate

Twin brother died from alcohol abuse in August of 2022, Older brother also died from alcohol abuse in August of 2022, found Mom after a suicide attempt when he was 8 years old, He was physically and emotionally abused by his older brother. His Dad had rage issues and would occasionally lash out at him emotionally or physically. Mom was totally unregulated and unreliable. He was physically and emotionally abused by an old girlfriend that he met in rehab.

### c. How do the above events impact you?

Lack of self confidence, feeling alone in the world, anger, behavioral problems, lack of concentration, emotional numbing, dissociation, anxiety, depression, loss of faith, emotional dysregulation, suicidal ideation thoughts.

### d. Do you feel any of the above events may interfere with treatment and/or has led to past relapses

## IX. Safety Assessment

### 1. Suicidality Screen and History

#### a. Past suicidal thoughts or attempts?

Has had suicidal ideation every couple of months for the past few years but no plans. He will have dark thoughts about not wanting to be here.

#### b. History of Family or Friend suicide?

He thinks his brother was probably committing suicide when he died. He also saw his Mom attempt suicide.

#### c. Current suicidal thoughts? Denies

#### d. Current or past thoughts or attempts of self-harm?

When he was 14 he used to self harm by cutting himself.

#### e. What successful strategies have you used to curb this behavior

**Therapy**

**f. Protective Factors-Check all that apply**

Family Support , Community Suppor , Religious Beliefs , Positive Therapeutic relationships , Compliant with treatment , Intelligence

**g. Based on the above information, the      Moderate  
client's current risk of suicide is  
considered**

**2. Violence Risk Assessment**

**a.. Have others ever told you they are worried about your anger?**

My wife has told me that she is worried about my anger. I can get angry when I drink.

**b. Current or past violent thoughts or actions? Denies**

**c. Current or past thoughts or attempts of homicide? Denies**

**d. What happens when you get angry with your spouse, family member or significant other?**

I yell and say unkind things, I withdraw and drink

**e. Do you ever frightened your family members, friends or children?**

Probably I have frightened my wife

**f. Have the police ever been called to your house because of your behavior? Denies**

**g. Have you ever been in a relationship with somebody who hurt, threatened, or controlled you?**

Yes, I had a verbally and physically abusive relationship with my old girlfriend.

**X. Cultural Assessment**

**1. Were you raised in any specific culture? Denies**

**2. Do you identify with any specific cultural group? Denies**

**3. Do you currently practice any specific cultural rituals?**

Egocentric selfish American culture

**4. Do you identify with any specific cultural/ethnic issues? Denies**

**XI. LEGAL HISTORY**

**1. Have you ever been arrested?**

DUI when 17

If Yes, list incidents

	Date	Charges	Outcome
2.		Are you currently involved in any ongoing legal proceedings	Denies

**2. Are you currently involved in any ongoing legal proceedings Denies**

**XII. EDUCATIONAL / VOCATIONAL / MILITARY ISSUES**

**1. Educational History**

**a. What is the highest grade completed / degree or certificate obtained?**

BA

**b. How did you perform in school?**

Very good

**c. Are you currently enrolled and attending school? Denies****d. Have you ever been suspended or expelled from school**

expelled in elementary school for throwing rocks

**e. Have you ever attended any special classes or schools or have any learning challenges?**

Yes, attended special education in elementary and again in high school. They said I had a hard time processing information. However I now think it was trauma related. After I got sober I was able to go back to school and performed very well.

**2. Employment History**

**a. Have you ever been employed?**  No  Yes

If yes, list most employment history (most recent first)

Job/Position	Employment Dates	Reasons for Leaving
sales associate	Year and a half	Current

**b. How would you describe your current financial situation**

Stable

**c. How is the client paying for treatment?**

insurance

**3. Military Service**

**a. Have you ever served in the Military?**  No  Yes

If Yes

Branch	Length of Service	Type of Discharge	Benefits Received

**XIII. LEISURE ACTIVITIES****1. List any hobbies, recreational interests, sports, games, or other leisure activities you enjoy.**

Mountain biking, hiking, outdoor activities, meditation

**2. What effect has your substance use or mental illness symptoms had on their leisure time?**

Alcohol has contributed to me not being able to engage in some of my favorite leisure activities.

**ASAM DIMENSION 6 - Recovery/Living Environment****XIV. CURRENT SOCIAL, WORK, AND LIVING ENVIRONMENT****1. Current Social Situation/Environment**

I live at home with my supportive wife and two dogs. I have good support with people I know from the AA fellowship and some folks from the San Jose fellowship.

**2. What changes in your behavior have your family and friends noticed recently?**

Isolating and being irritable and unreliable. I have become verbally unkind when I am drinking.

**3. Are there any drugs, alcohol, or prescription medications left in your home/previous living environment?**

Yes, some alcohol. Need to have a conversation with wife about alcohol in our home.

**5. Do your family and friends know you are in treatment currently?**

**6. Would you like any of your family members and friends to be a part of your treatment here?**

Yes my wife.

**7. Is your family member or friend willing to participate in your treatment?**

Yes, my wife.

**8. What potential challenges to your recovery do you anticipate your friends and/or family members posing?**

wife's family are big drinkers. Getting together with family always involves lots of alcohol. Also wife drinks and that is triggering in early sobriety.

**9. Does your employer or work place know you are in treatment currently?**

No

Yes

**10. What potential challenges to your recovery do you identify with your work environment?**

stress, overworking that is self imposed.

**XV. SPIRITUALITY ASSESSMENT**

**1. Were you raised with any religious or spiritual affiliation? Denies**

**2. Do you currently practice any specific religious denomination or have any significant religious or spiritual beliefs/practices?**

Spirituality through AA

**3. Do you believe in a higher power?**

Yes, I do believe in a Higher power and still pray regularly.

**4. How has your drug of choice caused you to compromise your spiritual or religious beliefs, value system (i.e., values include: honesty, integrity, respect for others, etc.) and/or sense of right or wrong (including stealing, lying, cheating, etc.)**

I have become selfish and I am not myself when I am drinking. I have become angry and unkind which I do not like.

**5. Are you open to considering the role spirituality may play in your recovery?**

No

Yes

**ASAM DIMENSION 4 - Readiness to Change**

**XVI. MOTIVATION FOR TREATMENT**

**1. What is your motivation for treatment at this time?**

I would like to come back to myself and be the man I am meant to be, I want to stand tall again and live in my values.

**2. What are your thoughts and feelings about making changes in your life related to substances**

I feel like I must get back into recovery and deal with my underlying issues to save myself and my marriage

**3. What is your current level of hope for sobriety?**

I have high hopes for sobriety

**4. What are you looking forward to most about sobriety?**

Standing tall, being in fellowship, feeling healthy, being happy and free

**5. What are your goals for your treatment at Reflections?**

Working on underlying issues of alcoholism including Adult Children of Alcoholics, Trauma, Anxiety issues, and methods to stay in long term sobriety.

**XVII. Clinical Impressions**

**A. ASSESSMENT OF MENTAL STATUS DURING INTERVIEW**

**Appearance** Clean/Neat

Affect	Appropriate , Flat
Mood	Sad , Depressed
Behavior	Cooperative
Insight	Fair
Judgment	Mature

## 2. Integrated Diagnostic Summary

Ryan is a 34 year old male presenting with severe alcohol use disorder, other psychoactive substance use disorder severe, stimulant use disorder severe, major depressive disorder, general anxiety disorder and insomnia. Client has severe alcohol and drug use disorder that has been present his entire adult life. Client presents with a high relapse risk due to his history of chronic relapses after multiple treatment attempts. Client has severe alcohol and drug abuse and is relapse prone. He is not able to remain sober and quickly return to severe alcohol abuse outside of residential treatment at this time. He relapsed 2 days after last residential treatment that ended 3 weeks ago. He is dealing with prolonged grief from the death of his twin brother to alcohol abuse in August of 2023 and the death of his older brother to drug and alcohol abuse in the same month. Prior to their deaths he had experienced 3 1/2 years of sobriety with full engagement in AA. He knows it is possible for him to be sober and active in recovery but he is unable to get there without being in residential and being monitored and working on his underlying trauma, anxiety, abandonment schema and prolonged grief. He says that he has an inability to sit with himself, chronic anxiety, inferiority complex, constantly seeking relief from rumination and overthinking and severe alcohol and drug use.

Dimension 3: Emotional, Behavioral, or Cognitive Conditions – Rating: 4 (Severe)

Exploring co-occurring disorders in addition to the alcohol use disorder will be supported through monitoring, clinical assessment and integrated care available in RTC. In addition to working on severe drug and alcohol abuse, client would like to work on his grief, low self esteem, general anxiety, depression, childhood trauma, emotional regulation, and adult child of alcoholic behaviors.

Dimension 4: Readiness to Change – Rating: 2 (Moderate) Ryan demonstrates high motivation to return to abstinence and recovery and to work on causes of his chronic relapse vulnerability including anxiety, depression, suicidal ideation, low self esteem, grief, abandonment issues, and childhood trauma. He has been fearful for his life in recent months and is struggling with his marriage.

Dimension 5: Relapse, Continued Use, or Continued Problem Potential – Rating: 4 (Severe) Ryan has a 20 year history of severe alcohol and drug use, he has attended multiple residential programs and relapsed less than 2 days after leaving the last residential program 3 weeks ago. His risk of continued drinking without residential containment and dual diagnosis assessment and treatment is very high, with severe medical and social consequences.

Dimension 6: Recovery/Living Environment – Rating: 4 (Severe)

Ryan has a strained marriage to a wife of 6 months. It is at a "breaking point" and he does not want to lose his marriage. He believes couples work will be very important to request what he needs for his early recovery including a sober home. In addition, his wife's family drinks and they spend a lot of time with them and that will be something that will need to be addressed in treatment. A residential setting provides a safe, recovery-oriented environment that removes alcohol access, interrupts ingrained patterns, and allows family engagement in treatment planning.

## 3. Rationale for Current Level of Care

Ryan meets criteria for Level 3.5 based on severe relapse potential, possible psychiatric diagnosis that are contributing to relapse including major anxiety and depression, suicidal ideation, prolonged grief due to the recent deaths of his two brothers including a twin brother to drug and alcohol abuse, trauma from childhood abuse from brother and neglect from parents with mental health issues and substance abuse and limited success in less intensive settings. Residential treatment provides the 24-hour structure, medical monitoring, and therapeutic intensity necessary to stabilize his health, address relapse patterns, and support cognitive and behavioral changes.

## 4. Problems Identified in Bio-Psychosocial

- |  |  |
|--|--|
| 1.<br>Alcohol Use Disorder Severe<br>3.<br>General Anxiety Disorder, Prolonged Grief, Depression | 2.<br>Possible PTSD, eating disorder<br>4.<br>ACA issues |

### Fagerstrom Test for Nicotine Dependence

Is smoking "just a habit" or are you addicted? Take this test and find your level of dependence on nicotine.

1. How soon after you wake up do you smoke your first cigarette? After 60 minutes (0)

(After 60 minutes=0; 31- 60 minutes=1; 6- 30 minutes=2; Within 5 minutes=3)

2. Do you find it difficult to refrain from smoking in places where it is forbidden? No (0)

(No=0; Yes=1)

3. Which cigarette would you hate most to give up? The first one in the morning (1)

(The first one in the morning=1; Any other than the first one in the morning=0)

4. How many cigarettes per day do you smoke? 10 or less (0)

(10 or less=0; 11 to 20=1; 21 to 30=2; 31 or more=4)

5. Do you smoke more frequently during the first hours after awakening then during the rest of the day? No (0)

(No=0; Yes=1)

6. Do you smoke even if you are so ill that you are in bed most of the day? No (0)

(No=0; Yes=1)

Total Score: (1)

Your level of dependency on nicotine is:

- Score 1-2: Low dependence    Score 3-4: Low to moderate dependence    Score 5-7: Moderate dependence  
 Score 8+: High dependence

Closing Group (Nightly Reflection)

Individual Assessment/Intervention

Ryan attended the closing group tonight. He went on the outing, and mentioned that he had a positive experience with the other clients. Did not attend a recovery support meeting. Filled out his nightly reflection form, and meditated for the remainder of the group.

Group Description

Clients gather in the foyer to do the closing group. All clients will check in about whether or not they attended a recovery support meeting that evening. Afterwards, all clients will then fill out their nightly reflection form to meditation music playing in the background. After they are finished with their forms, they are encouraged to meditate for the remainder of the group.

Start: 12/01/2025 08:15 AM PST - End: 12/01/2025 08:45 AM PST Duration: 00:30

Topic

Morning meditation

Individual Assessment/Intervention

Client engaged in a 10-minute mindfulness meditation, focusing on breath awareness. The facilitator guided the group to observe thoughts without judgment and return focus to breath. The group concluded with a discussion about setting positive intentions for the day ahead. The client reported sleeping ok with no thoughts or cravings. Client stated his two feeling words are, hopeful and beat up. Client shared his goal for the day was, "Stay positive and not beat myself up".

Group Description

Started the group with a 10-minute guided meditation. The meeting is designed to help us connect with our inner selves and cultivate a sense of peace and awareness as the clients continue their journey towards recovery. The group concluded with a discussion about setting positive intentions for the day ahead.

Topic

**Morning Mindfulness**

---

Individual Assessment/Intervention

The client arrived on time, just showered after working out in the gym earlier this morning. The client appeared anxious. He bounced his leg throughout most of the session. He reported his feelings as accomplished, satisfied and inspired. He reports having no dreams, but reported 5 out of 10 craving level last night. The client believes his craving level increased following his individual session yesterday. He reported no cravings today.

The client's goal for today is to use breathwork and to "reach out to his AA brothers".

---

Group Description

Group is designed to foster a supportive environment where individuals can begin their day with focus, intention and clarity. Session starts with a mindfulness practice tool like meditation, breathing or grounding. Clients have an opportunity to check in with peers and staff using a structured format

Process Group

---

Individual Assessment/Intervention

The client arrived to group on time with an eager, willing demeanor. He reported feeling steadfast, & interested. He report no craving and that he think's he is 90% in the group. He asked for time in process group to share. He shared about having mixed feeling thinking about his wife visiting. He very much expected to feel love, happiness and joy "his two dogs" will also visit. He expressed that he is thinking about the "let down" emotionally when she leaves. He expects he will feel guilt & shame for relapsing and how it has effected their marriage. Peers expressed empathizing with him & offered support before and after the visit with his wife. The client was able to verbalize that guilt and shame keep him in a spiral and that "letting go" allows him to have momentum to move forward in recovery.

---

Group Description

Topic

Surrendering to Recovery

---

Individual Assessment/Intervention

Client was actively engaged in the group discussion and shared that reflecting on his history of substance use has helped him recognize the extent of his powerlessness over his addiction. This increased insight has made the process of surrendering feel more attainable, as he can now see more clearly how his past patterns demonstrated a lack of control.

---

Group Description

This group explored the concept of surrendering to recovery as a foundational step in the healing process. Discussion focused on letting go of the illusion of control over substances, acknowledging the unmanageability created by addiction, and shifting toward openness, willingness, and acceptance. Group members reflected on personal barriers to surrender, the emotional relief that can come from releasing resistance, and how surrender allows space for support, structure, and new coping strategies. Clients discussed how surrender is not a sign of weakness, but rather a commitment to change and a turning point in building a sustainable recovery.

**Morning Mindfulness**

Individual Assessment/Intervention

The client reported difficulty with the pace of the guided meditation. He reported feeling alert, sad & angry. Reports dreaming about his twin who he lost this past year due to addiction.

Group Description

Group is designed to foster a supportive environment where individuals can begin their day with focus, intention and clarity. Session starts with a mindfulness practice tool like meditation, breathing or grounding. Clients have an opportunity to check in with peers and staff using a structured format

Process Group

---

Individual Assessment/Intervention

The client arrived to group and time with an eager open demeanor. He said he has been working of the loss of his twin brother and recognizes that he was eating a lot of sugar and was self-deprecating with his internal dialog. The client spoke "crying uncontrollably" when he brother died and how he then "shutting his grief away" until addressing it in RTC now. He acknowledged the safety of RTC and support from peers and staff.

---

Group Description

Clients were led in a process group to facilitate self-expression, thought processing, personal growth and peer connection. The purpose is to explore thoughts, feelings and behaviors in a safe and supportive environment, which can enhance their recovery journey and assist with learning positive communication tools.

Closing Group (Nightly Reflections)

Individual Assessment/Intervention

Ryan attended the closing group. He attended the in-house speaker meeting, and mentioned that he had a good experience. Filled out his nightly reflection form, and meditated for the remainder of the closing group.

Group Description

Client gather in the foyer to do the closing group. They will check in about their experience at their recovery support meeting they went to that evening. Afterwards, all of the clients will then fill out their nightly reflection forms to meditation music playing in the background. If they are finished with their forms before the group ends, they are encouraged to meditate for the remainder of the group.

Coin Ceremony

Individual Assessment/Intervention

Client attended coin ceremony and shared positive reflections of his time with Ryan.

Group Description

Clients participated in the group activity by sharing a gift, a hope or wish, and a challenge for the peer who has completed the treatment program and is transitioning into the next phase of recovery. Group members offered supportive reflections, acknowledging the client's progress and expressing encouragement for continued growth. They also shared meaningful insights and challenges intended to motivate the client to remain committed to their recovery plan and utilize the tools and support networks developed during treatment.

**PAWS - Post Acute Withdrawal Syndrom**

Individual Assessment/Intervention

Client attended group and participated in the discussion. He shared his understanding of relapse and expressed that, for him, relapse is strongly associated with pain.

Group Description

This group provided education and discussion on Post-Acute Withdrawal Syndrome (PAWS), focusing on the emotional, cognitive, and physical symptoms that may persist after the initial withdrawal phase. Clients explored how PAWS can impact mood, sleep, concentration, and stress tolerance, and how these symptoms can increase vulnerability to relapse if unrecognized or unmanaged. The group discussed strategies for coping with PAWS, including structure, self-care, grounding skills, support meetings, and communication with the treatment team. Clients were encouraged to normalize their experiences, share symptoms they relate to, and identify practical tools to support stability during early recovery.

Topic

End of Week Reflection

---

Individual Assessment/Intervention

2 ideas/skilled learned

Allow his peers to encourage vulnerability when they feel he is holding back. PAWS

Self-Care activities this weekend

Workout, meditation, hot tub and attend stag dinner.

Something positive from the week

Learned more about processing grief and ways to manage it. Looking forward to envisioning what his transitioning upon treatment will look like, including building a new routine.

---

Group Description

Reflection of the past week reviewing 2 skills learned this week, self-care activities for the weekend, some good news or something positive that happened and one validation of one of their peers.

Topic

Process Group

---

Individual Assessment/Intervention

The client was on time and present with an open demeanor. He presented feeling open and hopeful. He described feeling his mood shift over the last few days, experiencing feelings of loss, resentment and frustration. The client needed therapist prompting to share more about his anger, expectations and disappointment with his father. The client's emotions were congruent with the events and thoughts that arose. The client reported feeling less anxious by expressing himself in the group. Therapist noted that his anxiety, constant leg bouncing has decreased with his expression of his authentic feelings, thoughts and being open to continue processing in individual therapy and process group.

---

Group Description

Clients were led in a process group to facilitate self-expression, thought processing, personal growth and peer connection. The purpose is to explore thoughts, feelings and behaviors in a safe and supportive environment, which can enhance their recovery journey and assist with learning positive communication tools.

**Process Group -& Graduation**

---

Individual Assessment/Intervention

The client arrived on time and appeared anxious (leg bounding and occasionally ringing his hand)s. He reported feeling fulfilled, curious and powerful. He gave supportive feedback to his peers. He reports feeling 80% present in the group.

---

Group Description

This beginning of this group is dedicated to honoring and acknowledging the persistence, resilience, and achievements of our clients as they reach this important milestone in their recovery journey. Together, we celebrate their hard work, perseverance, and commitment to a healthier, brighter future. Each group member shares the impact that the graduation client has on them and practices healthy closure as modeled by group leader. Clients were then led in a process group to facilitate self-expression, thought processing, personal growth and peer connection. The purpose is to explore thoughts, feelings and behaviors in a safe and supportive environment, which can enhance their recovery journey and assist with learning positive communication tools.

Topic

End of Week Reflection

---

Individual Assessment/Intervention

2 Ideas/Skills Learned: Matching colors to moods / feelings. Urge surfing. Client found both techniques are of interest and will begin practicing as new coping skills.

Weekend Self-Care: Relax, hot tub, meditate, massage and participate in Sunday outing.

Something Positive: Participating in Family Day and implementing more positive healthier habits.

Validation: Both his peers for attending and participating in Family Day.

---

Group Description

Reflection of the past week reviewing 2 skills learned this week, self-care activities for the weekend, some good news or something positive that happened and one validation of one of their peers.

Topic

Emotional Intelligence in Recovery

Individual Assessment/Intervention

Client was present for group and participated in the discussion, sharing that he experiences significant difficulty with self-regulation, particularly in managing anger. He demonstrated insight into how this emotional challenge impacts his recovery and identified it as an area he hopes to continue improving.

---

Group Description

This group focused on understanding emotional intelligence (EI) and its importance in maintaining long-term recovery.

Clients explored the five core components of EI—self-awareness, self-regulation, motivation, empathy, and social skills—and discussed how addiction can impair emotional functioning.

Closing Group (Nightly Reflection)

Individual Assessment/Intervention

Ryan attended the closing group. He went to the Monday Miracles AA meeting tonight, and mentioned that it was not as crowded compared to the previous weeks. Filled out his nightly reflection form, and he meditated for the remainder of the time.

Group Description

Clients gathered in the foyer to do the closing group. Clients will check in about whether or not they attended an outside recovery support meeting. If not, they will check in about their evening. Afterwards, all of the clients will then fill out their nightly reflection forms to meditation music playing in the background. If they are finished with their forms before the end of the group, they are encouraged to meditate for the remainder of the time.

Self-Sabotage

---

Individual Assessment/Intervention

Client was present and actively participated in the group discussion, sharing that emotional discomfort is a significant factor contributing to his self-sabotaging behaviors.

---

Group Description

This group focused on exploring the concept of self-sabotage and how it commonly appears in addiction and early recovery. Clients discussed the thoughts, emotions, and behaviors that undermine their progress, as well as the underlying fear, shame, and avoidance that often drive these patterns. Group members identified their personal self-sabotaging behaviors, examined how these actions can increase relapse risk, and learned practical strategies to interrupt the cycle, including emotional regulation skills, cognitive reframing, and seeking support.

Individual Assessment/Intervention

The client was late to group. He did not join the meditation, but was using his cell phone when others were meditating. The client reported feeling happy, excited and strong. He had no cravaings or using related dreams to report. His goal for today is to confirm an IOP.

---

Group Description

Group is designed to foster a supportive environment where individuals can begin their day with focus, intention and clarity. Session starts with a mindfulness practice tool like meditation, breathing or grounding. Clients have an opportunity to check in with peers and staff using a structured format

### Group Sessions

**Wednesday, Dec 31, 2025**

**Res Process Group 11:00 AM PST by Sharon Johnson, LCSW**

Patient Status: Attended

Start: 12/31/2025 11:00 AM PST - End: 12/31/2025 12:15 PM PST Duration: 01:15

---

Topic

Graduation - Check in

---

Individual Assessment/Intervention

The client provided positive feedback to his peer who is discharging and accepting feedback from his peers. The consistant feedback he received is to continue to prioritize himself rather then slipping back into reacting to his wifes wants/needs.

---

Group Description

Coins presented to two clients followed by a brief check in group. This special group is dedicated to honoring and acknowledging the dedication, resilience, and achievements of our clients as they reach this important milestone in their recovery journey. Together, we celebrate their hard work, perseverance, and commitment to a healthier, brighter future. Each group member shares the impact that the graduation client has on them and practices healthy closure as modeled by group leader.

### Type of Session

MSE

Appearance:

Oriented To:

Speech:

Thought process:

Mood:

Affect:

Judgement:

Dangerousness:

Information/Behavior:

Client expresses confidence in their recovery and identifies a need for sober community support. They plan to attend peer support meetings and obtain a sponsor. Client reports their spouse is supportive and has removed substances from the home, including alcohol and prescription medications which client previously misused. Client describes a history of polysubstance use and reports that alcohol use eventually increased their anxiety. They endorse a history of anxious energy, managed with meditation and exercise, and deny current suicidal ideation.

Interventions:

Client explores the importance of community and connection in their recovery journey.

Behavioral modification interventions: Therapist supported client's plan to engage with recovery-focused groups and build a sober support network.

Motivational / values-based interventions: Therapist provided resources for meditation centers to help client find community and deepen their practice.

Client identifies their patterns of addiction and relapse triggers.

Cognitive interventions: Therapist educated client on the concept of relapse as a "series of small permissions" to increase awareness of cognitive distortions.

Behavioral modification interventions: Therapist explained the necessity of replacing substance use behaviors with healthy alternatives to prevent relapse.

Client discusses strategies for managing their environment and relationships to support sobriety.

Behavioral modification interventions: Therapist reinforced client's strategies for creating a sober home environment, such as removing alcohol and securing medications.

Affective interventions: Therapist normalized the discomfort of early recovery, explaining that one must "experience hurting worse for a little bit before it gets better."

Response:

Client presents with significant insight into their polysubstance and behavioral addictions, identifying a pattern of using external solutions for internal distress. Strengths include high motivation for recovery, self-awareness, and proactive planning. The client has secured spousal support for a safe home environment. Identified challenges include social triggers

from extended family and managing internal states of anxiety. Client reports utilizing positive coping strategies and cessation of recent suicidal ideation, indicating improved stability.

**Plan:**

**Plan**

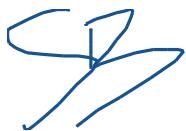

Continue to explore addiction as a disease, reinforcing the need for replacement behaviors.

Provided client with resources for local meditation centers to manage anxiety.

Client will research meditation resources and consider attending a meeting or retreat.

Continue individual sessions as scheduled.

Session Start/End Time	Start time	End time	Duration
	12/31/2025 02:00 PM	12/31/2025 03:00 PM	1 Hours
Type of Session	Conjoint		

**MSE**

Appearance: well groomed

Oriented To: All Spheres-personal, place, time, and situation

Speech: normal

Thought process: Appropriate

Mood: Anxious

Affect: Appropriate

Judgement: Fair

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

S-Client and wife met for a conjoint couples' session. Client was able to describe to his wife what he is learning and what is becoming important to him. He realizes that he needs to work a strong program so that he can be fully present in his marriage. Wife was tearful and emotionally dysregulated at times. She explained that she has felt rejected for a very long time with the drinking and that her husband was not available to her. Client was able to take responsibility for that behavior and was able to commit to being more aware of her and her needs while at the same time prioritizing his recovery.

**Interventions:**

Therapist reflected and asked questions for couple to hear from each other a deeper level of experience of feeling rather than just the narrative. Therapist gave a tool of doing time outs for when things get too emotional, and a process for reconnecting. We discussed having a backlog of feelings and that their experiences are very different from this time. Therapist gave wife some psychoeducation about addiction and the progressive nature of the disease.

**Response:**

Client was able to hear his wife and also ask what she needs from him as he returns home. Wife was able to hear about what her husband needs in early sobriety so that he can remain sober and connected to others in the program.

**Plan:**

Client will be discharging tomorrow. He has an individual therapist, IOP, relapse prevention group and will plan to attend AA daily.

	12/30/2025 01:00 PM	12/30/2025 02:00 PM	60 Minutes
Type of Session	Individual		

**MSE**

Appearance: casual appearance

Oriented To: All Spheres-personal, place, time, and situation

Speech: normal

Thought process: Appropriate

Mood: Euthymic

Affect: Appropriate

Judgement: Good

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

Client presents as open, cooperative, and engaged, maintaining good eye contact and speaking at a normal rate and volume. Their mood appears optimistic and hopeful. Client is forthcoming about their struggles with binge eating and nicotine use, demonstrating a high level of self-awareness. They initiate the session by stating, "I've had a couple nights recently that I was doing some binge eating."

**Interventions:**

Therapist provided psychoeducation on the physiological aspects of binge eating, including the 20-minute delay for satiety signals. Therapist introduced coping skills, such as delayed gratification, and taught mindful eating techniques. The parallels between binge eating and substance use were explored. Therapist validated client's feelings and reframed the pursuit of pleasure to support sustainable recovery, which client received well.

**Response:**

Client responded positively to the interventions, actively participating in the discussion.

Client demonstrated a clear understanding of delayed gratification and mindful eating concepts.

Client connected the therapist's explanation of addiction patterns to their own experience.

Client expressed optimism and hope, noting a genuine state of surrender.

Client confirmed taking concrete steps, including starting couples therapy and planning nicotine reduction.

**Plan:**

Will practice delayed gratification by waiting 10-20 minutes before having dessert.

Will implement mindful eating techniques to increase awareness of satiety signals.

Will begin using nicotine patches to gradually reduce dependence on nicotine pouches.

Will attend couples counseling with their spouse to establish healthy boundaries.

Thought process: Appropriate

Mood: Anxious

Affect: Appropriate

Judgement: Fair

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

S-Client is feeling good and feeling happy. He has not felt this good in a long time. He is happy to be here in treatment over the holidays. He has accepted that he cannot drink and that he wants to build a healthy life that does not include alcohol. He realizes that he can have a hard time setting limits with his family and particularly his wife. Doing this will be necessary in recovery. He is aware that he can feel shame for his past and also his work situation in comparison with his wife's.

**Interventions:**

Reflective listening, pointing out critical thoughts and suggesting alternatives, discussing all or nothing thinking, discussing esteemable acts as a way of building self esteem.

**Response:**

Client is anxious but less so. He is very agreeable to suggestions and is also displaying internal motivation to stay sober and build a life worth living.

**Plan:**

Client will continue to work on his codependency issues with his wife, his grief around his twin, his coping skills, his negative self talk and his anxiety. Therapist will meet with client and wife next week for a couple's session.

Affect: Appropriate

Judgement: Fair

Dangerousness:

**Information/Behavior:**

Client participated in an individual counseling session focused on treatment progress, continuing care planning, and the beginning review of Week 4 of the Relapse Prevention Workbook. Client reported feeling more balanced and shared that he has been actively developing a healthy daily routine that includes exercise, meditation, attending support meetings, and checking in regularly with his support network.

Client continues to work toward securing a sponsor as one of his goals before completing treatment and is still evaluating which IOP program he will attend. He has also been refining his post-treatment meeting schedule to maintain consistency and accountability.

The session included review of Week 4, with discussion of the client's current support network, his ongoing communication practices, and the ten daily guidelines he created to help keep recovery at the forefront of his life. Client demonstrated insight into the importance of structure, connection, and daily recovery practices in sustaining long-term sobriety.

**Interventions:**

Motivational Interviewing (MI) techniques were used to explore the client's progress, reinforce commitment to continuing care, and strengthen motivation around securing a sponsor and finalizing an IOP choice. Psychoeducation was provided on developing effective daily routines and the importance of consistent support network engagement. Relapse Prevention interventions supported review of Week 4 material, including support systems, communication habits, and personalized daily recovery guidelines. Cognitive Behavioral Therapy (CBT) strategies were incorporated to help the client evaluate how structured behaviors and thought patterns contribute to emotional stability and reduce relapse risk. Treatment planning interventions focused on refining the client's post-treatment meeting schedule and recovery practices.

**Response:**

Client was engaged and reflective throughout the session, demonstrating meaningful progress in establishing a structured, recovery-focused routine. He expressed increased emotional balance and appeared motivated to maintain the habits he has developed, including exercise, meditation, and regular connection with his support network. Client showed insight into the importance of securing a sponsor and continuing care, and he is actively exploring IOP options. He was receptive to feedback and participated thoughtfully in reviewing Week 4 material, including his daily guidelines and communication practices. Overall, client appears to be building strong momentum as he prepares for transition out of treatment.

**Plan:**

Client will continue working through Week 4 of the Relapse Prevention Workbook, focusing on strengthening his support network, reinforcing daily recovery practices and his recovery story.

Client will finalize his decision on an IOP program and continue efforts to identify a temporary or permanent sponsor prior to discharge. Client will refine and follow his structured daily routine, including exercise, meditation, and scheduled support meetings, to promote emotional balance and stability.

Ongoing counseling sessions will support accountability, review progress with his 10 daily recovery guidelines, and reinforce relapse-prevention strategies as he prepares for transition out of treatment.

**Information/Behavior:**

S-Client is tired, he has been having a hard time sleeping. He spoke about family session and that it was a good session for he and his wife. He had a lot of anxiety around it. His wife mentioned that during the session that his wife mentioned him drifting away, nasty things that he said to her and that she could not count on him. Last night he binged but was able to stop and relax. He then talked about his twin and how there is a huge hole of emptiness since he has been gone. He was the closest one in his family and now it feels like he is drifting away and there is loss.

**Interventions:**

Reflection, Psychoeducation about sleep, Motivational Interviewing, CBT reframes on self criticism.

**Response:**

Client is open to working on his thought patterns and how he feels in response. He is also going to work on writing out some grief exercises around his twin.

**Plan:**

Label feelings, write out grief exercises, participate in groups, call fellows in AA

**Information/Behavior:**

Client participated in an individual counseling session focused on treatment progress and continued review of Week 3 of the Relapse Prevention Workbook. Discussion included exploration of IOP options for continuing care and the client's ongoing efforts to identify a temporary or permanent sponsor prior to discharge.

Reviewed client's Top 5 Triggers and examined coping strategies for both avoidable and unavoidable situations. Session also focused on establishing healthy boundaries for external triggers and developing effective coping strategies for internal triggers such as anger, sadness, stress, and feeling overwhelmed.

Client engaged in discussion on recognizing the difference between what is within his control and what is not, and reflected on how this awareness influences emotional regulation, decision-making, and relapse prevention. The client demonstrated insight into how strengthening these skills supports long-term recovery.

**Interventions:**

Motivational Interviewing (MI) techniques were used to explore the client's engagement in continuing care planning and efforts toward securing a sponsor. Relapse Prevention interventions supported identification of Top 5 Triggers and development of corresponding coping strategies for both avoidable and unavoidable situations. Cognitive Behavioral Therapy (CBT) strategies were applied to examine emotional triggers—anger, sadness, stress, and overwhelm—and to develop healthier responses. Psychoeducation was provided on boundary setting and the Circle of Control to enhance the client's ability to differentiate between controllable and uncontrollable factors. Treatment planning interventions reinforced the importance of structured support and accountability post-treatment.

**Response:**

Client was engaged and thoughtful throughout the session. He demonstrated increasing insight into his internal and external triggers and actively participated in developing realistic coping strategies. Client expressed motivation to strengthen his recovery foundation by exploring IOP options and continuing his search for a sponsor. He was receptive to feedback on boundary setting and the Circle of Control and showed an understanding of how these skills support emotional regulation and relapse prevention. Overall, client appears committed to preparing for a successful transition out of treatment.

**Plan:**

Client will continue working through the Relapse Prevention workbook, Week 4.

Counselor will support client in evaluating IOP options and finalizing a choice for continuing care.

Client will continue efforts to secure a temporary or permanent sponsor to strengthen accountability post-treatment.

Client will continue to participate in treatment programming, including attendance in scheduled groups, individual therapy and counseling sessions.

**Information/Behavior:**

Client participated in an individual counseling session that began with a check-in before continuing into the review of Week 3 of the Relapse Prevention Workbook. Client reported ongoing efforts to build healthier habits and shared that he is actively working on finding a temporary sponsor while reaching out more consistently to strengthen his support network. He continues to develop a recovery-focused daily routine and is exploring the right balance of support meetings to maintain structure and accountability.

Session discussions included reviewing the Pro's and Con's of using versus refraining from use, as well as exploring both internal and external coping strategies. Client identified activities and positive affirmations that can support emotional regulation and relapse prevention. He demonstrated engagement and growing insight into the behaviors and supports needed for long-term sobriety.

**Interventions:**

Motivational Interviewing (MI) techniques were used to explore the client's progress in building healthier habits, engaging with support systems, and clarifying his motivations for sobriety. Cognitive Behavioral Therapy (CBT) interventions supported examination of Pro's and Con's of use versus abstinence, identification of internal and external coping strategies, and development of positive affirmations. Relapse Prevention techniques reinforced the importance of structure, daily routines, and expanding the client's support network, including sponsorship. Guided reflection helped the client connect his behaviors to long-term recovery goals.

**Response:**

Client was engaged, reflective, and motivated throughout the session. He demonstrated increasing insight into the importance of structure, community support, and intentional habit-building in sustaining his recovery. Client showed willingness to continue exploring sponsorship, strengthening his support network, and refining a daily routine that aligns with his recovery goals. He appeared receptive to feedback and open to practicing coping strategies and positive affirmations to manage cravings and emotional triggers.

**Plan:**

Client will continue to participate in treatment program attending all scheduled groups, individual therapy and counseling sessions.

Client will continue progressing through Week 3 of the Relapse Prevention Workbook, with emphasis top 5 triggers, circle of control and urge surfing.

Counseling sessions will focus on supporting the client in establishing a temporary sponsor, expanding his sober support network, and developing a consistent, recovery-focused daily routine.

Client to continue working with Darren on Continuing Care to include potential IOP, therapy/psychiatry and possibly working with a sober coach.

Client will be encouraged to explore a balanced schedule of support meetings and incorporate activities and affirmations that reinforce emotional regulation.

Ongoing sessions will monitor progress, reinforce relapse-prevention skills, and prepare the client for continued success post-treatment.

**Information/Behavior:**

Client was late for session. He said that he is sleep deprived--woke up at 3:30am and could not go back to sleep. He feels ok but tired. He is thinking about family program and also his wife's reaction--which can be catastrophic and emotional. He is feeling protective and anxious. He also discussed the critical voices in his head--Not where I should be, Can I do this?, Can I make enough \$ He continues to show addictive behaviors around food in treatment and is fearful that these impulses will be there with alcohol when he is not in a controlled setting.

**Interventions:**

Reflection, Motivational Interviewing, Behavioral Activation, Journaling exercise, Relapse prevention, Codependency psychoeducation

**Response:**

Client is responsive to discussions about setting healthy boundaries with home environment around substances. He seems to be hesitant about holding firm on his boundaries and conflicted about getting home to his new wife and protecting his sobriety.

**Plan:**

Client is going to participate in family day with his wife tomorrow, He is going to do exercises in grief workbook involving drawing a picture of his twin brother who died, and also do the exercise about his regrets about him.

Thought process: Appropriate

Mood: Angry , Anxious

Affect: Appropriate

Judgement: Fair

Dangerousness: No HI or Aggression Risk

**Information/Behavior:**

S-Client was on time. He said that he had some anger come up in process group around his Dad. His Dad had said he was going to show up for him after his twin died but then did the same thing and got involved with another younger woman and neglected his children. He talked about how his wife became controlling around his drinking and was breathilizing him and also that she was a heavy drinker who also binge eats and purges. He went over his schemas from relationship inventory: 100% perfectionism, 93% self sacrifice, 93% failure, 80% dependence, 80% emotional deprivation, 80% subjugation, 80% social alienation, 80% abandonment, 67% mistrust, 67% defectiveness, 57% entitlement

In treatment he would like to:

forgive myself, deal with trauma and grief, learn coping skills, learn better habits and routines

strengths: strong willed, love of spouse, intelligent, resilient, confidence, articulate, meditate, cares for others  
 Needs: Support network, work on impulsivity Interested in individual, couples, aftercare and medications

**Interventions:**

Reflection, Motivational interviewing, Attachment work, Codependency and healthy boundaries, working on grief with brother

**Response:**

Client is opening up to his struggles with his inner critic and his struggles with setting healthy boundaries with his new wife.

**Plan:**

Client will work on grief workbook and write a picture of his brother and also work on his regrets and grievances

**Information/Behavior:**

Client participated in an individual counseling session reviewing Week 2 of the Relapse Prevention Workbook, with a focus on his identified internal triggers. Client discussed ongoing difficulties managing a range of emotions—including depression, anger, feeling overwhelmed, loneliness, anxiety, and grief—and acknowledged how these emotional states increase his vulnerability to relapse. Session emphasized that an important part of the recovery process is learning to find balance between personal responsibilities and self-care, while understanding that prioritizing recovery must remain central to maintaining stability. Client also reviewed his identified High-Risk Situations, demonstrating growing awareness of the environments and circumstances that elevate relapse risk.

**Interventions:**

Motivational Interviewing (MI) was used to explore the client's emotional triggers and enhance motivation for prioritizing self-care and recovery behaviors. Cognitive Behavioral Therapy (CBT) interventions supported identification of internal triggers such as depression, anger, overwhelm, loneliness, anxiety, and grief, and helped the client understand how these emotions influence thoughts and behaviors. Relapse Prevention techniques were applied to review and clarify the client's High-Risk Situations, increasing awareness of vulnerability and strengthening coping planning. Psychoeducation was provided on the importance of balance in recovery, emphasizing prioritization of personal well-being and structured self-care practices.

**Response:**

Client was open and engaged throughout the session, demonstrating increasing awareness of how his emotional experiences impact his recovery. He expressed willingness to explore healthier ways of managing depression, anger, overwhelm, loneliness, anxiety, and grief. Client showed insight into the need to prioritize self-care and maintain balance as part of sustaining long-term sobriety. He also demonstrated growing recognition of his High-Risk Situations and appeared motivated to continue developing coping strategies to manage these challenges effectively.

**Plan:**

Client to continue participating in treatment programming including scheduled groups, individual counseling and therapy sessions.

Client will continue working through the Relapse Prevention Workbook.

Future sessions will incorporate CBT-based emotional regulation skills, grounding techniques, and distress-tolerance interventions to strengthen his ability to manage these states without turning to substances.

Treatment will reinforce the importance of prioritizing self-care and establishing daily routines that support emotional stability and recovery.

Ongoing counseling will monitor progress, encourage consistent engagement in support meetings, and prepare the client to maintain balance and resilience as he continues through treatment.

Judgement: Fair

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

S-Client said he is feeling optimistic and energized. He talked about needing to talk with his wife about not having alcohol in the house. He is triggered when she hides it and drinks and then thinks she cannot smell it on her. He also talked about good memories of his brother. There was a brief time when he was applauding his wins, being supportive over the phone, and bashing their Dad. He remembers a month before he died going to Tahoe and taking a hike with his brother and dog. He liked skiing, hunting, partying with him. He was smart charismatic, liked talking to people and he was strong minded. He would like to continue forward a strong work ethic, making people feel good. He also reporting feeling a lot of guilt about the last 3 years.

**Interventions:**

We reviewed the positive memories client has about his brother who abused him to fill out the picture so that it is not all or nothing. We discussed the difference between guilt and shame.

**Response:**

He was responsive and tearful speaking about his brother and his complicated feelings about him. He also would like to work at being a better person rather than collapsing into shame.

**Plan:**

Client will continue to bring up memories of his twin brother each day, open up to the group how he is feeling and connect with other men in AA and in treatment.

**Information/Behavior:**

Client participated in an individual counseling session in which he completed the review of Week 1 of the Relapse Prevention Workbook and began the review of Week 2. Discussion focused on the role of guilt in addiction and the importance of self-forgiveness as a means of releasing past actions tied to substance use. Client shared his Goodbye Letter to his drug of choice and expressed that the exercise provided a sense of closure, relief, and increased readiness to surrender to recovery and move forward.

The session also included discussion of the client's goals for treatment, including strengthening fellowship within the recovery community, developing new coping skills, and establishing a solid aftercare plan. As part of beginning Week 2, client reviewed and discussed his identified external triggers, demonstrating increasing awareness of environmental and situational factors that influence relapse risk. Client was engaged and reflective throughout the session, showing motivation to deepen his recovery work.

**Interventions:**

Motivational Interviewing (MI) was used to explore the client's readiness to change, reinforce commitment to recovery, and strengthen insight into treatment goals. Cognitive Behavioral Therapy (CBT) interventions supported examination of guilt, self-forgiveness, and the emotional impact of past substance use. A therapeutic writing intervention—the Goodbye Letter—was incorporated to promote emotional processing and facilitate closure. Psychoeducation from the Relapse Prevention Workbook guided discussion of external triggers and their role in relapse. Treatment planning interventions were used to clarify goals related to community connection, coping skill development, and aftercare preparation.

**Response:**

Client was engaged and reflective throughout the session. He demonstrated meaningful insight into the emotional impact of guilt and expressed a growing ability to practice self-forgiveness. His completion and sharing of the Goodbye Letter indicated emotional readiness and increased commitment to surrendering to the recovery process. Client articulated clear goals for treatment and showed openness to building supportive connections, strengthening coping skills, and preparing for aftercare. He appeared motivated and receptive to exploring external triggers and their influence on his recovery journey.

**Plan:**

Client will continue progressing through the Relapse Prevention Workbook, moving forward with Week 2 material focused on identifying internal and external triggers, developing coping skills, and understanding relapse patterns.

Ongoing individual counseling sessions will support the client in deepening self-forgiveness, reducing guilt-based thinking, and strengthening emotional regulation skills through CBT- and DBT-informed interventions.

Treatment will emphasize building fellowship and accountability within the recovery community, encouraging the client to remain active in support groups and begin identifying resources for aftercare.

Client will work on developing a structured recovery plan that includes consistent meeting attendance, healthy routines, and a personalized coping strategy for triggers.

Progress will be reviewed regularly to ensure readiness for transition to continuing care and sustained sobriety.

Mood: Sad , Depressed , Anxious

Affect: Appropriate

Judgement: Fair

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

S-Client woke up full of angst. He is feeling agitated. He did what he knew how to do--meditated, prayed, called 5 alcoholics. He is feeling a lot of anger and guilt at himself. He is realizing how much he has let go during his time of drinking. He felt numb this morning and did not feel like sharing. Last night he had a bender of binge eating. He explained that binge eating at night is a big issue for him and that it is a major way he comforts himself. His Dad and brother did it as well growing up. He also occassionally purges after binging but usually when drinking. His wife also did it and they would do it togeher which normalized it for him. The last time he purged was 2 weeks ago. We discussed what he would be willing to commit to. He has a lot of self critical thoughts after binging. He also mentioned that his wife read Codependent No More and was feeling very distant which was hard for him.

**Interventions:**

We assessed his binge eating and purging. We made a plan for after dinner and he made a commitment to not eat sugar after dinner. We talked about homework and making a commitment and then reporting back whatever happens so we can learn from it.

Therapist also gave client the BPI depression and BPI anxiety inventories to take. We also discussed processing the grief with his brother and spending 5-10 min a day processing.

**Response:**

Client is feeling agitated but likes having a plan and addressing his behaviors that cause him self loathing. He is also aware that when he feels numb and he starts to close off.

**Plan:**

Client will do homework around eating, Clinet will take Depression and Anxiety inventories, Client will work on 5-10 min of thinking about his brother.

Affect: Flat

Judgement: Fair

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

S-Client says yesterday he was full of angst. He did all of the things he knows how to do--meditate, pray, called alcoholics. Nothing seemed to help. He had a lot of guilt and anger at self. All the pain and chaos he has caused and he has not taken care of himself physically--going to dentist and getting his leg evaluated. He felt numb and did not want to share. He had a binge eating episode and then felt self loathing. He has not purged since he has been in treatment but did about 2 weeks about and purged every 2 weeks over the last year when he was drinking. He said that he and his wife would sometimes purge together which normalized the behavior for him. He also mentioned that his wife mentioned Codependency No More and it made him feel anxious and her feel distant. He is feeling fear about the relationship.

**Interventions:**

Reflection, Psychoeducation, Assessment, mutually agreed upon homework around limiting sugar after dinner.

**Response:**

Client was relieved to talk about things that he has been keeping a secret and that he feels a lot of shame about.

**Plan:**

Client will pay attention to when food feels compulsive and when he is eating emotionally vs. being hungry. Client will limit his sugar intake after dinner and pay attention to his negative thoughts. Client will continue to open up to the group about how he is feeling and connect with other men in AA and in treatment.

Mood: Sad , Depressed

Affect: Appropriate , Flat

Judgement: Fair

Dangerousness: No SI Risk , No HI or Aggression Risk

**Information/Behavior:**

S-Client is still adapting to his new environment--he has had some cravings when he thinks about the death of his brother. He was able to speak more about his brother and their very complicated relationship. He has many different emotions around his brother as they had a difficult and emotional relationship. He was able to identify love, anger, fear, hate, longing, and admiration. His family is very dysfunctional and there are a lot of emotional cut offs. He is very angry with his Dad who abandoned the family and has an active sex addiction. He is emotionally dependent on his wife and he wants to make the marriage work--he is scared that he is going to ruin it with alcohol.

**Interventions:**

Motivational interviewing, attachment work, internal family systems, adult children of alcoholics, and reflecting.

**Response:**

Client seems relieved to be talking about things that have been repressed for the last two years. He would like to process the death of his twin brother and feel a little more emotional regulation.

**Plan:**

Therapist and client will work on emotional regulation skills, distress tolerance, feelings identification and creating a treatment plan

**Information/Behavior:**

Client participated in an individual counseling session that began with a check-in and the start of reviewing Week 1 of the Relapse Prevention Workbook. Client discussed his current meditation practice and expressed interest in attending a Dharma Recovery group as part of building mindful coping strategies and community support. Client reported experiencing cravings and was able to reflect on how he successfully managed them while in treatment, as well as how differently he may have responded if he were not in a structured environment.

During the review of Week 1, the Am I an Addict? (DSM-V) exercise indicated a Severe classification, which helped frame discussion around the importance of surrendering to the recovery process. Client identified fears related to managing emotional highs and lows without relying on substances. The session also explored shame in addiction recovery, particularly the shame client holds about the harm and "wreckage" caused by his substance use. Discussion included the benefits of maintaining a daily routine, with client acknowledging that structure has been helpful for his recovery in the past and remains essential moving forward.

**Interventions:**

Motivational Interviewing (MI) techniques were used to explore the client's motivation for recovery, interest in meditation and Dharma meetings, and his reflections on cravings. Cognitive Behavioral Therapy (CBT) interventions supported examination of emotional triggers, shame-based thoughts, and the client's fears about managing emotions without substances. Psychoeducation was provided on the DSM-V criteria for addiction severity, the concept of surrender in recovery, and the role of routine and structure in relapse prevention. Relapse Prevention strategies were applied to help the client reflect on coping skills used during cravings and to compare his responses inside versus outside a treatment environment.

**Response:**

Client was open, reflective, and engaged throughout the session. He demonstrated growing insight into his addiction severity, emotional triggers, and the importance of surrendering to the recovery process. Client articulated both fear and awareness around managing emotional highs and lows without substances and showed willingness to explore healthier coping tools. He expressed motivation to deepen his recovery practices through meditation and potential involvement in Dharma Recovery. Client responded well to discussions around shame and acknowledged the benefits of routine in

supporting his sobriety.

**Plan:**

Client to participate in treatment program including scheduled groups, individual therapy and counseling sessions.

Client will continue working through Week 1 of the Relapse Prevention Workbook.

Counseling will incorporate CBT-based interventions to address shame, challenge negative self-beliefs, and strengthen coping strategies for managing emotional highs and lows without substances.

Client will be encouraged to maintain his meditation practice and explore participation in a Dharma Recovery group as part of building a mindful support network.

Treatment will also emphasize the development of a structured daily routine to support stability and prevent relapse.

Ongoing sessions will monitor cravings, reinforce effective coping skills, and support the client in continuing to build internal and external resources for long-term recovery.

**Information/Behavior:**

Client was on time for session and eager to participate. Client continues to build rapport with therapist and we review in depth his history of extensive trauma, recent deaths of his brothers, recent marriage and his strong sobriety followed by severe relapse. Client is scared about how much his drinking escalated and his inability to stop or feel his emotions. He is scared to feel the grief--especially of his twin brother. He had some tears when thinking about his brother at music therapy and was able to talk about him.

**Interventions:**

Reflection, Motivational interviewing, Attachment work, working on getting in touch with the emotions underneath the story and being able to tolerate them, psychoeducation on grief.

**Response:**

Client is very receptive and grateful for treatment. He really wants to be here and change his life. He is motivated to move through the treatment and feel his feelings.

**Plan:**

Therapist and client will work on therapy goals and client will be paying attention to labeling his feelings and allowing himself to feel them more than he has allowed in the past and to use grounding techniques to come back to the present.

**Information/Behavior:**

Client came to group on time and was eager to participate. He appeared anxious, restless and depressive.

He reported that he was tearful thinking about his twin brother this morning when listening to music. Client continued to give information about his relational history and his substance abuse history. He is aware that he has abandonment issues and grief that has not been processed from the death of his brothers. He would also like to work on his adult child of alcoholic issues and childhood trauma.

**Interventions:**

Therapist continues to perform complete assessment and formulate a treatment plan for residential stay. Used motivational interviewing, reflection, psycho education, and discovery. Therapist is creating a safe space for him to explore his feelings and express his desired goals.

**Response:**

Client is engaged and wants to explore the reasons he cannot stay sober. He has been scared that he has not been able to stop drinking. He thinks the disease is progressing.

**Plan:**

Therapist will meet with client 4 days a week and he will attend groups every day in treatment as well as outside 12 step meetings. Therapist and client will refine treatment goals.

Judgement: Fair

Dangerousness:

**Information/Behavior:**

Client participated in an initial individual counseling session focused on building rapport and gaining insight into his history with addiction. He reported past success with periods of abstinence, particularly when actively involved in AA, building community, and working with a sponsor. Client shared that his substance use escalated significantly following the deaths of his two brothers, which occurred only ten months apart. He identified ongoing struggles with emotional regulation and noted that he has often relied on substances for escapism and self-medication.

Session discussion emphasized the importance of prioritizing himself and his recovery to support long-term success. Client expressed openness to developing a structured daily routine and setting clear recovery goals. We also explored the negative consequences of his substance use, with the client acknowledging that continued use may lead to serious health complications and potential divorce from his spouse. Client was engaged, reflective, and willing to discuss the emotional and situational factors contributing to his addiction.

**Interventions:**

Rapport-building interventions were used to create a supportive therapeutic environment and facilitate open discussion. Motivational Interviewing (MI) techniques helped explore the client's ambivalence, past recovery successes, and current barriers related to grief, emotional regulation, and self-medication. Psychoeducation was provided on the importance of prioritizing recovery, establishing structured routines, and developing clear goals. CBT-informed exploration supported the identification of negative consequences of substance use and the emotional triggers contributing to relapse. Interventions also included grief-informed discussion to acknowledge the impact of recent losses on the client's recovery challenges. Client was provided with a copy of the Relapse Prevention workbook and to begin Week 1.

**Response:**

Client was open, engaged, and reflective throughout the session. He demonstrated insight into how grief, emotional dysregulation, and self-medication have contributed to his recent relapse pattern. Client acknowledged the seriousness of the potential consequences of continued use and expressed willingness to prioritize his recovery. He appeared receptive to developing a structured routine, setting goals, and re-engaging with supportive recovery practices such as AA and sponsorship.

**Plan:**

Client will continue participation in individual counseling, group therapy, and all aspects of the residential treatment program.

Treatment will focus on addressing emotional regulation difficulties, processing grief related to the loss of his brothers, and reducing reliance on substances for coping.

Client will begin working through the Relapse Prevention Workbook to strengthen insight into triggers, relapse patterns, and coping strategies.

He will also develop a structured daily routine and establish short- and long-term recovery goals to support stability post-treatment. Reintegration into community-based supports such as AA and reconnection with a sponsor will be encouraged as part of his continuing care plan.

Ongoing sessions will monitor his progress, reinforce adaptive coping skills, and assist in strengthening his recovery foundation to reduce risk of relapse and support long-term wellness.

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

## Clinical Tx Plan 1 12/04/2025

Date Established 12/04/2025

### Problem

- Alcohol Use Disorder:
- Other Substance Use Disorder:
- Depression: with suicidal ideation, unresolved grief from the death of his twin brother
- Anxiety Disorder:
- Relationship Issues:
- Family Conflict:
- Other:: possible eating disorder--binging and purging

### Behavioral Observations:

.

### Other Behavioral Obervations

Client appears anxious and depressed

### Long-term Goals:

- I will accept my powerlessness and unmanageability over alcohol and mood-altering substances, and participate in a recovery-based program.
- I will establish a sustained recovery, free from the use of alcohol.
- I will establish and maintain total abstinence, while increasing knowledge of my addiction and the process of recovery.
- I will improve my quality of life and a greater sense of life satisfaction without the need of alcohol or mood-altering substances.
- I will acquire the necessary recovery skills to maintain long-term sobriety from all mood-altering substances.

**Client stated goals:**

- Get sober and reconnect with AA community
- Forgive myself

-Build coping skills dealing with depression and anxiety

-Create better habits and routines

#### Short-term Objectives, Therapeutic Interventions, Frequency and Modality

Objectives	Plan	Frequency								
Within the first few days of treatment, I will initially complete objective psychological testing for assessing present emotional status (e.g., the Beck Anxiety and Depression Scales; the GAD-7; and the PHQ-9).	Administer to client's emotional screening measures (such as the Beck Depression Inventory-II, the Beck Anxiety Inventory, GAD-7; and the PHQ-9s etc). This information will be utilized in assisting in treatment planning and discharge recommendations.	1 time event within few days of admission								
	<table border="1"> <thead> <tr> <th>Target date</th><th>Status</th><th>Date/Comment</th><th>By</th></tr> </thead> <tbody> <tr> <td>12/04/2025</td><td>Completed</td><td></td><td>LS 12/18/2025</td></tr> </tbody> </table>	Target date	Status	Date/Comment	By	12/04/2025	Completed		LS 12/18/2025

Participate in 12 step groups and reconnect with guys in AA

Target date	Status	Date/Comment	By
12/04/2025	Extended	Client is going to 12 step meetings and is a good influence in the group	LS 12/18/2025
12/11/2025	Extended	Client is calling other guys in AA and reconnecting with them--3-4 guys a day	LS 12/18/2025
12/18/2025	Extended	Client has agreed to find a temporary sponsor before he leaves treatment	LS 12/18/2025

Work on processing trauma and grief around the sudden death of his twin brother 2 years ago

Target date	Status	Date/Comment	By
12/04/2025	Open	Client is processing the last couple of years of his twin's life and is able to start to feel emotions around it.	LS 12/18/2025
12/11/2025	Extended	Client is able to feel anger about how his brother did not want to connect with him and would often put in down	LS 12/18/2025
12/18/2025	Extended	Client is working in a grief workbook and writing a picture of his brother-- everything he can remember about him and also his regrets	LS 12/18/2025

Forgiving himself and building self esteem

Target date	Status	Date/Comment	By
12/18/2025	Open	Therapist builds trust by consistent eye contact, active listening, and unconditional positive regard and warm acceptance to help increase his ability to identify and express feelings.	LS 12/18/2025
12/18/2025	Extended	Help client become aware of his fear of rejection and its connection with past rejection or abandonment	LS 12/18/2025

12/18/2025	Extended negative assessment of himself--what would a friend say?	Confront and reframe the client's negative assessment of himself--what would a friend say?	LS 12/18/2025
12/18/2025	Open	Identify negative self talk and also esteemable acts	LS 12/18/2025

Work on schemas of perfectionism, self sacrifice, failure, dependency, emotional deprivation, subjugation, social alienation, and abandonment      Work on the schemas identified in the Relationship Schema Inventory

Target date	Status	Date/Comment	By
12/04/2025	Open	We started by looking at the self sacrificing and dependency schemas show up for him today and the roots of that in his childhood	LS 12/18/2025

#### Work on depression and suicidal ideation

Target date	Status	Date/Comment	By
12/04/2025	Open	Assess depression and suicidal ideation. Client has had ideation every month for the past year. He does have a gun in the house and we discussed him moving it to another location which he is open to however he does not want to scare his wife.	LS 12/18/2025
12/11/2025	Extended	Encourage client to express feelings and grief in safe space and teach emotional regulation tools	LS 12/18/2025
12/18/2025	Open	Discuss self-defeating thoughts and challenge thoughts and replace thoughts with thoughts that are positive and self enhancing	LS 12/18/2025
12/18/2025	Open	Work on survival guilt with client's death of his twin and that create a living ritual that he can continue to thrive and live even though his twin is no longer alive	LS 12/18/2025

I will demonstrate a decrease in depression and anxiety symptoms, as evidenced by: 1) Verbalizing ongoing positive changes in my emotional status to my primary therapist and 2) Changes in my scores on psychometric tests (e.g., the Beck Anxiety and Depression Scales; the GAD-7; and the PHQ-9).	Re-administer emotional screening measures (such as the Beck Depression Inventory-II and the Beck Anxiety Inventory, the GAD-7; and the PHQ-9) towards the end of treatment to evaluate changes and possible progress in resolving emotional issues. This information will also be used for follow-up recommendations.		1 time event

**Ordered Medical Tests**

Test Description	Specimen Source	Test Type	Provider Account	Lab Account
Antidepressants, Otherwise Not Specified Presumptive	Urine	Toxicology		LAR1191

**Statement Of Medical Necessity**

34 year old male Client presenting with F10.20 Alcohol use disorder, Severe, F19.10 Other psychoactive substance abuse, uncomplicated, F15.20 Other or unspecified stimulant use disorder, Severe, F33.9 Major depressive disorder, recurrent, unspecified, F41.1 Generalized anxiety disorder, G47.00 Insomnia, and unspecified. Prescribed medications are Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, and magnesium glycinate.

{4} Provides objectivity to the treatment plan.

{5} Reinforces therapeutic compliance in the patient.

Urine drug testing is medically necessary for diagnostic, clinical, and therapeutic purposes, to detect the use of prescription medications and illegal substances of concern for the purpose of assessment and treatment and to monitor compliance with the medication protocol of the Program.

Client will be tested as per the selected frequency as part routine monitoring, or for attendance to group, return from pass, randomly, or under suspicion of relapse, according to this facility's policies and procedures.

**Ryan Bohannon ♂ 2025-124**

Test Description	Specimen Source	Test Type	Provider Account	Lab Account
Amphetamines Presumptive	Urine	Toxicology		LAR1191

**Statement Of Medical Necessity**

34 year old male Client presenting with F10.20 Alcohol use disorder, Severe, F19.10 Other psychoactive substance abuse, uncomplicated, F15.20 Other or unspecified stimulant use disorder, Severe, F33.9 Major depressive disorder, recurrent, unspecified, F41.1 Generalized anxiety disorder, G47.00 Insomnia, and unspecified. Prescribed medications are Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, and magnesium glycinate.

{4} Provides objectivity to the treatment plan.

{5} Reinforces therapeutic compliance in the patient.

Urine drug testing is medically necessary for diagnostic, clinical, and therapeutic purposes, to detect the use of prescription medications and illegal substances of concern for the purpose of assessment and treatment and to monitor compliance with the medication protocol of the Program.

Client will be tested as per the selected frequency as part routine monitoring, or for attendance to group, return from pass, randomly, or under suspicion of relapse, according to this facility's policies and procedures.

Statement Of Medical  
Necessity

34 year old male Client presenting with F10.20 Alcohol use disorder, Severe, F19.10 Other psychoactive substance abuse, uncomplicated, F15.20 Other or unspecified stimulant use disorder, Severe, F33.9 Major depressive disorder, recurrent, unspecified, F41.1 Generalized anxiety disorder, G47.00 Insomnia, and unspecified. Prescribed medications are Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, and magnesium glycinate.

{4} Provides objectivity to the treatment plan.

{5} Reinforces therapeutic compliance in the patient.

Urine drug testing is medically necessary for diagnostic, clinical, and therapeutic purposes, to detect the use of prescription medications and illegal substances of concern for the purpose of assessment and treatment and to monitor compliance with the medication protocol of the Program.

Client will be tested as per the selected frequency as part routine monitoring, or for attendance to group, return from pass, randomly, or under suspicion of relapse, according to this facility's policies and procedures.

Order Description	Ordered At
Medical Test: Alkaloids, NOS (Excluding Cotinine) Presumptive - (Gnosis) - (Urine)	12/10/2025 09:50 PM

Order Description			Ordered At
Requested Medical Tests			
Test Code	Test Description	Test Type	Compendium Version
340135	Alkaloids, NOS (Excluding Cotinine) Presumptive	toxicology	5

Ordered By: Ellen Barbieri, NP. NPI: 1134929573

**Statement Of Medical Necessity**

34 year old male Client presenting with F10.20 Alcohol use disorder, Severe, F19.10 Other psychoactive substance abuse, uncomplicated, F15.20 Other or unspecified stimulant use disorder, Severe, F33.9 Major depressive disorder, recurrent, unspecified, F41.1 Generalized anxiety disorder, G47.00 Insomnia, and unspecified. Prescribed medications are Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, and magnesium glycinate.

- {4} Provides objectivity to the treatment plan.
- {5} Reinforces therapeutic compliance in the patient.

Urine drug testing is medically necessary for diagnostic, clinical, and therapeutic purposes, to detect the use of prescription medications and illegal substances of concern for the purpose of assessment and treatment and to monitor compliance with the medication protocol of the Program.

Client will be tested as per the selected frequency as part routine monitoring, or for attendance to group, return from pass, randomly, or under suspicion of relapse, according to this facility's policies and procedures.

**Point of Collection Results (POC)**

Reason For Testing (Required): :	Diagnosis and treatment for substance abuse or dependence (SUD)
If Diagnosis and treatment for substance abuse or dependence (SUD) was selected above, document days of abstinence :	0-30

**Additional Information**

Temp 90-100F? :	YES
Temperature is measured in celsius or fahrenheit? :	Fahrenheit

**Clinical Data**

Diagnosis

F10.20 Alcohol use disorder, Severe,F19.10 Other psychoactive substance abuse, uncomplicated,F15.20 Other or unspecified stimulant use disorder, Severe,F33.9 Major depressive disorder, recurrent, unspecified,F41.1 Generalized anxiety disorder,G47.00 Insomnia, unspecified

Medication

B 12,Acamprosate,Benadryl Allergy,Gabapentin,Clonidine H Cl,Acetaminophen,Loperamide,Multivitamin,Ondansetron H Cl,Trazodone,Escitalopram Oxalate 20mg,Melatonin,Magnesium Glycinate

**Patient Consent For Testing**

I certify that I have voluntarily provided a fresh and unadulterated urine specimen for analytical testing. The information on this form and the label affixed to the specimen cup is accurate.

**Statement Of Medical  
Necessity**

34 year old male Client presenting with F10.20 Alcohol use disorder, Severe, F19.10 Other psychoactive substance abuse, uncomplicated, F15.20 Other or unspecified stimulant use disorder, Severe, F33.9 Major depressive disorder, recurrent, unspecified, F41.1 Generalized anxiety disorder, G47.00 Insomnia, and unspecified. Prescribed medications are Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, and magnesium glycinate.

{4} Provides objectivity to the treatment plan.

{5} Reinforces therapeutic compliance in the patient.

Urine drug testing is medically necessary for diagnostic, clinical, and therapeutic purposes, to detect the use of prescription medications and illegal substances of concern for the purpose of assessment and treatment and to monitor compliance with the medication protocol of the Program.

Client will be tested as per the selected frequency as part routine monitoring, or for attendance to group, return from pass, randomly, or under suspicion of relapse, according to this facility's policies and procedures.

Ordered By: Ellen Barbieri, NP. NPI: 1134929573

## Statement Of Medical Necessity

34 year old male Client presenting with F10.20 Alcohol use disorder, Severe, F19.10 Other psychoactive substance abuse, uncomplicated, F15.20 Other or unspecified stimulant use disorder, Severe, F33.9 Major depressive disorder, recurrent, unspecified, F41.1 Generalized anxiety disorder, G47.00 Insomnia, and unspecified. Prescribed medications are Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, and magnesium glycinate.

- {4} Provides objectivity to the treatment plan.  
 {5} Reinforces therapeutic compliance in the patient.

Urine drug testing is medically necessary for diagnostic, clinical, and therapeutic purposes, to detect the use of prescription medications and illegal substances of concern for the purpose of assessment and treatment and to monitor compliance with the medication protocol of the Program.

Client will be tested as per the selected frequency as part routine monitoring, or for attendance to group, return from pass, randomly, or under suspicion of relapse, according to this facility's policies and procedures.

<b>Results</b>							
<b>Result Description</b>							
<b>Citalopram</b>	<b>Observed Result</b>	<b>Observed At</b>	<b>Cutoff / Reference Range</b>	<b>Unit</b>	<b>Outcome</b>	<b>Status</b>	<b>Lab</b>
Citalopram	536.390190814535	12/25/2025 03:44 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation: INCONSISTENT Common Source: Citalopram, Celexa Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function. Detection Window: Up to 7 days							
<b>Duloxetine</b>	<b>Negative</b>	<b>12/25/2025 03:44 PM</b>	<b>50</b>	<b>ng/mL</b>	<b>Normal</b>	<b>Final</b>	<b>Gnosis - Orange</b>
<b>Notes:</b> Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation:							
<b>Fluoxetine</b>	<b>Negative</b>	<b>12/25/2025 03:44 PM</b>	<b>25</b>	<b>ng/mL</b>	<b>Normal</b>	<b>Final</b>	<b>Gnosis - Orange</b>
<b>Notes:</b> Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation:							
<b>O-desmethylvenlafaxine</b>	<b>Negative</b>	<b>12/25/2025 03:44 PM</b>	<b>50</b>	<b>ng/mL</b>	<b>Normal</b>	<b>Final</b>	<b>Gnosis - Orange</b>

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Paroxetine</b>	Negative	12/25/2025 03:44 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Sertraline</b>	Negative	12/25/2025 03:44 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							

Test Description <b>Gabapentin Definitive</b>	Status Final Result	Specimen Source UR: Urine					
Received At 12/27/2025 12:16 PM	Completed At 12/28/2025 04:42 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>B-phenyl-Y-aminobutyric acid (Phenibut)</b>	Negative	12/25/2025 03:44 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Gabapentin</b>	> 10000	12/25/2025 03:44 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: CONSISTENT							
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.							
Detection Window: Up to 5 days							

**Ryan Bohannon ♂ 2025-124**

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

**Lab Report**

Specimen KKFF3JCA  
Accession No T2512190036

Reported At  
12/20/2025 01:39 PM

Collected At 12/17/2025 02:00 PM  
Results For Review:  
4

Results Summary:  
Normal: 38 | Abnormal: 4

**Patient**

First Name Ryan	Middle Name N/A	Last Name Bohannon	MR Number 2025-124
Date Of Birth 04/04/1991	Phone 650-464-6771	Address 1141 Pheasant Hill Way San Jose CA , 95120 US	Birth Sex Male
Payment Method N/A	Location LAR - Simmons	Current Diagnoses F10.20 Alcohol use disorder, Severe; F19.10 Other psychoactive substance abuse, uncomplicated; F15.20 Other or unspecified stimulant use disorder, Severe; F33.9 Major depressive disorder, recurrent, unspecified; F41.1 Generalized anxiety disorder; G47.00 Insomnia, unspecified	

Notes  
N/A**Lab**

Name Gnosis - Orange	CLIA Code 05D2198282	
Address 1594 N Main St Orange CA , 92867 US	Phone 888-539-0525	Director Director: Safedin Sajo Beqaj, PhD, HCLD, CC (ABB)

**Highlighted Results**

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Clonidine	Negative	12/17/2025 02:00 PM	20	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation: INCONSISTENT Remarks: Apart from hypertension, clonidine is effective for the treatment of opioid and alcohol addiction. Detection Window: Up tp 3 days							
Citalopram	362.049505549174	12/17/2025 02:00 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation: INCONSISTENT Common Source: Citalopram, Celexa Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function. Detection Window: Up to 7 days							
Antidepressants, serotonergic	Positive	12/17/2025 02:00 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b> Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Gabapentin</b>	Positive	12/17/2025 02:00 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate

<b>Propoxyphene</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Psychedelic substances</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Sedative Hypnotics</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Skeletal Muscle Relaxants</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Stimulants, synthetic</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Tapentadol</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Tramadol</b>	Negative	12/17/2025 02:00 PM	N/A	N/A	Normal	Final	Gnosis - Orange

Result Description	Observed	Cutoff / Reference		Unit	Outcome	Status	Lab
	Result	Observed At	Range				
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							

Test Description <b>Anti-hypertensive Definitive</b>	Status Final Result	Specimen Source UR: Urine					
Received At 12/19/2025 11:39 AM	Completed At 12/20/2025 01:39 PM	Ordering Physician Ellen Barbieri		Lab	N/A		
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Clonidine	Negative	12/17/2025 02:00 PM	20	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Remarks: Apart from hypertension, clonidine is effective for the treatment of opioid and alcohol addiction.							
Detection Window: Up to 3 days							

Test Description <b>Antidepressants, serotonergic Definitive</b>	Status Final Result	Specimen Source UR: Urine					
Received At 12/19/2025 11:39 AM	Completed At 12/20/2025 01:39 PM	Ordering Physician Ellen Barbieri		Lab	N/A		
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Citalopram	362.049505549174	12/17/2025 02:00 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Citalopram, Celexa							
Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function.							
Detection Window: Up to 7 days							

Duloxetine	Negative	12/17/2025 02:00 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Fluoxetine	Negative	12/17/2025 02:00 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
O-desmethylvenlafaxine	Negative	12/17/2025 02:00 PM	50	ng/mL	Normal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Paroxetine</b>	Negative	12/17/2025 02:00 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Sertraline</b>	Negative	12/17/2025 02:00 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							

Test Description <b>Gabapentin Definitive</b>	Status Final Result	Specimen Source UR: Urine					
Received At 12/19/2025 11:39 AM	Completed At 12/20/2025 01:39 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>B-phenyl-Y-aminobutyric acid (Phenibut)</b>	Negative	12/17/2025 02:00 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Gabapentin</b>	8019.94180773514	12/17/2025 02:00 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, gabapentin, clonidine HCl, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: CONSISTENT							
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.							
Detection Window: Up to 5 days							

**Ryan Bohannon ♂ 2025-124**

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

**Lab Report**

Specimen  
KN3PJ3J7

Accession No  
T2512160089

Reported At  
12/17/2025 12:03 PM

Collected At  
12/13/2025 02:52 PM

Results For Review:  
4

Results  
Summary:

Normal: 38 | Abnormal: 4

**Patient**

First Name Ryan	Middle Name N/A	Last Name Bohannon	MR Number 2025-124
Date Of Birth 04/04/1991	Phone 650-464-6771	Address 1141 Pheasant Hill Way San Jose CA , 95120 US	Birth Sex Male
Payment Method N/A	Location LAR - Simmons	Current Diagnoses F10.20 Alcohol use disorder, Severe; F19.10 Other psychoactive substance abuse, uncomplicated; F15.20 Other or unspecified stimulant use disorder, Severe; F33.9 Major depressive disorder, recurrent, unspecified; F41.1 Generalized anxiety disorder; G47.00 Insomnia, unspecified

## Results

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Citalopram	1205.81549556747	12/13/2025 02:52 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Citalopram, Celexa							
Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function.							
Detection Window: Up to 7 days							
Duloxetine	Negative	12/13/2025 02:52 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Fluoxetine	Negative	12/13/2025 02:52 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
O-desmethylvenlafaxine	Negative	12/13/2025 02:52 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Paroxetine	Negative	12/13/2025 02:52 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Sertraline	Negative	12/13/2025 02:52 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:

## Results

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
B-phenyl-Y-aminobutyric acid (Phenibut)	Negative	12/13/2025 02:52 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Gabapentin	> 10000	12/13/2025 02:52 PM	200	ng/mL	Normal	Final	Gnosis - Orange

Result Description	Observed		Cutoff / Reference		Unit	Outcome	Status	Lab				
	Result	Observed At	Range									
<b>Notes:</b>												
Prescribed Medications: B-12, acamprosate, Benadryl Allergy, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate												
Interpretation: CONSISTENT												
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.												
Detection Window: Up to 5 days												

**Ryan Bohannon ♂ 2025-124**

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

**Lab Report**

Specimen KKFF3KFF  
Accession No T2512120006

Reported At  
12/13/2025 12:37 PM

Collected At 12/10/2025 08:42 PM  
Results For Review:  
7

Results Summary:  
Normal: 46 | Abnormal: 7

**Patient**

First Name Ryan	Middle Name N/A	Last Name Bohannon	MR Number 2025-124
Date Of Birth 04/04/1991	Phone 650-464-6771	Address 1141 Pheasant Hill Way San Jose CA , 95120 US	Birth Sex Male
Payment Method N/A	Location LAR - Simmons	Current Diagnoses F10.20 Alcohol use disorder, Severe; F19.10 Other psychoactive substance abuse, uncomplicated; F15.20 Other or unspecified stimulant use disorder, Severe; F33.9 Major depressive disorder, recurrent, unspecified; F41.1 Generalized anxiety disorder; G47.00 Insomnia, unspecified	

Notes  
N/A

Name Gnosis - Orange	CLIA Code 05D2198282	
Address 1594 N Main St Orange CA , 92867 US	Phone 888-539-0525	Director Director: Safedin Sajo Beqaj, PhD, HCLD, CC (ABB)

**Highlighted Results**

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Clonidine	Negative	12/10/2025 08:42 PM	20	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Remarks: Apart from hypertension, clonidine is effective for the treatment of opioid and alcohol addiction.							
Detection Window: Up to 3 days							
Citalopram	1297.37868310698	12/10/2025 08:42 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Citalopram, Celexa							
Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function.							
Detection Window: Up to 7 days							
Antidepressants, serotonergic	Positive	12/10/2025 08:42 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Oxazepam	373.491075655473	12/10/2025 08:42 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Seresta, Serax, Metabolite of Diazepam, Temazepam, and Nordiazepam							
Remarks: Oxazepam is an intermediate-acting benzodiazepine with slow onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawals, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
Benzodiazepines	Positive	12/10/2025 08:42 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Temazepam	60.8091348186829	12/10/2025 08:42 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Restoril, Normison, Metabolite of Diazepam							
Remarks: Temazepam is a short-acting benzodiazepine commonly used to treat panic disorders, severe anxiety, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
Gabapentin	Positive	12/10/2025 08:42 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate

Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Alkaloids, NOS (Excluding Cotinine)	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Amphetamines	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							

Result Description	Observed Result	Observed At	Cutoff / Reference Range		Unit	Outcome	Status	Lab
			N/A					
Antidepressants, not otherwise specified	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Antidepressants, serotonergic	Positive	12/10/2025 08:42 PM	N/A		N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Antidepressants, tricyclic	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Antiepileptic	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Anti-hypertensive	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Antipsychotics	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Barbiturates	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Benzodiazepines	Positive	12/10/2025 08:42 PM	N/A		N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Buprenorphine	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Cannabinoids, Natural	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								

Result Description	Observed Result	Cutoff / Reference		Unit	Outcome	Status	Lab
		Observed At	Range				
Cocaine	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Fentanyl	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Gabapentin	Positive	12/10/2025 08:42 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Heroin	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Ketamine	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Methadone	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Methylenedioxymphetamines	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Methylphenidate	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Opiates	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Opioids & Opiate Analogs	Negative	12/10/2025 08:42 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							

Result Description	Observed Result	Observed At	Cutoff / Reference Range		Unit	Outcome	Status	Lab
			N/A					
Oxycodone	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Phencyclidine	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Pregabalin	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Propoxyphene	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Psychedelic substances	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Sedative Hypnotics	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Skeletal Muscle Relaxants	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Stimulants, synthetic	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Tapentadol	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								
Tramadol	Negative	12/10/2025 08:42 PM	N/A		N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate								

Test Description <b>Anti-hypertensive Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
7-Aminoclonazepam	Negative	12/10/2025 08:42 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
a-Hydroxymidazolam	Negative	12/10/2025 08:42 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Alprazolam	Negative	12/10/2025 08:42 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Bromazepam	Negative	12/10/2025 08:42 PM	3	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Diazepam	Negative	12/10/2025 08:42 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Hydroxyalprazolam	Negative	12/10/2025 08:42 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Lorazepam	Negative	12/10/2025 08:42 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Methylclonazepam	Negative	12/10/2025 08:42 PM	5	ng/mL	Normal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Nordiazepam</b>	Negative	12/10/2025 08:42 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Oxazepam</b>	373.491075655473	12/10/2025 08:42 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Seresta, Serax, Metabolite of Diazepam, Temazepam, and Nordiazepam							
Remarks: Oxazepam is an intermediate-acting benzodiazepine with slow onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawals, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Temazepam</b>	60.8091348186829	12/10/2025 08:42 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Restoril, Normison, Metabolite of Diazepam							
Remarks: Temazepam is a short-acting benzodiazepine commonly used to treat panic disorders, severe anxiety, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days

<b>Results</b>						
Result Description	Observed Result	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>B-phenyl-Y-aminobutyric acid (Phenibut)</b>	Negative	12/10/2025 08:42 PM	200	ng/mL	Normal	Final
<b>Notes:</b>			Gnosis - Orange			
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate						
Interpretation:						
<b>Gabapentin</b>	> 10000	12/10/2025 08:42 PM	200	ng/mL	Normal	Final
<b>Notes:</b>			Gnosis - Orange			
Prescribed Medications: Benadryl Allergy, acamprosate, B-12, Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate						
Interpretation: CONSISTENT						
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.						
Detection Window: Up to 5 days						

**Ryan Bohannon ♂ 2025-124**

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

**Lab Report**

Specimen KKFF3NF4  
Accession No T2512080083

Reported At  
12/09/2025 07:16 AM

Collected At 12/04/2025 12:26 PM  
Results For Review: 11

Results Summary:  
Normal: 51 Abnormal: 11

**Patient**

First Name Ryan	Middle Name N/A	Last Name Bohannon	MR Number 2025-124
Date Of Birth 04/04/1991	Phone 650-464-6771	Address 1141 Pheasant Hill Way San Jose CA , 95120 US	Birth Sex Male
Payment Method N/A	Location LAR - Simmons	Current Diagnoses F10.20 Alcohol use disorder, Severe; F19.10 Other psychoactive substance abuse, uncomplicated; F15.20 Other or unspecified stimulant use disorder, Severe; F33.9 Major depressive disorder, recurrent, unspecified; F41.1 Generalized anxiety disorder; G47.00 Insomnia, unspecified	

Notes  
N/A**Lab**

Name Gnosis - Orange	CLIA Code 05D2198282	
Address 1594 N Main St Orange CA , 92867 US	Phone 888-539-0525	Director Director: Safedin Sajo Beqaj, PhD, HCLD, CC (ABB)

**Highlighted Results**

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Citalopram</b>	2060.26515935612	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation: INCONSISTENT Common Source: Citalopram, Celexa Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function. Detection Window: Up to 7 days							
<b>7-hydroxy Mitragynine</b>	32.6001065471473	12/04/2025 12:26 PM	15	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate Interpretation: INCONSISTENT Common Source: Kratom, 7-hydroxymitragynine Remarks: 7-hydroxymitragynine is a metabolite of mitragynine. Substance can also be found in certain products available for purchase. Detection Window: Up to 5 days							
<b>Mitragynine</b>	77.6602014294027	12/04/2025 12:26 PM	25	ng/mL	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Kratom							
Remarks: Mitragynine is an alkaloid found in leaves from the Kratom tree that originate from Asia. The leaves of plant are consumed for their stimulant and analgesic effects attributed to Mitragynine. Plant extracts are sold for their medicinal use and may be subject to abuse.							
Detection Window: Up to 5 days							
<b>Antidepressants, serotonergic</b>	Positive	12/04/2025 12:26 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Anti-hypertensive</b>	Positive	12/04/2025 12:26 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Nordiazepam</b>	536.99935433084	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Madar, Stilny, Metabolite of Diazepam							
Remarks: Nordiazepam is a benzodiazepine indicated in the treatment of insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Oxazepam</b>	1394.51634883223	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Seresta, Serax, Metabolite of Diazepam, Temazepam, and Nordiazepam							
Remarks: Oxazepam is an intermediate-acting benzodiazepine with slow onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawals, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Benzodiazepines</b>	Positive	12/04/2025 12:26 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Temazepam</b>	873.852017479585	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Restoril, Normison, Metabolite of Diazepam							
Remarks: Temazepam is a short-acting benzodiazepine commonly used to treat panic disorders, severe anxiety, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Gabapentin</b>	Positive	12/04/2025 12:26 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
<b>Opioids &amp; Opiate Analogs</b>	Positive	12/04/2025 12:26 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate

Citalopram	2060.26515935612	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Citalopram, Celexa							
Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function.							
Detection Window: Up to 7 days							
Duloxetine	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Fluoxetine	Negative	12/04/2025 12:26 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
O-desmethylvenlafaxine	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Paroxetine	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Sertraline	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:

7-Aminoclonazepam	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
a-Hydroxymidazolam	Negative	12/04/2025 12:26 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Alprazolam	Negative	12/04/2025 12:26 PM	25	ng/mL	Normal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Bromazepam	Negative	12/04/2025 12:26 PM	3	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Diazepam	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Hydroxyalprazolam	Negative	12/04/2025 12:26 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Lorazepam	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Methylclonazepam	Negative	12/04/2025 12:26 PM	5	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
Nordiazepam	536.99935433084	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Madar, Stilny, Metabolite of Diazepam							
Remarks: Nordiazepam is a benzodiazepine indicated in the treatment of insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
Oxazepam	1394.51634883223	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Seresta, Serax, Metabolite of Diazepam, Temazepam, and Nordiazepam							
Remarks: Oxazepam is an intermediate-acting benzodiazepine with slow onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawals, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
Temazepam	873.852017479585	12/04/2025 12:26 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Restoril, Normison, Metabolite of Diazepam							
Remarks: Temazepam is a short-acting benzodiazepine commonly used to treat panic disorders, severe anxiety, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							

Test Description <b>Gabapentin Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine					
Received At 12/08/2025 12:36 PM	Completed At 12/09/2025 07:16 AM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>B-phenyl-Y-aminobutyric acid (Phenibut)</b>	Negative	12/04/2025 12:26 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Gabapentin</b>	> 10000	12/04/2025 12:26 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: CONSISTENT							
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.							
Detection Window: Up to 5 days							

Test Description <b>Opioids &amp; Opiate Analogs Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine					
Received At 12/08/2025 12:36 PM	Completed At 12/09/2025 07:16 AM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>7-hydroxy Mitragynine</b>	32.6001065471473	12/04/2025 12:26 PM	15	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Kratom, 7-hydroxymitragynine							
Remarks: 7-hydroxymitragynine is a metabolite of mitragynine. Substance can also be found in certain products available for purchase.							
Detection Window: Up to 5 days							
<b>Dextromethorphan</b>	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Dextrorphan/Levorphanol</b>	Negative	12/04/2025 12:26 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Mitragynine</b>	77.6602014294027	12/04/2025 12:26 PM	25	ng/mL	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation: INCONSISTENT							
Common Source: Kratom							
Remarks: Mitragynine is an alkaloid found in leaves from the Kratom tree that originate from Asia. The leaves of plant are consumed for their stimulant and analgesic effects attributed to Mitragynine. Plant extracts are sold for their medicinal use and may be subject to abuse.							
Detection Window: Up to 5 days							
<b>N-desethyl Etonitazene</b>	Negative	12/04/2025 12:26 PM	5	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>N-desethyl Metonitazene</b>	Negative	12/04/2025 12:26 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>N-Pyrrolidino Etonitazene</b>	Negative	12/04/2025 12:26 PM	5	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Naloxone</b>	Negative	12/04/2025 12:26 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							
<b>Naltrexone</b>	Negative	12/04/2025 12:26 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, ondansetron HCl, clonidine HCl, gabapentin, trazodone, escitalopram oxalate 20mg, melatonin, magnesium glycinate							
Interpretation:							

**Ryan Bohannon ♂ 2025-124**

Birthdate: 04/04/1991 Bed: Res Room 4 - Bed 1

Allergies: No Known Allergies/NKA

Admission: 11/28/2025 Care Team

**Lab Report**

Specimen KKFF3NMJ  
Accession No T2512010056

Reported At  
12/02/2025 04:54 PM

Collected At 11/28/2025 07:36 PM  
Results For Review: 17

Results Summary:

Abnormal: 17 | Normal: 49

**Patient**

First Name Ryan	Middle Name N/A	Last Name Bohannon	MR Number 2025-124
Date Of Birth 04/04/1991	Phone 650-464-6771	Address 1141 Pheasant Hill Way San Jose CA , 95120 US	Birth Sex Male
Payment Method N/A	Location LAR - Simmons	Current Diagnoses F10.20 Alcohol use disorder, Severe; F19.10 Other psychoactive substance abuse, uncomplicated; F15.20 Other or unspecified stimulant use disorder, Severe; F33.9 Major depressive disorder, recurrent, unspecified; F41.1 Generalized anxiety disorder; G47.00 Insomnia, unspecified

**Highlighted Results**

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Alcohol Biomarkers	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
<b>Amphetamine</b>							
604.008935866263 11/28/2025 07:36 PM							
50 ng/mL Abnormal Final Gnosis - Orange							
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Adderall, Vyvanse, Metabolite of Methamphetamine							
Remarks: Amphetamine is not metabolized to methamphetamine. The presence of amphetamine in the absence of methamphetamine indicates primary drug abuse of amphetamine.							
Detection Window: Up to 5 days							
Clonidine	Negative	11/28/2025 07:36 PM	20 ng/mL	Abnormal	Final	Gnosis - Orange	

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Apart from hypertension, clonidine is effective for the treatment of opioid and alcohol addiction.							
Detection Window: Up to 3 days							
<b>Citalopram</b>	739.270828275197	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Citalopram, Celexa							
Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function.							
Detection Window: Up to 7 days							
<b>7-hydroxy Mitragynine</b>	75.8127058908333	11/28/2025 07:36 PM	15	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Kratom, 7-hydroxymitragynine							
Remarks: 7-hydroxymitragynine is a metabolite of mitragynine. Substance can also be found in certain products available for purchase.							
Detection Window: Up to 5 days							
<b>Ethyl glucuronide (EtG)</b>	> 37500	11/28/2025 07:36 PM	500	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Ethanol							
Remarks: EtG is a minor metabolite of ethanol. Therefore, its detection in urine is a biomarker of ethanol consumption.							
Detection Window: Up to 3 days							
<b>Gabapentin</b>	1216.66319081899	11/28/2025 07:36 PM	200	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Neurontin							
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.							
Detection Window: Up to 5 days							
<b>Ethyl Sulfate (EtS)</b>	> 7500	11/28/2025 07:36 PM	100	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Ethanol							
Remarks: EtS is a minor metabolite of ethanol. Therefore, its detection in urine is a biomarker of ethanol consumption.							
Detection Window: Up to 3 days							
<b>Ammphetamines</b>	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, Diazepam, Ondansetron HCl, Clonidine HCl							
<b>Dextrophan/Levorphanol</b>	80.8343206581659	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Levorphanol, Metabolite of Dextromethorphan							
Remarks: Dextrophan is a major metabolite of dextromethorphan. This method cannot differentiate between Dextrorphan and its stereoisomer Levorphanol (synthetic opioid analgesic).							
Detection Window: Up to 5 days							
<b>Antidepressants, serotonergic</b>	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
<b>Diazepam</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Diazepam is a long-acting benzodiazepine with rapid onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawal, and seizures. Diazepam is metabolized to nordiazepam, oxazepam, and temazepam.							
Detection Window: Up to 10 days							
<b>Nordiazepam</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Nordiazepam is a benzodiazepine indicated in the treatment of insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Oxazepam</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Oxazepam is an intermediate-acting benzodiazepine with slow onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawals, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Temazepam</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Temazepam is a short-acting benzodiazepine commonly used to treat panic disorders, severe anxiety, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
<b>Gabapentin</b>	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
<b>Opioids &amp; Opiate Analogs</b>	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl

Cocaine	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Fentanyl	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Gabapentin	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Heroin	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Ketamine	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Methadone	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Methylenedioxymphetamines	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange

Result Description	Observed	Cutoff / Reference		Unit	Outcome	Status	Lab
	Result	Observed At	Range				
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Methylphenidate	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Opiates	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Opioids & Opiate Analogs	Positive	11/28/2025 07:36 PM	N/A	N/A	Abnormal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Oxycodone	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Phencyclidine	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Pregabalin	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Propoxyphene	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Sedative Hypnotics	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Skeletal Muscle Relaxants	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Stimulants, synthetic	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange

Result Description	Observed	Cutoff / Reference		Unit	Outcome	Status	Lab
	Result	Observed At	Range				
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
<b>Tapentadol</b>	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
<b>Tramadol</b>	Negative	11/28/2025 07:36 PM	N/A	N/A	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							

Test Description	Status	Specimen Source					
<b>Amphetamines Definitive</b>	Final Result	UR: Urine					
Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Amphetamine</b>	604.008935866263	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Adderall, Vyvanse, Metabolite of Methamphetamine							
Remarks: Amphetamine is not metabolized to methamphetamine. The presence of amphetamine in the absence of methamphetamine indicates primary drug abuse of amphetamine.							
Detection Window: Up to 5 days							
<b>Methamphetamine</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>Phentermine</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							

Test Description	Status	Specimen Source					
<b>Anti-hypertensive Definitive</b>	Final Result	UR: Urine					
Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Clonidine</b>	Negative	11/28/2025 07:36 PM	20	ng/mL	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation: INCONSISTENT														
Remarks: Apart from hypertension, clonidine is effective for the treatment of opioid and alcohol addiction.														
Detection Window: Up to 3 days														
<table border="1"> <tr> <td>Test Description <b>Antidepressants, serotonergic Definitive</b></td> <td>Status <b>Final Result</b></td> <td>Specimen Source UR: Urine</td> </tr> <tr> <td>Received At 12/01/2025 10:07 AM</td> <td>Completed At 12/02/2025 04:54 PM</td> <td>Ordering Physician Ellen Barbieri</td> <td>Lab N/A</td> </tr> </table>								Test Description <b>Antidepressants, serotonergic Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine	Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri	Lab N/A
Test Description <b>Antidepressants, serotonergic Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine												
Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri	Lab N/A											
<b>Results</b>														
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab							
<b>Citalopram</b>	739.270828275197	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation: INCONSISTENT														
Common Source: Citalopram, Celexa														
Remarks: Citalopram metabolism is carried out by cytochrome P450 (CYP) 2C19 and 3A4-5. Citalopram clearance is significantly affected by reduced hepatic function, but only slightly affected by reduced renal function.														
Detection Window: Up to 7 days														
<b>Duloxetine</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation:														
<b>Fluoxetine</b>	Negative	11/28/2025 07:36 PM	25	ng/mL	Normal	Final	Gnosis - Orange							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation:														
<b>O-desmethylvenlafaxine</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation:														
<b>Paroxetine</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation:														
<b>Sertraline</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange							
<b>Notes:</b>														
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl														
Interpretation:														

Test Description <b>Benzodiazepines Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine
---	-------------------------------	------------------------------

Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri	Lab N/A				
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>7-Aminoclonazepam</b>				50	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>a-Hydroxymidazolam</b>				10	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>Alprazolam</b>				25	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>Bromazolam</b>				3	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>Diazepam</b>				50	ng/mL	Abnormal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation: INCONSISTENT Remarks: Diazepam is a long-acting benzodiazepine with rapid onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawal, and seizures. Diazepam is metabolized to nordiazepam, oxazepam, and temazepam. Detection Window: Up to 10 days							
<b>Hydroxyalprazolam</b>				25	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>Lorazepam</b>				50	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>Methylclonazepam</b>				5	ng/mL	Normal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation:							
<b>Nordiazepam</b>				50	ng/mL	Abnormal	Final Gnosis - Orange
<b>Notes:</b> Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl Interpretation: INCONSISTENT Remarks: Nordiazepam is a benzodiazepine indicated in the treatment of insomnia. It is also a metabolite of diazepam. Detection Window: Up to 10 days							

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Oxazepam	Negative	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Oxazepam is an intermediate-acting benzodiazepine with slow onset commonly used to treat panic disorders, severe anxiety, alcohol withdrawals, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							
Temazepam	Negative	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Remarks: Temazepam is a short-acting benzodiazepine commonly used to treat panic disorders, severe anxiety, and insomnia. It is also a metabolite of diazepam.							
Detection Window: Up to 10 days							

Test Description <b>Gabapentin Definitive</b>	Status Final Result	Specimen Source UR: Urine					
Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
B-phenyl-Y-aminobutyric acid (Phenibut)	Negative	11/28/2025 07:36 PM	200	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
Gabapentin	1216.66319081899	11/28/2025 07:36 PM	200	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Neurontin							
Remarks: Gabapentin is an antiepileptic drug used for the treatment of seizures and neuropathies. The elimination half-life is 5 to 7 hours in patients with normal renal function.							
Detection Window: Up to 5 days							

Test Description <b>Opioids &amp; Opiate Analogs Definitive</b>	Status Final Result	Specimen Source UR: Urine					
Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
7-hydroxy Mitragynine	75.8127058908333	11/28/2025 07:36 PM	15	ng/mL	Abnormal	Final	Gnosis - Orange

Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Kratom, 7-hydroxymitragynine							
Remarks: 7-hydroxymitragynine is a metabolite of mitragynine. Substance can also be found in certain products available for purchase.							
Detection Window: Up to 5 days							
<b>Dextromethorphan</b>	Negative	11/28/2025 07:36 PM	50	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>Dextrorphan/Levorphanol</b>	80.8343206581659	11/28/2025 07:36 PM	50	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Levorphanol, Metabolite of Dextromethorphan							
Remarks: Dextrorphan is a major metabolite of dextromethorphan. This method cannot differentiate between Dextrorphan and its stereoisomer Levorphanol (synthetic opioid analgesic).							
Detection Window: Up to 5 days							
<b>Mitragynine</b>	Negative	11/28/2025 07:36 PM	25	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>N-desethyl Etonitazene</b>	Negative	11/28/2025 07:36 PM	5	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>N-desethyl Metonitazene</b>	Negative	11/28/2025 07:36 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>N-Pyrrolidino Etonitazene</b>	Negative	11/28/2025 07:36 PM	5	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>Naloxone</b>	Negative	11/28/2025 07:36 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							
<b>Naltrexone</b>	Negative	11/28/2025 07:36 PM	10	ng/mL	Normal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation:							

Test Description <b>Alcohol Biomarkers Definitive</b>	Status <b>Final Result</b>	Specimen Source UR: Urine					
Received At 12/01/2025 10:07 AM	Completed At 12/02/2025 04:54 PM	Ordering Physician Ellen Barbieri					
<b>Results</b>							
Result Description	Observed Result	Observed At	Cutoff / Reference Range	Unit	Outcome	Status	Lab
Ethyl glucuronide (EtG)	> 37500	11/28/2025 07:36 PM	500	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Ethanol							
Remarks: EtG is a minor metabolite of ethanol. Therefore, its detection in urine is a biomarker of ethanol consumption.							
Detection Window: Up to 3 days							
Ethyl Sulfate (EtS)	> 7500	11/28/2025 07:36 PM	100	ng/mL	Abnormal	Final	Gnosis - Orange
<b>Notes:</b>							
Prescribed Medications: Acetaminophen, Loperamide, Multivitamin, Tuberculin purified protein derivative, Thiamine, diazepam, ondansetron HCl, clonidine HCl							
Interpretation: INCONSISTENT							
Common Source: Ethanol							
Remarks: EtS is a minor metabolite of ethanol. Therefore, its detection in urine is a biomarker of ethanol consumption.							
Detection Window: Up to 3 days
